WHEREAS, The search team quickly found the wheelchair-bound woman in a narrow winding stairway; and

WHEREAS, After several attempts to carry the victim in her wheelchair down the narrow stairway, the fire fighters removed the woman from her chair and carried her down the narrow stairs to safety and medical attention outside the structure; and

WHEREAS, After making sure that the trapped mother was safe and under medical care, the crews returned to the task of successfully extinguishing the fire; and

Rules Suspended -- PRESENTATION OF BRONZE STAR
MEDAL TO ALDERMAN JAMES A. BALCER.

At this point in the proceedings, Alderman Suarez moved to *Suspend the Rules Temporarily* for the purpose of going out of the regular order of business to allow Major General Jack A. Davis, Colonel Frank Johnson and Major Hal "Fritz" Werner (retired) of the United States Marine Corps the privilege of the floor. The motion *Prevailed*.

Speaking from the Clerk's rostrum, Colonel Frank Johnson read a citation honoring Private First Class James A. Balcer, 1st Battalion, 9th Marine, 3rd Marine Division, for his heroic actions in the rescue of American soldiers killed or wounded during Operation Dewey Canyon in the A Shau Valley in the Republic of Vietnam on February 22 and 23, 1969. Major Hal "Fritz" Werner, former commanding officer of Company D, 1st Battalion, then addressed the members of the City Council and assembled guests, lauding Alderman Balcer for his extraordinary leadership and loyalty to his fellow Marines in Vietnam and to his constituency in Chicago. Major General Jack A. Davis, Commanding General, 4th Marine Division who participated in the same military operation, characterized Alderman Balcer's actions as personifying the Marine ethos that "Marines don't leave Marines behind on the battlefield". Major General Jack A. Davis, accompanied by Major Hal "Fritz" Werner and Colonel Frank Johnson, then left the Clerk's rostrum and strode to the Council floor where Major Davis awarded the Bronze Star Medal for heroism to Alderman James A. Balcer.

At this point in the proceedings, The Honorable Richard M. Daley, Mayor, rose and on behalf of the people of Chicago, extended congratulations to Alderman James A. Balcer on receiving this distinguished award. Lauding Alderman Balcer as an example of the many unsung heroes in American history, Mayor Daley noted that a debt of gratitude is owed to all those courageous men and women who serve in the United States military.

Alderman Balcer then thanked the members of the City Council and the United States Marine Corps for the honor accorded him and proudly proclaimed "God bless America and Semper Fidelis".

Developer shall have secured all other necessary approvals and permits required by any state, federal, or local statute, ordinance or regulation and shall submit evidence thereof to the D.P.D. for the initial phase of the Project, and for subsequent phases as are necessary.

5.04 Financing.

Developer shall have furnished proof reasonably acceptable to the City (including, without limitation, copies of all financing and tax credit documents) that the Developer has Equity, Tax Credit Equity and Lender Financing in the

amounts set forth in Section 4.01 hereof committed to complete the Project and satisfy its obligations under this Agreement. If a portion of such funds consists of Lender Financing or Tax Credit Equity, Developer shall have furnished proof as of the Closing Date that such funds are available to be drawn upon by Developer as needed and are sufficient (along with other sources set forth in Section 4.01) to complete the Project. Any Lender liens against the Property in existence at the Closing Date shall be subordinated to certain encumbrances of the City set forth herein pursuant to a subordination agreement ("Subordination Agreement"), in a form acceptable to the City and Lender, executed on or prior to the Closing Date, which is to be recorded, at the expense of Developer, with the Office of the Recorder of Deeds of Cook County, Illinois ("Recorder's Office"). In addition thereto, if requested by McRae, the City and McRae shall enter into a recognition and attornment agreement ("Recognition Agreement") satisfactory to each of said parties.

5.05 Acquisition And Title.

The Carson's Parcel and the Adjacent Parcels (subject to the provisions described below) collectively constitute the Property upon which the Project shall be developed. Developer presently possesses the right to acquire the fee simple title to the Carson's Parcel from McRae, the present owner, pursuant to a real estate purchase agreement.

Pursuant to City Council authority and the terms and conditions of the Original Agreement, the City has acquired the leased fee interest in the Adjacent Parcels through the use of "quick take eminent domain proceedings".

If, subsequent to the execution of this Agreement by the parties but prior to the closing and conveyance of the Carson's Parcel and the Adjacent Parcels to Developer, McRae has terminated the purchase contract between McRae and Developer, the parties may seek to terminate this Agreement by the delivery of written notice to the other party, and the parties shall be under no further obligation to the other; provided, however, the City may draw on the Acquisition L/C to cover its legal fees and court costs (including attorney fees) with regard to the City's efforts to acquire the leased fee interest in the Adjacent Parcels and return the Acquisition L/C for cancellation to the extent not drawn upon. In the event the Agreement is terminated in accordance with the provisions of this paragraph, the parties agree that McRae, upon written notice to the City given within thirty (30) days after termination and accompanied by a completed economic disclosure statement and such other information as the City may request of McRae, may deliver to the City a replacement Acquisition L/C in the amount previously delivered to the City by Developer and undertake Developer's obligations under this Agreement as a successor in interest, or in the alternative,

the City may in its discretion negotiate an amendment to this Agreement with McRae. Alternatively, the City will agree to terminate the Agreement and convey the Adjacent Parcels to McRae, so long as McRae, within said thirty (30) day period, agrees to pay the City's acquisition costs (including court costs and legal fees) with regard to the Adjacent Parcels. In the event of delivery by McRae of a replacement L/C or payment to the City of the City's acquisition costs, the Acquisition L/C shall be returned to Developer, or if already drawn upon, shall deliver to Developer the amount so drawn.

At Closing, the Land Co. shall acquire the Carson's Parcel from McRae, which in turn, shall convey the Carson's Parcel to Developer. Furthermore, the Land Co. and Developer shall execute that certain covenant to run with the land ("Carson's Covenant") affecting the 1960s addition to the C.P.S. Building whereby these improvements shall be "joined" into the Chicago landmark designation of the C.P.S. Building and provide, inter alia, that the owner of the C.P.S. Building must carry replacement value insurance with regard to the State Street facade of the C.P.S. Building and its cornice.

Concurrently, at Closing, the Land Co. (on behalf of Developer) shall acquire from the City the leased fee interest in the Adjacent Parcels (which had previously been acquired by the City), and in turn, shall convey its interest in such Parcels to Developer. The City shall convey its interest in the Adjacent Parcels (subject to the City's reverter rights) by quitclaim deed ("Deed") substantially in the form attached hereto as (Sub)Exhibit M. At Closing, in addition to the Deed, the City shall deliver to the Managing Member a Bill of Sale, if required, and a certified copy of the ordinance adopted by the City Council authorizing the City to enter into and perform the Agreement. The consideration for the Adjacent Parcels to be paid to the City shall be the sum of One and no/100 Dollars (\$1.00).

The conveyance and title of any of the Adjacent Parcels shall, in addition to the provisions of the Agreement, be subject to:

1. Covenants and restrictions set forth in the Deed.
2. The Redevelopment Plan.
3. The Permitted Exceptions as disclosed by the Title Policy.
4. Taxes for the current year not then due and owing.
5. Title objections caused by Developer.
6. The Subordination Agreement.

7. The Recognition Agreement (if required).
8. The Carson's Covenant.

In addition, the leased fee interest in the Adjacent Parcels shall be conveyed by the City to the Land Co. "As Is" and "Where Is", and with no warranty, express or implied, by the City as to the condition of the soil, its geology, or the presence of known or unknown faults, or to the physical and environmental condition of any improvements located thereon. It shall be the sole responsibility of Developer to investigate and determine the environmental condition of the Adjacent Parcels. If the environmental condition of the Adjacent Parcels is not in all respects entirely suitable for the use or uses to which the Adjacent Parcels are to be utilized in conjunction with the Project, then it shall be the sole responsibility and obligation of Developer to take such action as may be necessary to place the environmental condition of the Adjacent Parcels in a condition entirely suitable for the intended Project.

Notwithstanding anything to the contrary contained in the Agreement, the following shall be conditions precedent to the City's conveyance of the leased fee interest in the Adjacent Parcels:

- (a) approval by the D.P.D. of the Plans and Specifications for the initial phase of the Project;
- (b) approval by the D.P.D. of the Schedule for the Project;
- (c) approval by the D.P.D. of Developer's Budget and, with regard to the initial phase of the Project, the deposit of Developer's Equity and satisfactory demonstration by Developer of Lender Financing for deposit in the Escrow;

- (e) the obtaining by Developer of insurance policies as provided for in Section 5.08 and Section 12 below;
- (f) the acquisition of the Carson's Parcel by Developer; and
- (g) delivery to the City of the Carson's Covenant.

On the Closing Date, Developer shall furnish the City with a copy of the Title Policy issued by the Title Company for the Property. The Title Policy shall be dated

as of the Closing Date and shall contain only those title exceptions listed as Permitted Liens on (Sub)Exhibit I hereto and shall evidence the recording of this Agreement and the Carson's Covenant pursuant to the provisions of Section 8.18 hereof. The Title Policy shall also contain such endorsements as shall be required by Corporation Counsel, including but not limited to, a comprehensive endorsement and satisfactory endorsements regarding zoning (3.1), contiguity, location, access, survey and waiver of creditor's rights. Developer shall provide to the D.P.D., prior to the Closing Date, documentation related to the purchase of the Carson's Parcel and the Property and certified copies of all easements and encumbrances of record with respect to the Property not addressed, to the D.P.D.'s satisfaction, by the Title Policy and any endorsements thereto.

Notwithstanding anything to the contrary contained in the Agreement, if the City's acquisition costs (calculated solely based on the aggregate amount of the final judgment award relating to the acquisition of the Adjacent Parcels) for all of the Adjacent Parcels has acquired, exceed the sum of Eight Million Dollars (\$8,000,000), the Managing Member agrees to reimburse the City for fifty percent (50%) of the amount which exceeds the sum of Eight Million Dollars (\$8,000,000). This sum, if any, shall be paid to the City upon written demand by the City.

Section 6.

Agreements With Contractors.

6.01 Bid Requirement For General Contractor And Subcontractors.

The D.P.D. has approved the selection of Capitol Construction Group, Inc., an Illinois corporation, as the General Contractor hired by Developer regarding the construction and development of the Project. The D.P.D. has also approved the selection of the McClier Corporation, an Illinois corporation, as the Preservation Architect hired by Developer regarding the Historic Component Work.

(a) Except as set forth above or in Section 6.01(b) below, prior to entering into an agreement with the General Contractor or any subcontractor for construction of the Project (excluding the Carson Component Work), Developer shall solicit, or shall cause the General Contractor to solicit, bids from qualified contractors eligible to do business with the City of Chicago, and shall submit all bids received to the D.P.D. for its inspection and written approval.

(i) For the T.I.F.-Funded Improvements, Developer shall cause the General Contractor to select the subcontractor submitting the lowest responsible bid who can complete the Project (excluding the Carson Component Work) in a timely manner. If the General Contractor selects any subcontractor submitting other than the lowest responsible bid for the T.I.F.-Funded Improvements, the difference between the lowest responsible bid and the bid selected may not be paid out of City Funds.

(ii) For Project work other than the T.I.F.-Funded Improvements, if Developer selects a General Contractor other than Capitol Construction Group, Inc. (or the General Contractor selects any subcontractor) who has not submitted the lowest responsible bid, the difference between the lowest responsible bid and the higher

bid selected shall be subtracted from the actual total Project costs for purposes of the calculation of the amount of City Funds to be contributed to the Project pursuant to Section 4.03(b) hereof.

Developer shall submit copies of the Construction Contract to the D.P.D. in accordance with Section 6.02 below. Photocopies of all subcontracts entered or to be entered into in connection with the T.I.F.-Funded Improvements shall be provided to the D.P.D. within five (5) business days of the execution thereof. Developer shall ensure that the General Contractor shall not (and shall cause the General Contractor to ensure that the subcontractors shall not) begin work on the Project (excluding the Carson Component Work) until the Plans and Specifications for the pertinent phase have been approved by the D.P.D. and the Landmark's Commission and all requisite permits have been obtained.

(b) If, prior to entering into an agreement with the General Contractor for construction of the Project (excluding the Carson Component Work), Developer does not solicit bids pursuant to Section 6.01(a) hereof, then the fee of the General Contractor shall be limited to ten percent (10%) of the total amount of the Construction Contract. Except as explicitly stated in this paragraph and the first paragraph of Section 6.01 hereof, all other provisions of Section 6.01(a) shall apply, including but not limited to, the requirement that the General Contractor shall solicit competitive bids from all subcontractors.

6.02 Construction Contract.

Prior to the Closing Date, Developer shall deliver to the D.P.D. a copy of the proposed Construction Contract with the General Contractor selected to handle the Project in accordance with Section 6.01 above, for D.P.D.'s prior written approval, which shall be granted or denied within ten (10) business days after delivery thereof. Within ten (10) business days after execution of such contract by Developer, the General Contractor and any other parties thereto, Developer shall deliver to the D.P.D. and the Corporation Counsel a certified copy of such contract together with any modifications, amendments or supplements thereto.

6.03 Performance And Payment Bonds.

Prior to commencement of any portion of the Project in the public way (excluding the Carson Component Work), Developer shall require that the General Contractor be bonded for its performance and payment by sureties having an AA rating or better using American Institute of Architect's Form Number A311 or its equivalent. The City shall be named as obligee or co-obligee on such bond. Prior to the

commencement by the General Contractor or any subcontractor of work in the public way, the General Contractor and any such subcontractor shall comply with the licensing, letter of credit, insurance and bonding, and other requirements applicable under the Municipal Code.

Notwithstanding the above, if the Lender requires that the General Contractor obtain a payment and performance bond with regard to the undertaking of the Project, the City shall be named as co-obligee on such bond.

6.04 Employment Opportunity.

Developer shall contractually obligate and cause the General Contractor and each subcontractor to agree to the provisions of Section 10 hereof.

6.05 Other Provisions.

Requirements; General Contractor only), Section 12 (Insurance) and Section 14.01 (Books and Records) hereof. Photocopies of all contracts or subcontracts entered or to be entered into in connection with the T.I.F.-Funded Improvements shall be provided to D.P.D. within five (5) business days of the execution thereof.

Section 7.

Completion Of Construction Or Rehabilitation.

7.01 Interim Certificate; Final Certificate.

After the completion of any of: (i) the construction, lease and acceptance by tenants of one hundred twenty thousand (120,000) square feet of new office space as part of the Office Component Work, and (ii) the Historic Work Component, respectively, and upon Developer's written request, the D.P.D. shall issue to Developer an interim Certificate of Completion ("Interim Certificate") in recordable form certifying that Developer has fulfilled its obligations to complete the applicable component in accordance with the terms and conditions of the Redevelopment

Agreement, including, without limitation, compliance with Sections 10.01, 10.02 and 10.03 below. With regard to the issuance of the Interim Certificates for the Historic Component Work, such Interim Certificates shall be issued in conjunction with the issuance of Part III approval by the National Park Service regarding the completion of the Historic Component Work. The D.P.D. shall respond to Developer's written request for a Certificate within thirty (30) days by issuing either the Interim Certificate or a written statement detailing the ways in which the applicable component of the Project does not conform to this Agreement or has not been satisfactorily completed, and the measures which must be taken by Developer in order to obtain the Certificate. Developer may resubmit a written request for a Certificate upon completion of such measures.

Once Developer has completed all of the components (which in the case of the Office Component Work, shall mean the one hundred twenty thousand (120,000) square feet requirement described in this Section 7.01) and other aspects of the Project (as included in the definition of the Project), the D.P.D., upon the written request of Developer, shall issue to Developer a "Final Certificate" in recordable form certifying that Developer has fulfilled its obligation to complete the Project in accordance with the terms of this Agreement.

Notwithstanding anything to the contrary contained herein, the Interim Certificates and Final Certificate issued by the D.P.D. shall not constitute evidence that Developer has complied with any applicable provisions of federal, state and local laws, ordinances and regulations with regard to the completion of the various components of the Project and furthermore, shall not serve as any "guaranty" as to the quality of the construction or renovation work.

7.02 Effect Of Issuance Of Certificate; Continuing Obligations.

The Interim Certificates and Final Certificate relate only to the construction and rehabilitation work associated with the Project, and upon issuance, the City will certify that the terms of the Agreement specifically related to Developer's obligation to complete such activities have been satisfied. After the issuance of an Interim Certificate or the Final Certificate, however, all executory terms and conditions of this Agreement and all representations and covenants contained herein will continue to remain in full force and effect throughout the Term of the Agreement as to the parties described in the following paragraph, and the issuance of the Interim Certificates and Final Certificate shall not be construed as a waiver by the City of any of its rights and remedies pursuant to such executory terms.

Those covenants specifically described in Sections 8.01(o), 8.02 and 8.19 and the covenants contained in the Deed and the Carson's Covenant shall be covenants that run with the land, and are the only covenants in this Agreement intended to be

binding upon any transferee of the Property (including an assignee as described in the following sentence) throughout the Term of the Agreement notwithstanding the issuance of an Interim Certificate or the Final Certificate. The other executory terms of this Agreement that remain after the issuance of a Certificate shall be binding only upon Developer or a permitted assignee of Developer who, pursuant to Section 18.15 of this Agreement, has contracted to take an assignment of Developer's rights under this Agreement and assume Developer's liabilities hereunder.

7.03 Failure To Complete.

If Developer fails to complete the Project (excluding the Carson Component Work) in accordance with the terms of this Agreement, including, without limitation, the time for completion of the various components of the Project, then the City shall have, but shall not be limited to, any of the following rights and remedies:

(a) the right to terminate this Agreement and draw on the Construction L/C and the Acquisition L/C, as the case may be;

(b) the right (but not the obligation) to complete those T.I.F.-Funded Improvements that are public improvements and to pay for the costs of T.I.F.-Funded Improvements (including interest costs) out of City Funds or other City monies. In the event that the aggregate cost of completing the T.I.F.-Funded Improvements exceeds the amount of City Funds available pursuant to Section 4.01, Developer shall reimburse the City for all reasonable costs and expenses incurred by the City in completing such T.I.F.-Funded Improvements in excess of the available City Funds, or the City may draw on the Acquisition L/C; and

(c) the right to seek reimbursement of the City Funds from Developer, provided that the City is entitled to rely on an opinion of counsel that such reimbursement will not violate any Bond documents.

7.04 Notice Of Expiration Of Term Of Agreement.

Upon the expiration of the Term of the Agreement, the D.P.D. shall provide Developer, at Developer's written request, with a written notice in recordable form stating that the Term of the Agreement has expired.

Section 8.

(d) unless otherwise permitted pursuant to the terms of this Agreement, Developer shall acquire from Land Co. on the Closing Date and thereafter maintain good, indefeasible and merchantable fee simple title to the Property free and clear of all liens (except for the Permitted Liens, Lender Financing and non governmental charges that Developer is contesting in good faith pursuant to Section 8.15 hereof);

Ordinances, the Bond Ordinance, the Scope Drawings, Plans and Specifications, Project Budget and all amendments thereto, and all federal, state and local laws,

ordinances, rules, regulations, executive orders and codes applicable to the Project, the Property and/or Developer. In addition, the Carson's Lease shall contain a provision that the Carson Component Work shall be undertaken in accordance with the pertinent Scope Drawings, the Carson Plans and Specifications, and all federal, state and local laws, ordinances, rules, regulations, executive orders and codes applicable to the Carson Component Work, including, without limitation, the Carson's Covenant. The covenants set forth in this section shall run with the land and be binding upon any transferee.

8.03 Redevelopment Plan.

Developer represents that the Project is and shall be in compliance with all of the terms of the Redevelopment Plan.

8.04 Use Of City Funds.

City Funds disbursed to the Developer shall be used by the Developer solely to pay for (or to reimburse Developer for its payment for) the T.I.F.-Funded Improvements as provided in this Agreement.

8.05 Other Bonds.

Developer shall, at the request of the City, agree to any reasonable amendments to this Agreement that are necessary or desirable in order for the City to issue (in its sole discretion) any additional bonds in connection with the Project or the Redevelopment Project Area ("Other Bonds"); provided, however, that any such amendments shall not have a material adverse effect on Developer, the Property or the Project. Developer shall, at Developer's expense, cooperate and provide reasonable assistance in connection with the marketing of any such Other Bonds, including but not limited to providing written descriptions of the Project, making representations, providing information regarding its financial condition and assisting the City in preparing an offering statement with respect thereto. Developer shall not have any liability with respect to any disclosures made in connection with any such issuance that are actionable under applicable securities laws unless such disclosures are based on factual information provided by Developer that is determined to be false and misleading.

8.06 [Intentionally Deleted].

8.07 Employment Opportunity; Progress Reports.

Developer covenants and agrees to abide by, and contractually obligate and use reasonable efforts to cause the General Contractor and each subcontractor to abide by the terms set forth in Section 10 hereof. Developer shall deliver to the City written progress reports detailing compliance with the requirements of Sections 8.09, 10.02 and 10.03 of this Agreement. Such reports shall be delivered to the City when the Project (excluding the Carson Component Work) is twenty-five percent (25%), fifty percent (50%), seventy-five percent (75%) and one hundred percent (100%) completed (based on the amount of expenditures incurred in relation to the Project Budget). If any such reports indicate a shortfall in compliance, Developer shall also deliver a plan to the D.P.D. which shall outline, to the D.P.D.'s satisfaction, the manner in which Developer shall correct any shortfall.

8.08 Employment Profile.

Developer shall submit, and contractually obligate and use the General Contractor or any subcontractor to submit, to the D.P.D., from time to time, statements of its employment profile upon the D.P.D.'s request.

8.09 Prevailing Wage.

Developer covenants and agrees to pay and to contractually obligate and cause the General Contractor and each subcontractor to pay, the prevailing wage rate as ascertained by the Illinois Department of Labor ("Department"), to all Project employees. All such contracts shall list the specified rates to be paid to all laborers, workers and mechanics for each craft or type of worker or mechanic employed pursuant to such contract. If the Department revises such prevailing wage rates, the revised rates shall apply to all such contracts. Upon the City's request, Developer shall provide the City with copies of all such contracts entered into by the Developer or the General Contractor to evidence compliance with this Section 8.09.

8.10 Arms-Length Transactions.

Unless the D.P.D. shall have given its prior written consent with respect thereto, no Affiliate of Developer may receive any portion of City Funds, directly or indirectly, in payment for work done, services provided or materials supplied in connection with any T.I.F.-Funded Improvement. Developer shall provide information with

respect to any entity to receive City Funds directly or indirectly (whether through payment to the Affiliate by Developer and reimbursement to Developer for such costs using City Funds, or otherwise), upon the D.P.D.'s request, prior to any such disbursement.

8.11 Conflict Of Interest.

Pursuant to Section 5/11-74.4-4(n) of the Act, Developer represents, warrants and covenants that, to the best of its knowledge, no member, official or employee of the City, or of any commission or committee exercising authority over the Project, the Redevelopment Area or the Redevelopment Plan, or any consultant hired by the City or Developer or the Managing Member with respect thereto, owns or controls, has owned or controlled or will own or control any interest, and no such person shall represent any person, as agent or otherwise, who owns or controls, has owned or controlled, or will own or control any interest, direct or indirect, in any such entity's business, the Property or any other property in the Redevelopment Area.

8.12 Disclosure Of Interest.

Developer's counsel has no direct or indirect financial ownership interest in Developer, the Property or any other aspect of the Project.

8.13 Financial Statements.

Developer shall obtain and provide to the D.P.D. Financial Statements for Developer's fiscal year ended December 31, 2000 and each fiscal year thereafter for the term of the Agreement. In addition, Developer shall submit unaudited financial statements as soon as reasonably practical following the close of each fiscal year and for such other periods as D.P.D. may request and such other financial statements as Developer may prepare for the Lender.

8.14 Insurance.

Developer, at its own expense, shall comply with all provisions of Section 8.19 and Section 12 hereof.

8.15 Non-Governmental Charges.

(a) Payment Of Non-Governmental Charges. Except for the Permitted Liens,

Developer agrees to pay or cause to be paid when due any Non-Governmental Charge assessed or imposed upon the Project, the Property or any fixtures that are or may become attached thereto, which creates, may create or appears to create a lien upon all or any portion of the Property or Project; provided, however, that if such Non-Governmental Charge may be paid in installments, Developer may pay the same together with any accrued interest thereon in installments as they become due and before any fine, penalty, interest or cost may be added thereto for nonpayment. Developer shall furnish to the D.P.D., within thirty (30) days of the D.P.D.'s request, official receipts from the appropriate entity, or other proof satisfactory to the D.P.D., evidencing payment of the Non-Governmental Charge in question.

(b) Right To Contest. Developer shall have the right, before any delinquency occurs:

(i) to contest or object in good faith to the amount or validity of any Non-Governmental Charge by appropriate legal proceedings properly and diligently instituted and prosecuted, in such manner as shall stay the collection of the contested Non-Governmental Charge, prevent the imposition of a lien or remove such lien, or prevent the sale or forfeiture of the Property (so long as no such contest or objection shall be deemed or construed to relieve, modify or extend the Developer's covenants to pay any such Non-Governmental Charge at the time and in the manner provided in this Section 8.15); or

(ii) at the D.P.D.'s sole option, to furnish a good and sufficient bond or other security satisfactory to the D.P.D. in such form and amounts as the D.P.D. shall require, or a good and sufficient undertaking as may be required or permitted by law to accomplish a stay of any such sale or forfeiture of the Property or any portion thereof or any fixtures that are or may be attached thereto, during the pendency of such contest, adequate to pay fully any such contested Non-Governmental Charge and all interest and penalties upon the adverse determination of such contest.

8.16 Developer's Liabilities.

Developer shall not enter into any transaction that would materially and adversely affect its ability to perform its obligations hereunder or to repay any material liabilities or perform any material obligations of Developer to any other person or entity. Developer shall immediately notify the D.P.D. of any and all events or

actions which may materially affect Developer's ability to carry on its business operations or perform its obligations under this Agreement or any other documents and agreements.

8.17 Compliance With Laws.

To the best of Developer's knowledge, after diligent inquiry, the Property and the Project are and shall be in compliance with all applicable federal, state and local laws, statutes, ordinances, rules, regulations, executive orders and codes pertaining to or affecting the Project and the Property. Upon the City's request, Developer shall provide evidence satisfactory to the City of such compliance.

8.18 Recording And Filing.

Developer shall cause this Agreement, certain exhibits (as specified by Corporation Counsel), all amendments and supplements hereto, the Deed and the Carson's Covenant to be recorded and filed with the Recorder's Office. This Agreement shall be recorded prior to any mortgage made in connection with Lender Financing, provided, however, that if such mortgage has been recorded prior to the Closing Date, a subordination agreement in which the Lender subordinates its mortgage lien to the covenants specified in Section 7.02 that run with the land may be recorded instead. Developer shall pay all fees and charges incurred in connection with any such recording. Upon recording, Developer shall immediately transmit to the City an executed original of this Agreement and the Carson's Covenant showing the date and recording number of record.

8.19 Real Estate Provisions.

(a) Governmental Charges.

(i) Payment Of Governmental Charges. Developer agrees to pay or cause to be paid when due all Governmental Charges (as defined below) which are assessed or imposed upon the Developer, the Property or the Project, or become due and payable, and which create, may create or appear to create a lien upon the Developer or all or any portion of the Property or the Project. "Governmental Charge" shall mean all federal, state, county, the City or other governmental (or

any instrumentality, division, agency, body or department thereof) taxes, levies, assessments, charges, liens, claims or encumbrances relating to Developer, the Property or the Project including but not limited to real estate taxes.

(ii) Right To Contest. Developer shall have the right before any delinquency occurs to contest or object in good faith to the amount or validity of any Governmental Charge by appropriate legal proceedings properly and diligently instituted and prosecuted in such manner as shall stay the collection of the contested Governmental Charge and prevent the imposition of a lien or the sale or forfeiture of the Property. No such contest or objection shall be deemed or construed in any way as relieving, modifying or extending the Developer's covenants to pay any such Governmental Charge at the time and in the manner provided in this Agreement unless Developer has given prior written notice to the D.P.D. of Developer's intent to contest or object to a Governmental Charge and, unless, at the D.P.D.'s sole option,

(i) Developer shall demonstrate to the D.P.D.'s satisfaction that legal proceedings instituted by Developer contesting or objecting to a Governmental Charge shall conclusively operate to prevent or remove a lien against, or the sale or forfeiture of, all or any part of the Property to satisfy such Governmental Charge prior to final determination of such proceedings; and/or

(ii) Developer shall furnish a good and sufficient bond or other security satisfactory to the D.P.D. in such form and amounts as the D.P.D. shall require, or a good and sufficient undertaking as may be required or permitted by law to accomplish a stay of any such sale or forfeiture of the Property during the pendency of such contest, adequate to pay fully any such contested Governmental Charge and all interest and penalties upon the adverse determination of such contest.

(b) Developer's Failure To Pay Or Discharge Lien. If Developer fails to pay any Governmental Charge or to obtain discharge of the same, Developer shall advise D.P.D. thereof in writing, at which time the D.P.D. may, but shall not be obligated to, and without waiving or releasing any obligation or liability of Developer under this Agreement, in the D.P.D.'s sole discretion, make such payment, or any part thereof, or obtain such discharge and take any other action with respect thereto which the D.P.D. deems advisable. All sums so paid by the D.P.D., if any, and any expenses, if any, including reasonable attorneys' fees, court costs, expenses

and other charges relating thereto, shall be promptly disbursed to the D.P.D. by Developer. Notwithstanding anything contained herein to the contrary, this paragraph shall not be construed to obligate the City to pay any such Governmental Charge. Additionally, if Developer fails to pay any Governmental Charge, the City, in its sole discretion, may require Developer to submit to the City audited Financial Statements at Developer's own expense.

(c) Insurance. In addition to the insurance required pursuant to Section 12 hereof, Developer shall procure and maintain the following insurance:

(i) Prior to the execution and delivery of this Agreement and during construction of the Project, All Risk Property Insurance in the amount of the full replacement value of the Property, including, without limitation, the State Street facade of the Building and the cornice;

(ii) Post-construction, throughout the Term of the Agreement, All Risk Property Insurance, including improvements and betterments in the amount of full replacement value of the Property, including, without limitation, the State Street facade of the Building and the cornice. Coverage extensions shall include business interruption/loss of rents, flood and boiler and machinery, if applicable; and

(iii) Until the demolition of the Building, "all risk" property insurance covering the terra cotta facade for the full replacement value of such facade, provided, however, that Developer and its successors in title may seek a written, recordable waiver of this requirement from the D.P.D. if Developer is able to demonstrate that the obtaining of such insurance is so expensive as to be commercially unreasonable, which waiver shall be within the D.P.D.'s sole discretion.

(d) Until the demolition of the Building, Developer and its successors in title shall at all times (i) maintain an adequate operating reserve fund for the express purpose of maintaining the terra cotta facade and ornamentation on the Building, including the cornice, and (ii) preserve intact and in good condition and in compliance with all applicable historic preservation requirements and guidelines the significant architectural features described in (Sub)Exhibit L. Upon the City's request, the current title holder shall provide the City with satisfactory evidence of such fund and permit the City access to the Building to confirm compliance with such maintenance obligations.

8.20 [Intentionally Deleted].

8.21 Public Benefits Agreement.

Developer and the City shall execute that certain Public Benefits Agreement regarding the provision of certain public benefits in conjunction with the development and operation of the Project, substantially in the form attached hereto as (Sub)Exhibit P.

8.22 Survival Of Covenants.

All warranties, representations, covenants and agreements of Developer contained in this Section 8 and elsewhere in this Agreement shall be true, accurate and complete at the time of Developer's execution of this Agreement, and shall survive the execution, delivery and acceptance hereof by the parties hereto and (except as provided in Section 7 hereof upon the issuance of an Interim Certificate or Final Certificate) shall be in effect throughout the Term of the Agreement.

Section 9.

Covenants/Representations/Warranties Of City.

9.01 General Covenants.

The City represents that it has the authority as a home rule unit of local government to execute and deliver this Agreement and to perform its obligations hereunder.

9.02 Survival Of Covenants.

All warranties, representations, and covenants of the City contained in this Section 9 or elsewhere in this Agreement shall be true, accurate, and complete at the time of the City's execution of this Agreement, and shall survive the execution, delivery and acceptance hereof by the parties hereto and be in effect throughout the Term of the Agreement.

Section 10.

Developer's Employment Obligations.

10.01 Employment Opportunity.

Developer, on behalf of itself and its successors and assigns, hereby agrees, and shall contractually obligate its or their various contractors, subcontractors or any Affiliate of Developer operating on the Property (collectively, with Developer, the "Employers" and individually an "Employer") to agree, that for the Term of this Agreement with respect to Developer and during the period of any other party's provision of services to Developer in connection with the construction of the Project or occupation of the Property, contain the following provisions:

(a) No Employer shall discriminate against any employee or applicant for employment based upon race, religion, color, sex, national origin or ancestry, age, handicap or disability, sexual orientation, military discharge status, marital status, parental status or source of income as defined in the City of Chicago Human Rights Ordinance, Chapter 2-160, Section 2-160-010, et seq., Municipal Code, except as otherwise provided by said ordinance and as amended from time to time ("Human Rights Ordinance"). Each Employer shall take affirmative action to ensure that applicants are hired and employed without discrimination based upon race, religion, color, sex, national origin or ancestry, age, handicap or disability, sexual orientation, military discharge status, marital status, parental status or source of income and are treated in a non-discriminatory manner with regard to all job-related matters, including without limitation: employment, upgrading, demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. Each Employer agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the City setting forth the provisions of this nondiscrimination clause. In addition, the Employers, in all solicitations or advertisements for employees, shall state that all qualified applicants shall receive consideration for employment without discrimination based upon race, religion, color, sex, national origin or ancestry, age, handicap or disability, sexual orientation, military discharge status, marital status, parental status or source of income.

(b) To the greatest extent feasible, each Employer is required to present opportunities for training and employment of low- and moderate-income residents of the City and preferably of the Redevelopment Area; and to provide that contracts for work in connection with the construction of the Project be awarded to business concerns that are located in, or owned in substantial part by persons residing in, the City and preferably in the Redevelopment Area.

(c) Each Employer shall comply with all federal, state and local equal employment and affirmative action statutes, rules and regulations, including but not limited to the City's Human Rights Ordinance and the Illinois Human Rights Act, 775 ILCS 5/1-101, et seq. (1993), and any subsequent amendments and regulations promulgated thereto.

(d) Each Employer, in order to demonstrate compliance with the terms of this Section, shall cooperate with and promptly and accurately respond to inquiries by the City, which has the responsibility to observe and report compliance with equal employment opportunity regulations of federal, state and municipal agencies.

(e) Each Employer shall include the foregoing provisions of subparagraphs (a) through (d) in every contract entered into in connection with the Project, and shall require inclusion of these provisions in every subcontract entered into by any subcontractors, and every agreement with any Affiliate operating on the Property, so that each such provision shall be binding upon each contractor, subcontractor or Affiliate, as the case may be.

(f) Failure to comply with the employment obligations described in this Section 10.01 shall be a basis for the City to pursue remedies under the provisions of Section 15.02 hereof.

10.02 City Resident Construction Worker Employment Requirement.

Developer agrees for itself and its successors and assigns, and shall contractually obligate its General Contractor and shall cause the General Contractor to contractually obligate its subcontractors, as applicable, to agree, that during the construction of the Project (for purposes of this Section 10.02, excluding the Carson Component Work) they shall comply with the minimum percentage of total worker hours performed by actual residents of the City as specified in Section 2-92-330 of the Municipal Code (at least fifty percent (50%) of the total worker hours worked by persons on the site of the Project shall be performed by actual residents of the City); provided, however, that in addition to complying with this percentage, Developer, its General Contractor and each subcontractor shall be required to make good faith efforts to utilize qualified residents of the City in both unskilled and skilled labor positions. The requirement described in this Section 10.02 shall affect only contracts related to the construction of the Project (excluding the Carson Component Work and contracts associated with soft costs).

Developer may request a reduction or waiver of this minimum percentage level of Chicagoans as provided for in Section 2-92-330 of the Municipal Code in accordance with standards and procedures developed by the Purchasing Agent of the City.

"Actual residents of the City" shall mean persons domiciled within the City. The domicile is an individual's one and only true, fixed and permanent home and principal establishment.

Developer, the General Contractor and each subcontractor shall provide for the maintenance of adequate employee residency records to show that actual Chicago residents are employed on the Project. Each Employer shall maintain copies of personal documents supportive of every Chicago employee's actual record of residence.

Weekly certified payroll reports (United States Department of Labor Form WH-347 or equivalent) shall be submitted to the Commissioner of the D.P.D. in triplicate, which shall identify clearly the actual residence of every employee on each submitted certified payroll. The first time that an employee's name appears on a payroll, the date that the Employer hired the employee should be written in after the employee's name.

Developer, the General Contractor and each subcontractor shall provide full access to their employment records to the Purchasing Agent, the Commissioner of the D.P.D., the Superintendent of the Chicago Police Department, the Inspector General or any duly authorized representative of any of them. Developer, the General Contractor and each subcontractor shall maintain all relevant personnel data and records for a period of at least three (3) years after final acceptance of the work constituting the Project.

At the direction of the D.P.D., affidavits and other supporting documentation will be required of Developer, the General Contractor and each subcontractor to verify or clarify an employee's actual address when doubt or lack of clarity has arisen.

Good faith efforts on the part of Developer, the General Contractor and each subcontractor to provide utilization of actual Chicago residents (but not sufficient for the granting of a waiver request as provided for in the standards and procedures developed by the Purchasing Agent) shall not suffice to replace the actual, verified achievement of the requirements of this Section concerning the worker hours performed by actual Chicago residents.

When work at the Project is completed, in the event that the City has determined that Developer has failed to ensure the fulfillment of the requirement of this Section concerning the worker hours performed by actual Chicago residents or failed to report in the manner as indicated above, the City will thereby be damaged in the failure to provide the benefit of demonstrable employment to Chicagoans to the degree stipulated in this Section. Therefore, in such a case of non-compliance, it is agreed that 1/20 of 1 percent (0.0005) of the aggregate hard construction costs set forth in the Project budget (the product of .0005 x such aggregate hard

construction costs) (as the same shall be evidenced by approved contract value for the actual contracts) shall be surrendered by Developer to the City in payment for each percentage of shortfall toward the stipulated residency requirement. Failure to report the residency of employees entirely and correctly shall result in the surrender of the entire liquidated damages as if no Chicago residents were employed in either of the categories. The willful falsification of statements and the certification of payroll data may subject the Developer, the General Contractor and/or the subcontractors to prosecution. Any retainage to cover contract performance that may become due to the Developer pursuant to Section 2-92-250 of the Municipal Code may be withheld by the City pending the Purchasing Agent's determination as to whether Developer must surrender damages as provided in this paragraph.

Nothing herein provided shall be construed to be a limitation upon the "Notice of Requirements for Affirmative Action to Ensure Equal Employment Opportunity, Executive Order 11246" and "Standard Federal Equal Employment Opportunity, Executive Order 11246", or other affirmative action required for equal opportunity under the provisions of this Agreement or related documents.

Developer shall cause or require the provisions of this Section 10.02 to be included in all construction contracts and subcontracts related to the Project.

10.03 Developer's M.B.E./W.B.E. Commitment.

Developer agrees for itself and its successors and assigns, and, if necessary to meet the requirements set forth herein, shall contractually obligate the General Contractor to agree that, during the development and construction of the Project:

a. Consistent with the findings which support the Minority-Owned and Women-Owned Business Enterprise Procurement Program (the "M.B.E./W.B.E. Program"), Section 2-92-420, et seq., Municipal Code, and in reliance upon the provisions of the M.B.E./W.B.E. Program to the extent contained in, and as qualified by, the provisions of this Section 10.03, during the course of the Project, at least the following percentages of the aggregate "hard costs" and construction-related soft costs as set forth in the M.B.E./W.B.E. Budget (excluding tenant improvements which are not being undertaken by Developer) shall be expended for contract participation by M.B.E.s or W.B.E.s:

- i. At least twenty-five percent (25%) by M.B.E.s.
- ii. At least five percent (5%) by W.B.E.s.

b. For purposes of this Section 10.03 only, Developer (and any party to whom a contract is let by Developer in connection with the Project shall be deemed a "contractor" and this Agreement) and any contract let by Developer in connection with the Project shall be deemed a "contract" as such terms are defined in Section 2-92-420, Municipal Code.

c. Consistent with Section 2-92-440, Municipal Code, Developer's M.B.E./W.B.E. commitment may be achieved in part by Developer's status as an M.B.E. or W.B.E. (but only to the extent of any actual work performed on the Project by Developer), or by a joint venture with one (1) or more M.B.E.s or W.B.E.s (but only to the extent of the lesser of (i) the M.B.E. or W.B.E. participation in such joint venture or (ii) the amount of any actual work performed on the Project by the M.B.E. or W.B.E.), by Developer utilizing a M.B.E. or a W.B.E. as a General Contractor (but only to the extent of any actual work performed on the Project by the General Contractor), by subcontracting or causing the General Contractor to subcontract a portion of the Project to one or more M.B.E.s or W.B.E.s, or by the purchase of materials used in the Project from one (1) or more M.B.E.s or W.B.E.s, or by any combination of the foregoing. Those entities which constitute both a M.B.E. and a W.B.E. shall not be credited more than once with regard to Developer's M.B.E./W.B.E. commitment as described in this Section 10.03. Developer or the General Contractor may meet all or part of this commitment through credits received pursuant to Section 2-92-530 of the Municipal Code for the voluntary use of M.B.E.s or W.B.E.s in its activities and operations other than the Project.

d. During the rehabilitation and renovation work, Developer shall submit reports to the D.P.D. as part of each draw request under the Escrow describing its efforts to achieve compliance with this M.B.E./W.B.E. commitment. Such reports shall include inter alia the name and business address of each M.B.E. and W.B.E. solicited by Developer or the General Contractor to work on the Project, and the responses received from such solicitation, the name and business address of each M.B.E. or W.B.E. actually involved in the Project, a description of the work performed or products or services supplied, the date and amount of such work, product or service, and such other information as may assist the D.P.D. in determining Developer's compliance with this M.B.E./W.B.E. commitment. The D.P.D. shall have access to Developer's books and records, including, without limitation, payroll records, books of account and tax returns, and records and books of account in accordance with Section 14 of this Agreement, on five (5) business days' notice, to allow the City to review Developer's compliance with its commitment to M.B.E./W.B.E. participation and the status of any M.B.E. or W.B.E. performing any portion of the Project.

e. Upon the disqualification of any M.B.E. or W.B.E. General Contractor or subcontractor, if such status was misrepresented by the disqualified party, Developer shall be obligated to discharge or cause to be discharged the disqualified General Contractor or subcontractor and, if possible, identify and engage a qualified M.B.E. or W.B.E. as a replacement. For purposes of this Subsection (e), the disqualification procedures are further described in Section 2-92-540, Municipal Code.

f. Any reduction or waiver of Developer's M.B.E./W.B.E. commitment as described in this Section 10.03 shall be undertaken in accordance with Section 2-92-450, Municipal Code.

g. Prior to the commencement of the Project, Developer, the General Contractor and all major subcontractors shall be required to meet with the monitoring staff of the D.P.D. with regard to Developer's compliance with its obligations under this Section 10.03. During this meeting, Developer shall submit its M.B.E./W.B.E. Utilization Plan, including Schedules C and D thereto, and shall demonstrate to the D.P.D. its plan to achieve its obligations under this Section 10.03, the sufficiency of which shall be approved by D.P.D.. During the Project, Developer shall submit the documentation required by this Section 10.03 to the monitoring staff of the D.P.D.. Failure to submit such documentation on a timely basis, or a determination by the D.P.D., upon analysis of the documentation, that Developer is not complying with its obligations hereunder shall, upon the delivery of written notice to the Developer, be deemed an Event of Default hereunder. Upon the occurrence of any such Event of Default, in addition to any other remedies provided in this Agreement, the City may: (1) issue a written demand to Developer to halt the Project, (2) withhold any further payment of any City Funds to Developer or the General Contractor, (3) draw on the Construction L/C and the Acquisition L/C, and (4) seek any other remedies against Developer available at law or in equity.

Section 11.

Environmental Matters.

Developer hereby represents and warrants to the City that Developer has conducted environmental studies sufficient to conclude (and that Developer has concluded) that the Project shall be constructed, completed and operated in accordance with all Environmental Laws. Developer also represents and warrants to the City that the Project shall be constructed, completed and operated in accordance with this Agreement and all exhibits attached hereto, the Scope

Drawings, Plans and Specifications and all amendments thereto, the Bond Ordinance and the Redevelopment Plan.

Without limiting any other provisions hereof, Developer agrees to indemnify, defend and hold the City harmless from and against any and all losses, liabilities, damages, injuries, costs, expenses or claims of any kind whatsoever including, without limitation, any losses, liabilities, damages, injuries, costs, expenses or claims asserted or arising under any Environmental Laws incurred, suffered by or asserted against the City as a direct or indirect result of any of the following, regardless of whether or not caused by, or within the control of Developer: (i) the presence of any Hazardous Material on or under, or the escape, seepage, leakage, spillage, emission, discharge or release of any Hazardous Material from (A) all or any portion of the Property or (B) any other real property in which Developer, or any person directly or indirectly controlling, controlled by or under common control with Developer, holds any estate or interest whatsoever (including, without limitation, any property owned by a land trust in which the beneficial interest is owned, in whole or in part, by the Developer), or (ii) any liens against the Property permitted or imposed by any Environmental Laws, or any actual or asserted liability or obligation of the City or Developer or any of its Affiliates under any Environmental Laws relating to the Property.

(c) Other Requirements.

Developer will furnish the D.P.D. at City Hall, Room 1000, 121 North LaSalle Street 60602, original Certificates of Insurance evidencing the required coverage to be in force on the date of this Agreement, and Renewal Certificates of Insurance, or such similar evidence, if the coverages have an expiration or renewal date occurring during the Term of this Agreement. Developer shall submit evidence of insurance on the City of Chicago Insurance Certificate Form (copy attached) or equivalent prior to Agreement award. The receipt of any certificate does not constitute agreement by the City that the insurance requirements in the Agreement have been fully met or that the insurance policies indicated on the certificate are in compliance with all Agreement requirements. The failure of the City to obtain certificates or other insurance evidence from Developer shall not be deemed to be a waiver by the City. Developer shall advise all insurers of the Agreement provisions regarding insurance. Non-conforming insurance shall not relieve Developer of the obligation to provide insurance as specified herein. Nonfulfillment of the insurance conditions may constitute a violation of the Agreement, and the City retains the right to terminate this Agreement until proper evidence of insurance is provided.

The insurance shall provide for sixty (60) days prior written notice to be given to the City in the event coverage is substantially changed, canceled or non-renewed.

Any and all deductibles or self insured retentions on referenced insurance coverages shall be borne by Developer.

Developer agrees that insurers shall waive rights of subrogation against the City of Chicago, its employees, elected officials, agents or representatives.

Developer expressly understands and agrees that any coverages and limits furnished by the Developer shall in no way limit Developer's liabilities and responsibilities specified within the Agreement documents or by law.

Developer expressly understands and agrees that Developer's insurance is primary and any insurance or self insurance programs maintained by the City of Chicago shall not contribute with insurance provided by Developer under the Agreement.

The required insurance shall not be limited by any limitations expressed in the indemnification language herein or any limitation placed on the indemnity therein given as a matter of law.

Developer shall require the General Contractor, and all subcontractors to provide the insurance required herein or Developer may provide the coverages for the General Contractor, or subcontractors. The General Contractor, other Contractors and subcontractors shall be subject to the same requirements (Section C) of Developer unless otherwise specified herein.

If Developer, the General Contractor, other Contractors or subcontractor desires additional coverages, Developer, the General Contractor, other Contractors and each subcontractor shall be responsible for the acquisition and cost of such additional protection.

The City of Chicago Risk Management Department maintains the right to modify, delete, alter or change these requirements.

Section 13.

Indemnification.

Developer agrees to indemnify, defend and hold the City harmless from and against any losses, costs, damages, liabilities, claims, suits, actions, causes of action and expenses (including, without limitation, reasonable attorneys' fees and court costs) suffered or incurred by the City arising from or in connection with (i) Developer's failure to comply with any of the terms, covenants and conditions contained within this Agreement, or (ii) Developer's or any contractor's failure to pay the General Contractor, other Contractors, subcontractors or materialmen in connection with the T.I.F.-Funded Improvements or any other Project improvement,

or (iii) the existence of any material misrepresentation or omission in this Agreement, any offering memorandum or the Redevelopment Plan or any other document related to this Agreement that is the result of information supplied or omitted by Developer or its agents, employees, contractors or persons acting under the control or at the request of Developer or (iv) Developer's failure to cure any misrepresentation in this Agreement or any other agreement relating hereto.

Section 14.

Maintaining Records/Right To Inspect.

14.01 Books And Records.

Developer shall keep and maintain separate, complete, accurate and detailed books and records necessary to reflect and fully disclose the total actual cost of the Project and the disposition of all funds from whatever source allocated thereto, and to monitor the Project. All such books, records and other documents, including but not limited to, Developer's loan statements, if any, General Contractors' and contractors' sworn statements, general contracts, subcontracts, purchase orders, waivers of lien, paid receipts and invoices, shall be available at Developer's offices for inspection, copying, audit and examination by an authorized representative of the City, at Developer's expense. Developer shall incorporate this right to inspect, copy, audit and examine all books and records into all contracts entered into by Developer with respect to the Project.

14.02 Inspection Rights.

Upon three (3) business days notice, and subject to the reasonable rights of tenants occupying any portion of the Property, any authorized representative of the City shall have access to all portions of the Project (including the Carson Component Work) and the Property during normal business hours for the Term of the Agreement.

Section 15.

Default And Remedies.

15.01 Events Of Default.

The occurrence of any one (1) or more of the following events, subject to the provisions of Section 15.03, shall constitute an "Event of Default" by the Developer

hereunder:

(a) the failure of Developer to perform, keep or observe any of the covenants, conditions, promises, agreements or obligations of the Developer under this Agreement or any related agreement;

(b) the failure of Developer to perform, keep or observe any of the covenants, conditions, promises, agreements or obligations of the Developer under any other agreement with any person or entity if such failure may have a material adverse effect on the Developer's business, property, assets, operations or condition, financial or otherwise;

(c) the making or furnishing by Developer to the City of any representation, warranty, certificate, schedule, report or other communication within or in connection with this Agreement or any related agreement which is untrue or misleading in any material respect;

(d) except as otherwise permitted hereunder, the creation (whether voluntary or involuntary) of, or any attempt to create, any lien or other encumbrance upon the Property, including any fixtures now or hereafter attached thereto, other than the Permitted Liens, or the making or any attempt to make any levy, seizure or attachment thereof;

(e) the commencement of any proceedings in bankruptcy by or against Developer or for the liquidation or reorganization of Developer, or alleging that the Developer is insolvent or unable to pay its debts as they mature, or for the readjustment or arrangement of Developer's debts, whether under the United States Bankruptcy Code or under any other state or federal law, now or hereafter existing for the relief of debtors, or the commencement of any analogous statutory or non-statutory proceedings involving Developer; provided, however, that if such commencement of proceedings is involuntary, such action shall not constitute an Event of Default unless such proceedings are not dismissed within sixty (60) days after the commencement of such proceedings;

(f) the appointment of a receiver or trustee for Developer, for any substantial part of the Developer's assets or the institution of any proceedings for the dissolution, or the full or partial liquidation, or the merger or consolidation, of Developer; provided, however, that if such appointment or commencement of proceedings is involuntary, such action shall not constitute an Event of Default unless such appointment is not revoked or such proceedings are not dismissed within sixty (60) days after the commencement thereof;

(g) the entry of any judgment or order against Developer that has a material adverse affect on Developer's business, property, assets, operations, condition (financial or otherwise), which remains unsatisfied or undischarged and in effect for sixty (60) days after such entry without a stay of enforcement or execution;

(h) the occurrence of an event of default under the Lender Financing, which default is not cured within any applicable cure period;

(i) the dissolution of Developer or the Managing Member or the death and nonreplacement of any natural person who owns a material interest in the Managing Member; or

(j) the institution in any court of a criminal proceeding (other than a misdemeanor) against Developer or any natural person who owns a material interest in the Managing Member, which is not dismissed within thirty (30) days, or the indictment of the Developer or any natural person who owns a material interest in the Managing Member, for any crime (other than a misdemeanor).

For purposes of Sections 15.01(i) and 15.01(j) hereof, a person with a material interest in the Managing Member shall be one owning in excess of ten percent (10%) of the Managing Member's membership interest or who serves as a manager or managing member for the Managing Member.

15.02 Remedies.

Upon the occurrence of an Event of Default, the City may terminate this Agreement and all related agreements and draw on the Construction L/C and Acquisition L/C, as the case may be. In addition, the City may, in any court of competent jurisdiction by any action or proceeding at law or in equity, pursue and secure any available remedy provided for hereunder, including, without limitation, injunctive relief, specific performance of the agreements contained herein, provided, however, that in no event shall the City's damages ever exceed the amount of City Funds paid to Developer, plus costs of enforcement as provided for in Section 18.21.

15.03 Curative Period.

In the event Developer shall fail to perform a monetary covenant which the Developer is required to perform under this Agreement, notwithstanding any other provision of this Agreement to the contrary, an Event of Default shall not be deemed to have occurred unless Developer shall have failed to perform such monetary covenant within ten (10) days of its receipt of a written notice from the City specifying that it has failed to perform such monetary covenant. In the event Developer shall fail to perform a non-monetary covenant which Developer is required to perform under this Agreement, notwithstanding any other provision of this Agreement to the contrary, an Event of Default shall not be deemed to have

occurred unless Developer shall have failed to cure such default within thirty (30) days of its receipt of a written notice from the City specifying the nature of the default; provided, however, with respect to those non-monetary defaults which are not capable of being cured within such thirty (30) day period, Developer shall not be deemed to have committed an Event of Default under this Agreement if it has commenced to cure the alleged default within such thirty (30) day period and thereafter diligently and continuously prosecutes the cure of such default until the same has been cured. The above cure periods shall not apply to a failure by Developer to comply with a covenant that runs with the land, as specified in Section 7.02, or the covenants set forth in Sections 8.01(l), (m) and (n) and Section 18.15. For such failures, there shall be no notice requirement and no cure period, and such failure shall constitute an immediate Event of Default.

Section 16.

Mortgaging Of The Project.

All mortgages, deeds of trust and collateral assignments of beneficial interest (each, a "Mortgage") in place as of the date hereof with respect to the Property or any portion thereof are listed on (Sub)Exhibit I hereto and are referred to herein as the "Existing Mortgages". Any Mortgage executed, delivered and, if applicable, recorded by a successor Lender is referred to herein as a "Permitted Mortgage". It is hereby agreed by the Developer as follows:

(a) In the event that a Lender shall succeed to Developer's interest in the Property or any portion thereof pursuant to the exercise of remedies under an Existing Mortgage or a Permitted Mortgage, whether by foreclosure, deed in lieu of foreclosure or U.C.C. sale of a beneficial interest in a land trust, and in conjunction therewith accepts an assignment of the Developer's interest hereunder in accordance with Section 18.15 hereof, the City hereby agrees to attorn to and recognize such Lender as the successor in interest to Developer for all purposes under this Agreement so long as such party accepts all of the obligations and liabilities of "the Developer" hereunder, including, without limitation, the posting of any Construction L/C (if still required) and Acquisition L/C (if still required); provided, however, that, notwithstanding any other provision of this Agreement to the contrary, it is understood and agreed that if such party accepts an assignment of Developer's interest under this Agreement, such party shall have no liability under this Agreement for any Event of Default of the Developer which accrued prior to the time such party succeeded to the interest of the Developer under this Agreement, in which case the Developer shall be solely responsible. However, if such Lender does not expressly accept an assignment of

Developer's interest hereunder, the Lender shall be entitled to no rights and benefits under this Agreement, and such party shall be bound only by the covenants specified in Section 7.02 that run with the land without personal liability therefor, the sole recourse for any violation of any such covenant being limited to Lender's interest in the Property.

(b) Prior to the City's issuance of a Certificate, no new Mortgage may be executed with respect to the Property or any portion thereof. After the issuance of such Certificate, only Mortgages securing certain of Lender Financing may be permitted, subject to the limitations set forth herein.

Attention: Corporation Counsel

Re: City of Chicago -- Execution of Redevelopment Agreement

Ladies and Gentlemen:

We have acted as special counsel to One South State Street, L.L.C., an Illinois limited liability company ("Developer"), One South State Street Investors, L.L.C., an Illinois limited liability company, the Developer's sole managing member ("Managing Member"), and _____, L.L.C., a _____ limited liability company ("Developer's Affiliate"), in connection with the execution by each of Developer, the Managing Member and Developer's Affiliate of that certain Carson's Building Redevelopment

Agreement dated as of _____, 2000, by and between the City of Chicago (the "City") and Developer and the Managing Member and joined into by Developer's Affiliate (the "Redevelopment Agreement"). In that capacity, you have asked that we render this opinion. Developer, the Managing Member and Developer's Affiliate are sometimes referred to herein collectively as the "Developer Entities". We have reviewed the Redevelopment Agreement and the Redevelopment Subordination Agreement dated _____, 2000 by and between the City and _____ Bank National Association and acknowledged by Developer (the "Subordination Agreement") and such other matters of law as we have deemed relevant and based upon such review, we are of the opinion that:

1. Each of Developer and the Managing Member is an Illinois limited liability company, duly and validly formed, existing and in good standing in and under the laws of the State of Illinois and has the requisite power and authority to enter into and perform its obligations (if any) under and in connection with the Redevelopment Agreement.

2. Developer's Affiliate is a _____ limited liability company, duly and validly formed, existing and in good standing in and under the laws of the State of _____ and has the requisite power and authority to enter into and perform its obligations (if any) under and in connection with the Redevelopment Agreement. [As of the date of this opinion, appropriate filings have been made to qualify Developer's Affiliate to do business in the State of Illinois.]

3. The Redevelopment Agreement and the Subordination Agreement have been duly authorized, executed and delivered by or on behalf of the Developer Entities and constitute legal, valid and binding instruments enforceable against the Developer Entities in accordance with their terms.

4. To our knowledge, no litigation or proceeding is pending or threatened, affecting or seeking to restrain or enjoin the performance by the Developer Entities of the Redevelopment Agreement or in any way contesting the existence of the Developer Entities or the power of the Developer Entities to execute the Redevelopment Agreement.

5. Nothing has come to our attention which would lead us to believe that the execution and delivery of the Redevelopment Agreement and the Subordination Agreement and compliance with the provisions thereof, conflicts with or constitutes on the part of any of the Developer Entities a default under any agreement or instrument to which any of the Developer Entities is a party, or violates any court order or consent decree to which any of the Developer Entities is subject.

The foregoing opinions are subject to the qualifications stated therein and to the following assumptions, limitations and qualifications which may limit the enforceability of obligations under the Redevelopment Agreement:

(a) This opinion is based upon existing laws, ordinances and regulations in effect as of the date hereof and as they presently apply.

(b) The undersigned is licensed to practice law in the State of Illinois, and we express no opinion with respect to the applicability of the laws of any jurisdiction other than the State of Illinois or governmental subdivisions thereof and all federal substantive laws to the extent applicable.

(c) In rendering the opinions set forth above, we have relied, to the extent we believe appropriate, as to matters of fact, (i) upon certificates or statements of public officials and of the Managing Member, and (ii) upon representations and warranties of the Developer Entities contained in the Redevelopment Agreement, and we have made no independent investigation or verification of such facts. No opinion is being expressed as to the effect of any event, fact or circumstance of which we have no actual knowledge; however, we have no actual knowledge that any such statements of the Managing Member or any of the representations and warranties of the Developer Entities in the Redevelopment Agreement are untrue or incorrect.

(d) We have assumed the competency of the signatories to the Redevelopment Agreement, the genuineness of all signatures other than those of the Developer Entities, the authenticity of all documents submitted to us as originals, the conformity to original documents of all documents submitted to us as certified or photostatic copies and the accuracy and completeness of all records made available to us.

(e) We have assumed that (i) the Redevelopment Agreement has been duly authorized, executed and delivered by the City to the extent applicable, is within its corporate powers, and constitute its legal, valid and binding obligation; (ii) the City is in compliance with all applicable laws, rules and regulations governing the conduct of its business and this transaction; (iii) the Redevelopment Agreement will be enforced in circumstances and in a manner which are commercially reasonable; and (iv) the City is not subject to any statute, rule or regulation or any impediment that requires the City or the Developer Entities to obtain the consent of, or to make any declaration or filing with any governmental

authority in connection with the transactions contemplated by the Redevelopment Agreement other than those required by state statute in connection with tax increment allocation financing and incidental to the recording of documents with the Recorder of Deeds for Cook County.

(To Amended And Restated Redevelopment Agreement
With One South State Street, L.L.C.)

One South State Street Project.

Description Of Required Rehabilitation Work.

The project includes work to the seven (7) buildings which comprise the Carson,

Pirie, Scott and Company department store, all listed on the National Register of Historic Places as part of the Loop Retail Historic District:

- 1 -- 37 South State Street (One South State Street building and additions),
- 18 -- 20 South Wabash Avenue (Haskell Building), otherwise known as Building "A",
- 22 -- 24 South Wabash Avenue (Barker Building), otherwise known as Building "B",
- 26 -- 28 South Wabash Avenue (Atwater Building), otherwise known as Building "C",
- 30 South Wabash Avenue (Church Building), otherwise known as Building "D",
- 36 -- 44 South Wabash Avenue (Men's Store), otherwise known as Building "E" and
- 10 -- 12 East Monroe Street (Monroe Garage), otherwise known as Building "F".

The One South State Street building is an internationally-renowned and seminal work in the history of modern architecture. The building was constructed in four (4) stages, with the original nine (9) story 1898 portion and twelve (12) story 1903 addition designed by acclaimed master architect Louis H. Sullivan. The twelve (12) story 1906 addition and eight (8) story 1961 addition, designed by the firms of D. H. Burnham and Company and Holabird and Root respectively, continue Sullivan's original design. The building is also a designated Chicago Landmark, listed individually on the National Register of Historic Places and a National Historic Landmark.

The Haskell-Barker-Atwater Buildings comprise one (1) of the best-surviving groups of early post-Chicago Fire loft buildings in the Loop. The four (4) story Haskell and Barker buildings were constructed in 1875 and designed by the architectural firm of Wheelock and Thomas (Sullivan remodeled the Haskell Building first (1st) and second (2nd) floor exteriors in 1896). The five (5) story Atwater Building

was constructed in 1877 and designed by architect John Mills Van Osdel. The Haskell-Barker-Atwater Buildings are also designated Chicago Landmarks.

The fifteen (15) story Church Building was constructed in 1903 and designed by the architectural firm of Hill and Woltersdorf. The sixteen (16) story Men's Store was constructed in 1926 and designed by the Burnham Brothers. The ten (10) story Monroe Garage was originally constructed in 1939 as a parking garage and remodeled in 1948 as part of the department store.

General.

For the purposes of the Redevelopment Agreement ("Agreement"), the significant architectural features of the buildings shall be all exterior elevations, including the roof lines and the significant interior features of the One South State Street building. The Carson, Pirie, Scott and Company department store is to continue occupying the lower stories of the buildings, while the upper stories will be converted to other uses by the Developer. All work to the buildings shall be completed in accordance with the Agreement and the documents and materials listed below:

- *The Secretary of the Interior's Standards for Rehabilitation of Historic Buildings* (rev. 1990 and as amended) (the "Standards"). Street elevations and any finished returns on side or alley elevations shall be considered "primary elevations" for the purposes of the Standards.
- *Guidelines for Alterations to Historic Buildings and New Construction*, adopted by the Commission on Chicago Landmarks on March 4, 1992.
- Historical photographs, architectural drawings, and other available archival documentation of the buildings, as investigated and assembled by the Developer.
- *Vision for Greater State Street: Next Steps* (the "State Street Plan"), adopted by the Chicago Plan Commission in 1998.
- *Chicago Downtown Lighting Master Plan* (the "Lighting Plan"), prepared in 1997.

- Color-coded window survey of ground-floor storefronts and upper-story windows on the One South State Street building (the "Window Treatment Survey") prepared by Carson, Pirie, Scott & Co., undated, identifying windows with enclosed display areas, those with display areas open to the interior of the store, and those to have a uniform black fabric scrim treatment which was mocked up and approved by the Commission on Chicago Landmarks in July, 1999.
- Concept design drawings, dated July 16, 1999 and prepared for Carson, Pirie, Scott and Company by Amstadter Architects, for the new two (2) story storefront for the 1961 addition to the One South State Street building (the "Replacement Storefront Design"), replacing the temporary storefront conditionally approved by the Commission on Chicago Landmarks on August 30, 1999.

Prior Approval.

All exterior work and any interior work which impacts the exterior appearance of the buildings, including the Required Rehabilitation Work described in this exhibit, as well as any work which impacts the significant interior features of the One South State Street building, shall be subject to the prior review and approval of the City's Department of Planning and Development, Landmarks Division, and the Commission on Chicago Landmarks. If requested, material samples, paint colors and finishes, shop drawings, specifications, mock-ups and control samples, as applicable, shall be submitted for review and approval.

Required Rehabilitation Work -- Developer.

The following work shall be completed by the Developer:

The original terra-cotta cornice on the 1898, 1903 and 1906 portions of the building, removed in 1948, shall be reconstructed, including the original configuration of piers and recessed bays on the top floors of the 1898 and 1903 portions. The work shall be an historically-accurate restoration as can be determined from available documentation and in accordance with the Standards. All replacement

(b) *Building Lighting And Flag Pole. Appropriately-designed accent lighting for the reconstructed cornice and recessed top floors of the building shall be provided to satisfy the Lighting Plan. The flag pole on the roof of the building at the State-Madison corner shall be retained and used, or replaced in like kind, in recognition of the State Street Plan.

(c) Lobby. A new ground-floor lobby for the upper-story office floors shall be constructed using the southernmost existing entrance in the 1906 portion of the building. The new lobby shall restore significant exterior and interior features such as the entrance vestibule, basement stairs and railings, and free-standing columns and capitals, in accordance with the Standards. Any building identification signage or canopies as part of the new lobby shall be consistent with the overall sign program for the building as well as the Standards and the State Street Plan.

(a) Exterior Conditions Report -- Masonry. An exterior conditions report shall be completed and submitted for review and approval prior to beginning any exterior work. The survey shall identify any areas of masonry deterioration, failures such as at lintels and floors, missing features such as cornices and belt courses and the condition of the backup anchoring system, as well as prior incompatible repairs. The report shall also specifically address conservation issues related to the applied paint coating, particularly regarding its likely original use, condition, material specifications and characteristics. The recommendations of the report shall form the basis of a scope of work to repair and restore, as possible, the original appearance of the buildings' masonry, to the extent such work

* Covenant.

For the Term of the Agreement, all future exterior work including signs and any interior work which impacts the exterior appearance of the buildings or the display windows shall be subject to the prior review and approval of the City's Department of Planning and Development, Landmarks Division, and the Commission on Chicago Landmarks. All such work shall meet the relevant terms and conditions of this exhibit. is not inconsistent and does not interfere with the retail use and operation of the Buildings.

(b) Cornice And Belt Courses. The missing cornice on the Atwater Building shall be reconstructed. Deteriorated or missing belt courses on any of the buildings shall be repaired or reconstructed. This work shall be an historically-accurate restoration as can be determined from available documentation and in accordance with the Standards. All replacement materials shall match the originals in like kind in accordance with the Standards, except that a feature which is entirely missing or beyond repair may be constructed in an appropriate and durable substitute material.

(c) Base (Floors 1 And 2). The base of these buildings shall be rehabilitated to the greatest extent possible. In general, this work shall be guided by these basic principles: repair and refinish extant significant features; replace any missing portions of these features; and reverse prior inappropriate alterations and repairs. A paint color analysis of metal ornamentation and window framing systems shall be provided to determine the historic colors.

(d) Windows. All upper-story windows shall be repaired or replaced as necessary to achieve a uniform and historically-appropriate appearance in accordance with the Standards. Existing mechanical grilles and infilled or covered over windows must be replaced with glass or a more aesthetically-pleasing, less obtrusive and uniform grille treatment. To the extent possible, glass transoms shall be restored and any mechanical grilles in these locations relocated.

(e) **Fire Escapes And Mechanical Grilles. The Developer shall make its best efforts in any future projects which involve changes to these buildings which could allow the elimination of any or all exterior fire escapes and mechanical grilles.

** Completion Of Construction Or Rehabilitation.

For the purposes of Subsection 7.01 of the Agreement governing the issuance of Certificates of completion: all the Required Rehabilitation Work for the Developer specified in this (sub)exhibit except as indicated above by a double asterisk (**) must be substantially completed as part of its obligations for completion of the Historic Work Component as therein defined; the Required Rehabilitation Work for the Developer specified in this, exhibit above and indicated by a double asterisk (**) must be completed as part of the relevant portions of the Office Component Work; and all the Required Rehabilitation Work for Carson, Pirie, Scott & Co. specified in this exhibit except as indicated above by a double asterisk (**) must be completed as part of its obligations for issuance of the Final Certificate of completion.

(f) *Building Lighting. Appropriately-designed accent lighting for the building shall be provided in accordance with the Lighting Plan.

A paint color analysis of metal ornamentation and window framing systems shall be provided to determine the historic colors.

(b) **Fire Escapes And Mechanical Grilles. The Developer shall make its best efforts in any future projects which involve changes to these buildings which could allow the elimination of any or all exterior fire escapes and mechanical grilles along Wabash Avenue.

-- All Buildings.

* Covenant.

For the Term of the Agreement, all future exterior work including signs and any interior work which impacts the exterior appearance of the buildings or the display windows shall be subject to the prior review and approval of the City's Department of Planning and Development, Landmarks Division, and the Commission on Chicago Landmarks. All such work shall meet the relevant terms and conditions of this exhibit. In addition, the Developer and Carson, Pirie, Scott & Co. shall ensure its best efforts that the Buildings are operated for the Term of the Agreement consistent with the performance requirements specified in this exhibit and indicated by an asterisk (* or **) above.

** Completion Of Construction Or Rehabilitation.

For the purposes of Subsection 7.01 of the Agreement governing the issuance of Certificates of completion: all the Required Rehabilitation Work for the Developer specified in this (sub)exhibit except as indicated above by a double asterisk (**) must be substantially completed as part of its obligations for completion of the Historic Work Component as therein defined; the Required Rehabilitation Work for the Developer specified in this, exhibit above and indicated by a double asterisk (**) must be completed as part of the relevant portions of the Office Component Work; and all the Required Rehabilitation Work for Carson, Pirie, Scott & Co. specified in this exhibit except as indicated above by a double asterisk (**) must be completed as part of its obligations for issuance of the Final Certificate of completion.

prior incompatible repairs shall be addressed as part of the project. Where masonry is missing or beyond repair, replacement pieces shall match the originals in like kind, in accordance with the Standards, except that in some instances on the unlandmarked buildings a substitute material such as G.F.R.C. may be used which matches the appearance of the original material in color, finish and appearance. Tuckpointing shall use mortar which matches the original in terms of color, consistency, hardness and joint profile. Cleaning shall use an appropriate and least-aggressive cleaning method, e.g., low-pressure water or mild chemical cleaning, after conducting test patches.

(b) Windows -- General. As necessary, windows shall be repaired or replaced in like kind to match the originals, in accordance with the Standards. If repainted, a paint color analysis of the windows shall be provided to determine the historic color. Any previously-applied films shall be removed and the windows cleaned. All windows shall be of clear glass, except that on the upper stories a new film, if largely transparent, may be applied to the interior of the glass depending upon the film's reflectivity and tint.

(c) **Ceiling Heights And Interior Demising Walls. Original ceiling heights shall be maintained behind all windows. Any drops in the heights of ceilings for mechanical equipment shall be set back from the windows to the extent possible so as not to be readily visible from the street. All new interior demising walls should occur at piers, or also at window mullions if otherwise unavoidable.

(d) **Window Treatment. The Developer shall make its best efforts to ensure that the windows have a consistent and uniform window treatment, such as shades or blinds. The window treatment need not be identical from floor to floor, but the appearance of the buildings (particularly One South State Street) should be visually consistent overall.

**** Completion Of Construction Or Rehabilitation.**

For the purposes of Subsection 7.01 of the Agreement governing the issuance of Certificates of completion: all the Required Rehabilitation Work for the Developer specified in this (sub)exhibit except as indicated above by a double asterisk (**) must be substantially completed as part of its obligations for completion of the Historic Work Component as therein defined; the Required Rehabilitation Work for the Developer specified in this, exhibit above and indicated by a double asterisk (**) must be completed as part of the relevant portions of the Office Component Work; and all the Required Rehabilitation Work for Carson, Pirie, Scott & Co. specified in this exhibit except as indicated above by a double asterisk (**) must be completed as part of its obligations for issuance of the Final Certificate of completion.

(e) Roof-Top. All new, nonhabitable roof-top appurtenances and mechanical equipment shall be set back as far as possible from the street elevations to minimize potential visibility from the public way. Roof-top decks and any future habitable roof-top additions shall not be visible from the public way.

Required Rehabilitation Work -- Carson, Pirie, Scott And Company.

The following work shall be completed by Carson, Pirie, Scott and Company:

-- One South State Street Building.

(a) Replacement Storefront. The temporary storefront installed in the 1961 addition to the building shall be replaced, in accordance with the Replacement Storefront Design and the Standards.

(b) Base (Floors 1 And 2) -- Metal Ornament. As necessary, areas of the Sullivan ornamentation such as at the bulkheads of the storefront windows shall be appropriately cleaned and refinished.

(c) Transom Windows (Floors 1 And 2). The transom windows, previously painted over, shall be rehabilitated. The paint shall be removed and a more appropriate finish treatment, such as frosted or tinted glass, shall be installed. (Mechanical equipment is located along the inside face of the transom windows.)

-- All Buildings.

(a) *Signs, Awnings, Canopies, Banners And Flags. All signs, awnings, canopies, banners and flags shall meet the Standards and the State Street Plan. New traditional retractable-type awnings with a woven-cloth fabric shall be installed on all ground-floor storefronts.

* Covenant.

For the Term of the Agreement, all future exterior work including signs and any interior work which impacts the exterior appearance of the buildings or the display windows shall be subject to the prior review and approval of the City's Department of Planning and Development, Landmarks Division, and the Commission on Chicago Landmarks. All such work shall meet the relevant terms and conditions of this exhibit. In addition, the Developer and Carson, Pirie, Scott & Co. shall ensure its best efforts that the Buildings are operated for the Term of the Agreement consistent with the performance requirements specified in this exhibit and indicated by an asterisk (*) or (**) above.

(b) *Storefront Windows And Upper-Story Windows (Floors 1 Through 7) -- Display Windows. The treatment of storefront windows and upper-story windows shall maximize the areas for active window displays. Window treatments for the One South State Street Building shall be in accordance with the Window Treatment Survey; a survey for the other buildings shall be likewise submitted. In general, display windows on the bases (floors one (1) and two (2)), the State Street rotunda, and to the extent possible elsewhere in these buildings shall be used for active window display areas or for views into the building; in no instance shall these windows be blocked up, blacked out or covered over, except as otherwise approved such as part of the Window Treatment Survey (such windows shall have a consistent and uniform window treatment such as shades or blinds). Original ceiling heights shall be maintained behind all windows to the greatest extent possible.

(c) *Display Areas. Window display areas should ideally be at least thirty-six (36) inches deep to allow for a greater variety of merchandise and displays. For display areas not identified as part of the Window Treatment Survey, they may be enclosed or partially-enclosed, except that some of the windows must also provide for views into the building. Carson's shall make its best efforts to ensure that all window displays are professionally installed, well designed, visually interesting and attractive, changed regularly, and used to display primarily merchandise, rather than signs or graphics. Temporary paper and vinyl signs within the storefront windows shall be professionally printed and not attached to the exterior walls or storefront glass.

* Covenant.

For the Term of the Agreement, all future exterior work including signs and any interior work which impacts the exterior appearance of the buildings or the display windows shall be subject to the prior review and approval of the City's Department of Planning and Development, Landmarks Division, and the Commission on Chicago Landmarks. All such work shall meet the relevant terms and conditions of this exhibit. In addition, the Developer and Carson, Pirie, Scott & Co. shall ensure its best efforts that the Buildings are operated for the Term of the Agreement consistent with the performance requirements specified in this exhibit and indicated by an asterisk (*) or (**) above.

(d) ****Blocked-Up Windows/Transoms, Fire Escapes And Mechanical Grilles.** Carson, Pirie, Scott & Co. shall make its best efforts in any future projects which involve changes to these buildings which could allow the creation of additional display windows or clear-glass transoms (particularly on the first (1st) two (2) floors of the buildings), or the elimination of any or all exterior fire escapes and mechanical grilles on street elevations of the buildings.

Carson Pirie Scott State Street.

*Electrical Distribution System Separation
Preliminary Design Report.*

I. Purpose.

- A. The purpose of the project is to review the feasibility of electrically separating the existing electrical distribution system for the facility, such that the building owner can separate the existing retail space occupied by Carson Pirie Scott, from the existing storage and tenant spaces presently located on the upper level floors of the facility.

- B. The electrical systems will need to be separated so that the electrical energy used by the individual tenants can be accurately measured and accounted. In order to achieve this capability the existing electrical distribution system needs to be evaluated to determine what, if any, of the existing electrical elements can be re-utilized for the new work.
- C. The following is the preliminary results of cursory observations which were conducted on December 8 and 9, 1998 to review the condition of the existing electrical systems, and to "spot check" the field data shown on the existing one (1) line diagrams prepared by Maron Electric, which were obtained from C.P.S.
- D. D.E.I. was also requested to provide recommendations for the method of providing new tenant electrical metering facilities, and to evaluate the requirements for new emergency systems for the upper levels tenant spaces, as well as fire alarm system requirements.

II. Electrical System Description.

- A. The existing electrical system within the facility originates from five (5) ComEd vaults which serve a total of seven (7) service entrance switchboards. Two (2) of the vaults are located in the sub-sub-basement, one (1) vault is located in the sub-basement, and the remaining two (2) are located in the basement level, below the street sidewalk.
- B. The five (5) vaults contain "network centers" which consist of primary service feeders, transformers and secondary bus work that serve each switchboard. The five (5) network centers are listed on Attachment Number 1.
- C. The seven (7) service switchboards are located as follows:
 - 1. Switchboard "S.B.E." Section Number 1 (2000A) -- sub-sub-basement building;
 - 2. Switchboard "S.B.E." Section Number 2 (5000A) -- sub-sub-basement building "E";
 - 3. Switchboard "M" (4000A) -- sub-sub-basement building "M";
 - 4. Switchboard "N" (4000A) -- sub-sub-basement building "N";
 - 5. Switchboard "S" (4000A) -- sub-basement building "S";

6. 277/480V Switchboard (4000A) -- basement level building "D";
 7. North State Street Switchboard (4000A) -- basement level building "N".
- D. All of the switchboards are 120/208 volt, three (3) phase, four (4) wire services, with the exception of the 277/480 volt switchboard located in building "D". The six (6) 120/208 volt switchboards serve multiple feeder risers to various floors of the facility. The switchboards basically serve the risers for the building in which they are located. The 277/480 volt, three (3) phase, four (4) wire switchboard serves the existing chillers and other mechanical equipment in the facility.
- E. The five (5) switchboards located in the sub-sub-basement and sub-basement were installed in 1992 after the flood downtown, and are in excellent condition. The two (2) switchboards located on the basement level are plus forty (40) years of age and are in poor condition, with rusted enclosures and circuit breakers which appeared were not exercised regularly. The multiple feeder risers were not replaced during the flood and are also in poor condition. The panel boards on the upper level floors were plus forty (40) years of age and are in poor condition. Most panel boards are of unknown manufacturer, and it appeared that minimal maintenance had been performed on the panels. A large quantity of panel branch circuits are routed in flexible metallic conduit, and some of the older panels were provided with cloth covered aluminum wiring.
- F. Switchboard "S.B.E." consisted of two (2) separate sections which feed the existing tenant spaces on the upper floors of building "E", as well as C.P.S. retail spaces. The two thousand (2,000) amp section could be modified to allow for tenant metering of the upper floors, but would involve relocation of C.P.S. loads to the adjoining switchboard. The five thousand (5,000) amp section is a sequence service, with main switches feeding three (3) distribution switchboards for the A, B, C, the D, E and the F building risers.
- G. Switchboard "S" serves risers within the C.P.S. spaces and panels located in the eighth (8th) floor auditorium.
- H. Switchboards "M" and "N" are fed from the same vault and serve multiple risers on the lower and upper level floors. Both switchboards could be modified to allow for tenant metering, however, the modifications would greatly impact the existing operations to the C.P.S. floors due to service interruptions, and may involve replacement of the recently installed service equipment.

- I. The North State Street switchboard was not labeled and appeared to serve the existing abandoned computer room on the upper level, as well as C.P.S. loads on the lower levels.

III. Electrical Capacity.

According to the information obtained from ComEd of the five (5) vaults in the facility, three (3) of the vaults have adequate capacity to serve the new tenant space loads. The two (2) remaining vaults have minimal capacity for additional loads. The three (3) vaults are located in the sub-sub-basement of building "E" and building "M" and the basement level of building "N". According to our calculations, the new tenant spaces for the upper floors will require approximately one thousand seven hundred (1,700) kW of capacity. This load could be served from any two (2) of the three (3) vaults listed.

IV. Metering.

Each of the seven (7) switchboards are metered by ComEd with individual meters. The utility records for the electrical services was forwarded to J.F.A. by Grumman Butkus Associates previously, and would indicate the electrical usage for the previous twelve (12) months. A number of existing tenant spaces on the upper levels have submeters for their spaces, however these meters are not measured and ComEd does not bill these tenants directly. C.P.S. has indicated that the tenants in these spaces are billed a lump sum for electrical usage. If new tenant risers are installed for the upper floors, the existing meters utility would be for C.P.S. loads, with the exception of the mechanical loads. Any C.P.S. loads located on the upper floors would be re-fed from the new meter centers and billed accordingly. The metering of mechanical loads for C.P.S. and the tenant spaces is addressed by G.B.A.

V. Code Issues.

- A. D.E.I. observed that certain riser panels served from a common riser did not have main circuit breakers. This would not comply with current code requirements, but may have been acceptable when the systems were installed. Other branch circuit violations were observed on certain panels, but the scope of these violations would be corrected during the demolition work to be done on the floors.

- B. The emergency distribution system was installed in 1992, but was not installed in compliance with current high-rise building codes. Current code requires a transfer switch to feed the emergency system equipment, the existing emergency distribution system is fed from fused pullouts tapped to the line side of the service switch. If new electrical risers are provided to the upper floors, a new emergency system would be required for these areas. The existing emergency distribution system could remain and serve C.P.S. spaces, however the City may require these systems to be upgraded to current code requirements.
- C. D.E.I. has not received the code violations presently issued for the facility.
- D. There is no present fire alarm system within the facility. The sprinkler system however is annunciated to a control panel in the sub-basement. Current High-rise code would require a complete fire alarm system throughout the facility.

VI. C.P.S. Loads On The Upper Level Floors.

The existing telephone service room for C.P.S. is presently located on the ninth (9th) floor, in the new tenant space footprint. Relocating this space would involve large service interruptions and costs to provide new space and equipment for the telephone system. D.E.I. would recommend that the existing electrical systems serving the telephone room remain and that the room remain in its present location. This space could be treated as a tenant space on the floor.

The existing Cash Register computer system is located on the eighth (8th) floor and could be relocated.

VII. Recommendations.

- A. New Tenant Risers.
 - 1. D.E.I. would recommend two (2) methods of separating the upper level electrical systems for tenant metering capability.
 - 2. The first (1st) method would involve the installation of two (2) new two thousand five hundred (2,500) amp unmetered service switches located in the sub-sub-basement adjacent to switchboard "S.B.E." to serve the tenant spaces on the sixth (6th) through fifteenth (15th) floors of building "D", "E" and "F". Two (2) additional three thousand (3,000) amp unmetered switches would be provided, one (1) adjacent

to the 'North State Street' vault which would serve the tenant spaces on the eighth (8th) through twelfth (12th) floors of buildings "M", "N", and "S". The other adjacent to the "M" and "N" service vault, which would serve the tenant H.V.A.C. system loads. The four (4) service switches would feed individual bus duct risers to meter centers on each tenant floor. Each floor's meter center would allow for multiple tenants, each with a separate meter and disconnecting means. This option is shown on the proposed one line diagram on drawing E1-1. This method would utilize the existing load capacity available in the utility vaults.

3. The other method we have proposed would involve the installation of a new ComEd vault on one (1) of the upper level floors to serve the new service switches and meter centers as described above. A new concrete encased primary service riser would be installed from one (1) of the existing utility vaults, up to the new vault. This method is shown on the proposed one (1) line diagram on drawing E1-2. This method would eliminate the need to route three (3) separate risers up through the existing retail space, since the primary riser could be installed in a new shaft on the exterior of the building.
4. Either method would result in new electrical distribution equipment on each floor, therefore making the existing electrical risers and panels which served these floors unnecessary. This would allow the risers for floors located above the retail space to be removed, while risers serving only the retail space could be maintained. The risers which serve both retail and proposed tenant spaces could be "cut off" at the demising floor, or the panels on the upper floors removed and blank covers installed.
5. It is D.E.I.'s opinion that attempting to modify the existing switchboards to provide new tenant risers would result in excessive shutdowns and would provide limited capacity to the upper floor risers. In addition, attempting to re-utilize the existing risers to the tenant floors would not comply with ComEd's metering requirements, and would most likely, not be approved by the City.

B. Emergency System.

Depending upon the method utilized to serve the upper tenant floors will influence the method of providing emergency electrical services to the upper level tenant floors. The current code requires that the facilities emergency system be provided with a transfer switch to transfer from the normal and

auxiliary power sources. The proposed emergency system distribution is shown on the two (2) proposed one (1) line diagrams on E-9. The code also requires that at least one (1) elevator which serves all floors levels be connected to the emergency system. D.E.I. will require input from J.F.A. as to which elevator(s) will be utilized for the upper level floors. D.E.I. can then evaluate the work involved to provide emergency electrical service to the elevator(s). All of the emergency system risers to the upper floors are required to be routed in a two (2) hour rated shaft.

C. Fire Alarm System.

The current Chicago high-rise code requires that a fire alarm and detection system be provided in the facility. Since the design directive from J.F.A. is that current code requirements will not be grandfathered, D.E.I. would therefore recommend that a new fire alarm system be installed in the facility. The installation of the fire alarm system would need to be reviewed with the Fire Prevention Bureau prior to proceeding with installation of a new system. The high-rise current code requires that the fire alarm system include a fire command panel, voice communication speakers on each floor and firemen phone jacks on every fifth (5th) floor stairwell, in addition to the standard fire alarm system requirements identified in the Chicago building code.

General Note: The assumptions made regarding codes imply conformance to the new rise code. A formal understanding from the City of Chicago will be needed to clarify which codes are applicable to this building. That determination may alter the final scope of code required work.

REPORTS OF COMMITTEES

65831

Dear Mr. Mennecke:

The following is the information you have requested regarding the available capacity for the five (5) ComEd vaults serving the above property. This information is based upon first contingency or being able to remove one (1) transformer in each vault and still being able to carry the load.

Network Center Number 710 contains four (4) -- 750 kVa 120/208v transformers. This vault serves the existing S.B.E. switchboard and has the approximate capacity for an additional 1,200 kVa.

Network Center Number 711 contains four (4) -- 750 kVa 120/208v transformers. This vault serves the existing M and N switchboards and has the approximate capacity for an additional 950 kVa.

Network Center Number 729 contains three (3) -- 1000 kVa 277/480v transformers. This vault serves an existing 4,000 amp switchboard (not labeled), on the Monroe Street side and has very little room for additional capacity.

Network Center Number 730 contains three (3) -- 750 kVa 120/208v transformers. This vault serves an existing 4,000 amp switchboard (not labeled), on the Madison side and has the approximate capacity for an additional 1,200 kVa.

Network Center Number 747 contains two (2) -- 750 kVa 120/208v transformers. This vault serves the existing S switchboard as well as feeding into the street and has very little room for additional capacity.

This information is a conservative approximation and will be reviewed more thoroughly when ComEd receives your load requirements. Should you have any questions regarding the above information, please feel free to call me at (omitted for printing purposes).

Gary C. Griffith,

Proposed Separation Of Mechanical Plumbing And Fire Protection.

The following is a general description of the proposed separation of mechanical and fire protection systems for the proposed upper floor tenant spaces and the existing Carson Pirie Scott (C.P.S.) spaces:

1. Mechanical.

- a. The two (2) new chillers installed in 1998 shall serve only equipment dedicated to cool spaces occupied by Carson Pirie Scott (C.P.S.) to the extent possible.
- b. Vacate and disconnect chilled water lines and equipment serving areas not occupied by C.P.S. to the extent possible.
- c. Perimeter heating system for P.C.S. shall remain. The existing steam boiler refurbished after the tunnel failure in 1993 shall continue to operate and generate steam for the perimeter system.
- d. All areas primarily above the seventh (7th) floor on the State Street side and all areas above the fifth (5th) floor at the Wabash side which are not C.P.S. will be served by a new mechanical system. Gas and electrical connections shall be metered separately from C.P.S.
- e. Perimeter heating for all new office tenants shall be accomplished as follows:
 - i. Disconnect the existing fin radiation system and fan coils from the existing steam supply system.
 - ii. Scheme 1: Install a gas-fired water boiler and hot water circulating pumps located in roof penthouses which circulates hot water through a new perimeter fin radiation system and V.A.V. box reheat coils where required in office tenant spaces. Gas and electrical power shall be metered separately.
 - iii. Scheme 2: Install a gas-fired water boiler in the penthouse and a primary supply loop with a circulating pump to serve all new office tenant spaces not occupied by C.P.S. with hot water. Secondary pumps on each new office tenant floor shall circulate hot water through a new perimeter fin radiation system and through V.A.V. box reheat coils where

required. Gas and water shall be metered separately from C.P.S.

- iv. Scheme 3: Unicom chilled water with hot water heat for all non Carson space while maintaining all existing systems serving C.P.S.

2. Plumbing.

- a. All new tenant floors will be upgraded with renovated or new sanitary, vent, domestic hot water and domestic cold water piping systems while keeping C.P.S. operational.
- b. Provide a new domestic water booster package at the basement level to serve the new office tenant floors. Provide new vertical domestic water risers to serve the new office tenant floors.
- c. Upgrade or provide new sets of sanitary and vent risers to serve the new office tenant floor areas to accommodate the new office space created.
- d. Domestic hot water to the new office tenant areas to be provided by point-of-use electric water heaters metered to tenants.

3. Fire Protection.

- a. Renovate, remove or rework the existing sprinkler system and all of the fire hose racks on the tenant floor areas. Cap piping at the (non-C.P.S. space) existing risers and leave risers in place for C.P.S. portion.
- b. Provide a new fire pump at the sub-sub-basement level to serve the tenant floor areas if required.
- c. Provide a new or renovated sprinkler system, designed for light hazard occupancy, throughout the new office tenant areas. Work on the sprinkler system to the standpipe and drain risers will be coordinated to leave building sprinkler system in operation.
- d. Provide new fire department valves where required in accordance with the applicable Chicago Code. Connect the new valves to the standpipe risers. Additional stubs for future valves will be provided at the risers on new tenant office floors.

CHICAGO, September 5, 2001.

To the President and Members of the City Council:

The Committee on Health met on August 15, 2001 to discuss a resolution, presented by Alderman James Balcer and others, opposing the closing of any Veterans Administration Hospital in the City of Chicago. The Committee begs leave to recommend that your Honorable Body *Adopt* the proposed resolution transmitted herewith.

The issue passed with no dissenting votes.

Respectfully submitted,

(Signed) ED H. SMITH,
Chairman.

On motion of Alderman E. Smith, the said proposed resolution transmitted with the foregoing committee report was *Adopted* by yeas and nays as follows:

Yeas -- Aldermen Granato, Haithcock, Tillman, Preckwinkle, Hairston, Lyle, Beavers, Stroger, Beale, Balcer, Frias, Olivo, Burke, T. Thomas, Coleman, L. Thomas, Murphy, Troutman, DeVille, Munoz, Zalewski, Chandler, Solis, Ocasio, Burnett, E. Smith, Carothers, Wojcik, Suarez, Matlak, Mell, Austin, Colom, Banks, Mitts, Allen, Laurino, O'Connor, Doherty, Natarus, Daley, Hansen, Levar, Shiller, Schulter, Moore, Stone -- 47.

Nays -- None.

Alderman Natarus moved to reconsider the foregoing vote. The motion was lost.

The following is said resolution as adopted:

WHEREAS, On the field of battle, the members of the Armed Forces who defend the nation are honor-bound to leave no one behind and, likewise, the nation is honor-bound to leave no veteran behind; and

WHEREAS, These brave men and women often left family, friends and careers in order to serve their country, and many of them never were to return; and

WHEREAS, All Americans owe a debt of gratitude to the active members of our nation's Armed Forces, and especially to the veterans who have given much in service to our nation; and

WHEREAS, Among our ways of acknowledging and honoring this debt is the system of Veterans Administration hospitals established throughout the country to provide necessary medical care for veterans of our Armed Forces; and

WHEREAS, In the City of Chicago, the West Side and Lakeside divisions of the United States Department of Veterans Affairs Health Care System, both play an important role in ensuring that Chicago area veterans have access to high quality health care; and

WHEREAS, On August 15, 2001, the Chicago City Council Committee on Health conducted a hearing on the proposed option B of the United States Department of Veterans Affairs Capital Asset Realignment for Enhanced Services (CARES) plan for the delivery of medical care and services to Chicago area veterans; and

WHEREAS, At the hearing, the United States Department of Veterans Affairs provided details of the proposal which would eliminate all of the one hundred twenty-six (126) bed spaces at the V.A. Lakeside division by the closing of that facility, and would also eliminate an additional forty-two (42) bed spaces at the V.A. West Side division; and

WHEREAS, Attending the hearing were more than two hundred (200) Chicago area veterans appearing as individuals and representing a number of veterans' organizations, nearly all of whom felt strongly that the United States Department of Veterans Affairs proposal would have a devastating effect upon their access to adequate medical care; and

WHEREAS, At the hearing, representatives of Northwestern University Medical School expressed their strong objections to the plan to close the Lakeside division, where nearly two hundred fifty (250) faculty physicians of the adjoining Northwestern Memorial Hospital donate their services; and

WHEREAS, Those representatives also noted that closing the Lakeside division would be extremely detrimental to the McGaw Medical Center residency program, and at the same time would deprive veterans of medical care from some of the best doctors in training in the nation; and

WHEREAS, Also at the hearing, it was made clear that the United States Department of Veterans Affairs had relied upon questionable assumptions of their consultants that grossly underestimated the future need for in-patient medical services of Chicago area veterans; and

WHEREAS, From the totality of the testimony given and evidence presented at the hearing, it was clear that the proposal of the United States Department of Veterans Affairs to close the Lakeside division and reduce bed space at the V.A. West Side division would leave hundreds of thousands of area veterans without adequate access to medical care; now, therefore,

Be It Resolved, That we, the Mayor and members of the City Council of the City of Chicago, assembled this fifth day of September, 2001, do hereby express our strong objections to the proposal of the United States Department of Veterans Affairs to close the V.A. Lakeside division and to eliminate bed spaces at the V.A. West Side division, and do hereby urge the United States Department of Veterans Affairs to adopt a plan that will preserve the in-patient programs at both divisions in order to provide adequate and accessible medical care to Chicago area veterans in the future; and

Be It Further Resolved, That copies of this resolution be presented to the Secretary of the United States Department of Veterans Affairs, to the Illinois delegation in the United States Congress and to local veterans' organizations.

G. Real Estate Taxes And Water Charges. The City agrees to obtain the waiver of any delinquent real estate tax liens or City water charges on the Property. If the City is unable to obtain the waiver of any such tax liens or water charges, either party may terminate this agreement. Upon such termination, the City shall return the Earnest Money and Performance Deposit (as described in Section 4) to the Developer. The Developer shall be responsible for all taxes accruing after the Closing. Until a Certificate of Completion (as described in Section 9) is issued by the City, the Developer shall notify the City that the real estate taxes have been paid in full within ten (10) days of such payment.

H. Recordation Of Deed. The Developer, at its expense, shall promptly record the Deed at the Office of the Cook County Recorder of Deeds.

I. Deed And Money Escrow. In the event the Developer requires conveyance through escrow, the Developer shall pay all escrow fees.

J. Demolition/Remediation Escrow. In the event that the building situated on the Property has not been demolished prior to the Closing, or that the Property requires environmental remediation, the Developer agrees to engage a demolition contractor to demolish the building, and an environmental contractor to remediate the Property, promptly after the Closing. The contractors selected by the Developer, and the terms of the contracts must be approved by the City, which approval shall not be unreasonably withheld, prior to the commencement of any demolition or environmental work on the Property. The City agrees to pay all reasonable demolition and remediation costs in an amount not to exceed Two Million and no/100 Dollars (\$2,000,000.00). The Developer shall be responsible for all demolition and remediation costs which exceed Two Million and no/100 Dollars (\$2,000,000.00). In order to secure the City's obligation to pay such costs, the City agrees to deposit Two Million and no/100 Dollars (\$2,000,000.00) into an escrow ("Demolition/Remediation Escrow") at the Closing. The Demolition/Remediation Escrow shall provide that no funds may be disbursed by Chicago Title Insurance Company as escrowee without the prior written approval of the City and the Developer. Upon the completion of the demolition and remediation, all funds remaining in the Demolition/Remediation Escrow shall be promptly returned to the City.

Section 4.

Earnest Money And Performance Deposit.

A. Earnest Money. The City acknowledges that the Developer has deposited with the City Irrevocable Letter of Credit Number _____ dated _____, issued by _____ in the amount of Five Hundred Fourteen Thousand and no/100 Dollars (\$514,000.00) with an expiration date of _____, one-half (½) of which constitutes earnest money ("Earnest Money"). The City agrees to return the Letter of Credit to the Developer at Closing and the Developer agrees to pay the City the full purchase price of the Property, plus or minus pro-rations, if any.

B. Performance Deposit. The City acknowledges that the Developer has deposited with the City Irrevocable Letter of Credit Number _____ dated _____, issued by _____ in the amount of Five Hundred Fourteen Thousand and no/100 Dollars (\$514,000.00) with an expiration date of _____, one-half of which constitutes security for the performance of the Developer's obligations under this Agreement ("Performance Deposit"). The Developer agrees to deliver to the City at Closing a similar irrevocable Letter of Credit in the amount of Two Hundred Fifty-Seven Thousand and no/100 Dollars (\$257,000.00) which will be retained by the City until a Certificate of Completion (as described in Section 9) has been issued by the City. The Developer agrees that the Letter of Credit will remain current until the Certificate of Completion is issued.

Section 5.

Project Budget; Proof Of Financing.

Not less than thirty (30) days prior to the Closing, the Developer shall submit to the City for approval a project budget ("Budget") and evidence of funds adequate to finance the purchase of the Property and the construction of the Improvements. If the Developer fails to provide the City with a Budget or proof of financing to the City's reasonable satisfaction, the City may declare this Agreement null and void and return the Earnest Money and Performance Deposit to the Developer.

Section 6.

Construction Of Title Project.

A. **Site Plans.** The Developer agrees to construct the Improvements on the Property substantially in accordance with the preliminary site plans and architectural drawings ("Drawings") prepared by Loewenberg & Associates and dated June 22, 2001, which have been preliminarily approved by the City's Department of Planning and Development ("D.P.D."). No material deviation from the Drawings shall be made without the prior written approval of D.P.D.. Because there are design plans still not agreed upon as of the date of this Agreement, the Developer agrees to submit the final design plans in writing to D.P.D. for approval prior to the commencement of construction, which approval shall not be unreasonably withheld or delayed. Upon the written approval of the subsequent design plans, the plans will be considered a supplement to the Drawings. D.P.D. shall have the right to approve the initial retail tenants and the layout of their respective spaces, which approval shall not be unreasonably withheld or delayed. Notwithstanding the foregoing, the permitted retail use listed on Exhibit C attached hereto shall be deemed acceptable retail uses by D.P.D.

B. **Relocation Of Utilities, Curbs Cuts And Driveways.** The Developer shall be solely responsible for and shall pay all costs in regard to: (a) the relocation, installation or construction of public or private utilities; curb cuts and driveways; (b) the repair or reconstruction of any curbs, sidewalks or parkways deteriorated or damaged as a result of the Developer's redevelopment; (c) the removal of existing pipes, utility equipment or building foundations; and (d) the termination of existing water or other services. Any streetscaping, including any paving of sidewalks, landscaping and lighting provided by the Developer as part of the Project must be approved by the City.

C. **Inspection By The City.** During the construction of the Project, the Developer agrees to permit the City or its designated inspector or architect to enter onto the Property for the purpose of determining whether the work is being performed in accordance with the terms of this agreement; provided, however, that the City or its inspector or architect does not unreasonably interfere with the Developer's activities on the Property and the City holds Developer harmless from any injury suffered by any employee or agent of the City or accident arising out of such entry upon the Property for such purposes, excluding accidents arising out of Developer's negligence or wilful acts.

D. **Barricades And Signs.** Promptly after the execution of this agreement, the Developer shall erect such signs as the City may reasonably require identifying the Property as a City redevelopment project. In addition, the Developer shall have the right to install marketing signs for the Project at any time after the City Council

approves this agreement, subject to the approval of D.P.D., which approval will not be unreasonably withheld. Prior to the commencement of any construction activity requiring barricades, the Developer shall install a construction barricade of a type and appearance satisfactory to the City and constructed in compliance with all applicable federal, state or City laws, ordinances and regulations. The City shall have the right to approve the maintenance, appearance, color scheme, painting, nature, type, content and design of all barricades, which approval shall not be unreasonably withheld or delayed.

E. Marketing/Sales Trailer. Upon the written request of the Developer, the City may, in its sole discretion, grant the Developer a revocable license to erect and maintain a marketing/sales trailer on the City-owned parcel of property located at 1140 South Michigan Avenue, on such terms and conditions mutually agreed upon by the parties.

Section 7.

Limited Applicability.

D.P.D.'s approval of the Drawings are for the purposes of this agreement only and do not constitute the approval required by the City's Building Department or any other City department; nor does the approval by D.P.D. pursuant to this agreement constitute an approval of the quality, structural soundness or the safety of any improvements located or to be located on the Property. The approval given by D.P.D. shall be only for the benefit of the Developer and any lienholder authorized by this agreement.

Section 8.

Commencement And Completion Of Improvements.

The construction of the Improvements shall be commenced within six (6) months of the conveyance of the Property to the Developer, and except as otherwise provided in this agreement, shall be completed (as evidenced by the issuance of the Certificate of Completion by the City) within twenty-four (24) months after the commencement of construction. The Developer shall promptly notify the City when construction has begun.

*Section 9.**Certificate Of Completion.*

Upon the completion of the Improvements in accordance with this agreement, the City shall provide the Developer with a "Certificate of Completion". The Certificate of Completion shall be a conclusive determination of satisfaction and termination of the covenants in this agreement and the Deed with respect to the obligations of the Developer to construct the Improvements. The Certificate of Completion shall be in recordable form. Within forty-five (45) days after receipt of a written request by the Developer for a Certificate of Completion, the City shall provide the Developer with either the Certificate of Completion or a written statement indicating in adequate detail how the Developer has failed to complete the Improvements in conformity with the Redevelopment Plan or this agreement, or is otherwise in default, and what measures or acts will be necessary, in the sole reasonable opinion of the City, for the Developer to take or perform in order to obtain the Certificate of Completion. If the City requires additional measures or acts to assure compliance, the Developer shall resubmit a written request for the Certificate of Completion upon compliance with the City's response. Upon issuance of the Certificate of Completion, the City shall return the Performance Deposit to the Developer.

*Section 10.**Restrictions On Use.*

The Developer agrees that it:

A. Shall devote the Property to a use which complies with the Redevelopment Plan until November 28, 2013.

B. Shall not discriminate based upon race, color, religion, sex, national origin or ancestry, military status, sexual orientation, source of income, age, handicap, in the sale, lease, rental, use or occupancy of the Property or any improvements located or to be erected thereon.

*Section 11.**Prohibition Against Transfer Of Property.*

Prior to the issuance of the Certificate of Completion by the City with regard to

completion of the Improvements, the Developer may not, without the prior written consent of the City: (a) sell or convey the Property or any part thereof or any interest therein; or (b) create any assignment with respect to this agreement or the Property that would take effect prior to the issuance of the Certificate of Completion by the City in accordance with Section 9; or (c) contract or agree to: (1) sell or convey the Property or any part thereof or interest therein, or (2) create any assignment with respect to this agreement or the Property that would take effect prior to the issuance of the Certificate of Completion by the City. The provisions of this Section shall not (i) limit the Developer's rights under Section 12 of this agreement, (ii) prohibit the Developer from contracting to sell or from conveying condominium units prior to the issuance of the Certificate of Completion; (iii) prohibit the Developer from transferring or conveying the Property to an Illinois land trust of which the Developer is the sole beneficiary; (iv) or prohibit the Developer from executing a collateral assignment for financing purposes.

Section 12.

Limitation Upon Encumbrance Of Property.

Prior to the completion of the Project and the issuance of the Certificate of Completion by the City, the Developer shall not engage in any financing or other transaction which creates an encumbrance or lien on the Property, except for the purposes of obtaining: (a) funds necessary to acquire the Property; (b) funds necessary to construct the Improvements; or (c) funds necessary for all "soft" costs relating to the Project, including but not limited to, architects, surveyors, appraisers, environmental consultants or attorneys' fees.

Section 13.

Mortgagees Not Obligated To Construct.

Notwithstanding any other provision of this agreement or of the Deed, the holder of any mortgage on the Property authorized by Section 12 of this agreement shall not be obligated to construct or complete the Improvements; provided, however, that the foregoing provision shall not apply to any purchaser other than the holder of the mortgage, of the Property at a foreclosure sale. Nothing in this agreement shall be deemed or construed to permit or authorize any such holder of a mortgage to devote the Property to any use, or to construct any improvements thereon, other than those

uses or improvements permitted in the Redevelopment Plan.

Section 14.

Covenants Running With The Land.

The parties agree, and the Deed shall so expressly provide, that the covenants provided in Sections 8, 10, 11 and 12 will be covenants running with the land, binding on the Developer and its successors and assigns to the fullest extent permitted by law and equity for the benefit and in favor of the City, and shall be enforceable by the City. The covenants provided in Sections 8, 11 and 12 shall be terminated upon the issuance of the Certificate of Completion.

Section 15.

Performance And Breach.

A. Time Of The Essence. Time is of the essence in the parties' performance of their obligations under this agreement.

B. Permitted Delays. The Developer shall not be considered in breach of its obligations with respect to the commencement or completion of construction of the Improvements in the event of a delay in the performance of such obligations due to unforeseeable causes beyond the Developer's control and without the Developer's fault or negligence, including but not limited to, delays or halts in construction of the Improvements which are compelled by court order, acts of God, acts of the public enemy, acts of the United States government, acts of the other party, fires, floods, epidemics, quarantine restrictions, strikes, embargoes and unusually severe weather or delays of subcontractors due to such cause. The time for the performance of the obligations shall be extended only for the period of the delay and only if the Developer requests it in writing of the City within twenty (20) days after the beginning of any such delay.

C. Breach.

1. Generally. Except as otherwise provided in this agreement, in the event of a default by either party in the performance of its obligations under this Agreement, the defaulting party, upon written notice from the other, shall cure or remedy the default not later than sixty (60) days after receipt of

such notice. If the default is not capable of being cured within the sixty (60) day period but the defaulting party has commenced action to cure the default and is diligently proceeding to cure the default within the sixty (60) day period, then the sixty (60) day period shall be extended for the length of time that is reasonably necessary to cure the default. If the default is not cured in the time period provided for herein, the aggrieved party may terminate this agreement and institute such proceedings at law or in equity as may be necessary or desirable in its sole discretion to cure and remedy the default, including but not limited to, proceedings to compel specific performance.

2. Event Of Default. For purposes of this agreement, the occurrence of any one (1) or more of the following shall constitute an "event of default":
 - a. the Developer fails to perform, keep or observe any of the covenants, conditions, promises, agreements or obligations required under this agreement; or
 - b. the Developer makes or furnishes a warranty, representation, statement or certification to the City which is not true and correct in any material respect; or
 - c. a petition is filed by or against the Developer under the Federal Bankruptcy Code or any similar state or federal law, whether now or hereinafter existing, which is not vacated, stayed or set aside within thirty (30) days after filing; or
 - d. the Developer abandons or substantially suspends the construction work, and such abandonment or suspension is not cured, ended or remedied within sixty (60) days of the date the Developer receives written demand by the City to cure such default; or
 - e. the Developer fails to timely pay real estate taxes or assessments affecting the Property or suffers or permits any levy or attachment, material suppliers' or mechanics' lien, or any other lien or encumbrance unauthorized by this agreement to attach to the Property; provided, however, if such taxes or liens are being contested by the Developer and there is no immediate threat of the Developer being divested of title to the Property, the filing of such lien or encumbrance shall not constitute an event of default; or
 - f. the Developer makes an assignment, pledge, encumbrance, transfer or other disposition in violation of this agreement; or

- g. the Developer's financial condition or operations adversely changes to such an extent that would materially affect the Developer's ability to complete the Improvements; or
 - h. the Developer fails to comply with the terms of any other written agreement entered into with the City or any loan issued by the City.
- 3. Prior To Conveyance. If prior to the conveyance of the Property, the Developer defaults in any specific manner described in this Section 15.C.2., the City may terminate this agreement, institute any action or proceeding at law or in equity against the Developer, and retain the Earnest Money and Performance Deposit.
- 4. After Conveyance. If subsequent to the conveyance of the Property to the Developer but prior to the issuance of the Certificate of Completion, the Developer defaults in any specific manner described in Section 15.C.2., the City, by written notice to the Developer, may utilize any and all remedies available to the City at law or in equity, including but not limited to, the right to re-enter and take possession of the Property, terminate the estate conveyed to the Developer, and revest title to the Property in the City; provided, however, that the revesting of title in the City shall be limited by, and shall not defeat, render invalid, or limit in any way, any lien, encumbrance or mortgage authorized by this agreement.
- 5. Resale Of The Property. Upon the revesting in the City of title to the Property as provided in Section 15.C.4., the City shall employ its best efforts to convey the Property (subject to the mortgage liens described in this section) to a qualified and financially responsible party (as solely determined by the City) who shall assume the obligation of completing the construction of the Improvements or such other improvements as shall be satisfactory to the City.
- 6. Disposition Of Resale Proceeds. If the City sells the Property, the proceeds from the sale shall be utilized to reimburse the City for:
 - a. costs and expenses incurred by the City, including but not limited to, salaries of personnel in connection with the recapture, management and resale of the Property (less any income derived by the City from the Property in connection with such management); and
 - b. all taxes, assessments and water and sewer charges assessed against the Property; and

- c. any payments made (including reasonable attorneys' fees) to discharge or prevent from attaching or being made any subsequent encumbrances or liens due to obligations, defaults or acts of the Developer; and
- d. any expenditures made or obligations incurred with respect to construction or maintenance of the Improvements; and
- e. any other amounts owed to the City by the Developer.

The Developer shall be entitled to receive any proceeds up to the amount of the Developer's investment in the Property not utilized in meeting the expenses of the City described herein.

In addition to, and without in any way limiting the City's rights under this Section 15, the City shall have the right to retain the Performance Deposit in the event of a default by the Developer.

D. Waiver And Estoppel. Any delay by the City in instituting or prosecuting any actions or proceedings or otherwise asserting its rights shall not operate as a waiver of such rights or operate to deprive the City of or limit such rights in any way. No waiver made by the City with respect to any specific default by the Developer shall be construed, considered or treated as a waiver of the rights of the City with respect to any other defaults of the Developer.

E. Access To The Property. After the Closing, any duly authorized representative of the City shall have access to the Property at all reasonable times for the purpose of confirming the Developer's compliance with this agreement.

Section 16.

Conflict Of Interest; City's Representatives Not Individually Liable.

The Developer warrants that no agent, official or employee of the City shall have any personal interest, direct or indirect, in this agreement, nor shall any such agent, official or employee participate in any decision relating to this agreement which affects his or her personal interests or the interests of any corporation, partnership, or association in which he or she is directly or indirectly interested. No agent, official or employee of the City shall be personally liable to the Developer or any successor in interest in the event of any default or breach by the City or for any

amount which may become due to the Developer or successor or on any obligation under the terms of this agreement.

Section 17.

Indemnification.

The Developer agrees to indemnify, defend and hold the City harmless from and against any losses, costs, damages, liabilities, claims, suits, actions, causes of action and expenses (including, without limitation, reasonable attorneys' fees and court costs) suffered or incurred by the City arising from or in connection with: (i) the failure of the Developer to perform its obligations under this agreement; (ii) the failure of the Developer or any contractor to pay contractors, subcontractors or material suppliers in connection with the construction of the Improvements; (iii) the failure of the Developer to redress any misrepresentations or omissions in this agreement or any other agreement relating hereto; and (iv) any actions resulting from any activity undertaken by the Developer on the Property prior to or after the conveyance of said Property to the Developer by the City. This indemnification shall survive any termination of this agreement.

Section 18.

Environmental Matters.

The City makes no covenant, representation or warranty as to the environmental condition of the Property or the suitability of the Property for any purpose whatsoever, and the Developer agrees to accept the Property "as is".

It shall be the responsibility of the Developer, at its sole cost and expense, to investigate and determine the soil and environmental condition of the Property. Prior to the Closing, the Developer shall have the right to request a right of entry for the purpose of conducting environmental tests on the Property. If such a request is made, the City shall grant the Developer a right of entry for such purpose. The granting of the right of entry, however, shall be contingent upon the Developer obtaining all necessary permits and the following types and amounts of insurance: a) commercial general liability insurance with a combined single limit of not less than One Million and no/100 Dollars (\$1,000,000.00) per occurrence for bodily injury, personal injury and property damage liability with the City named as an additional insured; b) automobile liability insurance with limits of not less than

One Million and no/100 Dollars (\$1,000,000.00) per occurrence, combined single limit for bodily injury and property damage; and c) worker's compensation and occupational disease insurance in statutory amounts covering all employees and agents who are to do any work on the Property. All insurance policies shall be from insurance companies authorized to do business in the State of Illinois, and shall remain in effect until completion of all activity on the Property. The Developer shall deliver duplicate policies or certificates of insurance to the City prior to commencing any activity on the Property. The Developer expressly understands and agrees that any coverage and limits furnished by the Developer shall in no way limit the Developer's liabilities and responsibilities set forth in this agreement.

The Developer agrees to carefully inspect the Property prior to the commencement of any activity on the Property to make sure that such activity shall not damage surrounding property, structures, utility lines or any subsurface lines or cables. The Developer shall be solely responsible for the safety and protection of the public. The City reserves the right to inspect any work being done on the Property. The Developer's activities on the Property shall be limited to those reasonably necessary to perform the environmental testing. Upon completion of the work, the Developer agrees to restore the Property to its original condition. The Developer shall keep the Property free from any and all liens and encumbrances arising out of any work performed, materials supplied or obligations incurred by or for the Developer, and agrees to indemnify and hold the City harmless against any such liens.

The Developer agrees to deliver to the City a copy of each report prepared by or for the Developer regarding the environmental condition of the Property. If prior to the Closing, the Developer's environmental consultant determines that contamination exists on the Property to such an extent that the parties reasonably agree that the estimated cost of remediation (such estimated cost being determined by the consultant) is too excessive for the Developer, the Developer may declare this agreement null and void. In such event, the City shall return the Earnest Money and Performance Deposit to the Developer. The Developer agrees that a request to terminate this agreement shall not be made until all reports concerning the condition of the Property have been reviewed by the City.

If after the Closing, the environmental condition of the Property is not in all respects entirely suitable for the use to which the Property is to be utilized, it shall be the sole responsibility and obligation of the Developer to take such action as is necessary to put the Property in a condition entirely suitable for the intended use of the Property. The Developer agrees to release and indemnify the City from any claims and liabilities relating to or arising from the environmental condition of the Property and to undertake and discharge all liabilities of the City arising from any environmental condition which existed on the Property prior to the Closing.

Section 19.

Developer's Employment Obligations.

A. **Employment Opportunity.** The Developer agrees, and shall contractually obligate its various contractors, subcontractors or any affiliate of the Developer operating on the Property (collectively, the "Employers" and individually, an "Employer") to agree that with respect to the provision of services in connection with the construction of the Improvements or occupation of the Property:

1. Neither the Developer nor any Employer shall discriminate against any employee or applicant for employment based upon race, religion, color, sex, national origin or ancestry, age, handicap or disability, sexual orientation, military discharge status, marital status, parental status or source of income as defined in the City of Chicago Human Rights Ordinance, Section 2-160-010, et seq., of the Municipal Code of Chicago, as amended from time to time (the "Human Rights Ordinance"). The Developer and each Employer shall take affirmative action to ensure that applicants are hired and employed without discrimination based upon race, religion, color, sex, national origin or ancestry, age, handicap or disability, sexual orientation, military discharge status, marital status, parental status or source of income and are treated in a non-discriminatory manner with regard to all job-related matters, including without limitation: employment, upgrading, demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The Developer and each Employer agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the City setting forth the provisions of this nondiscrimination clause. In addition, the Developer and each Employer in all solicitations or advertisements for employees, shall state that all qualified applicants shall receive consideration for employment without discrimination based upon race, religion, color, sex, national origin or ancestry, age, handicap or disability, sexual orientation, military discharge status, marital status, parental status or source of income.
2. To the greatest extent feasible, the Developer and each Employer is required to present opportunities for training and employment of low- and moderate-income residents of the City; and to provide that contracts for work in connection with the construction of the Improvements be awarded to business concerns which are located in or owned in substantial part, by persons residing in the City.

3. The Developer and each Employer shall comply with all federal, state and local equal employment and affirmative action statutes, rules and regulations, including, but not limited to, the Human Rights Ordinance, and the Illinois Human Rights Act, 775 ILCS 5/1-101, et seq. (1993), and any subsequent amendments and regulations promulgated thereto.
4. The Developer, in order to demonstrate compliance with the terms of this section, shall cooperate with and promptly and accurately respond to inquiries by the City, which has the responsibility to observe and report compliance with equal employment opportunity regulations of federal, state and municipal agencies.
5. The Developer and each Employer shall include the foregoing provisions of subparagraphs 1 through 4 in every contract entered into in connection with the construction of the Improvements, and shall require inclusion of these provisions in every subcontract entered into by any subcontractors, ~~and every agreement with any affiliate operating on the Property~~, so that each such provision shall be binding upon each contractor, subcontractor or affiliate, as the case may be.
6. Failure to comply with the employment obligations described in this Section 19.A. shall be a basis for the City to pursue remedies under the provisions of Section 15.

B. City Resident Employment Requirement. The Developer agrees, and shall contractually obligate the Employers to agree that during the construction of the Improvements they shall comply with the minimum percentage of total worker hours performed by actual residents of the City of Chicago as specified in Section 3-92-330 of the Municipal Code of Chicago (at least fifty percent (50%) of the total worker hours worked by persons on the construction of the Improvements shall be performed by actual residents of the City of Chicago); provided, however, that in addition to complying with this percentage, the Developer and the Employers shall be required to make good faith efforts to utilize qualified residents of the City of Chicago in both unskilled and skilled labor positions.

The Developer and the Employers may request a reduction or waiver of this minimum percentage level of Chicagoans as provided for in Section 2-92-330 of the Municipal Code of Chicago in accordance with standards and procedures developed by the Purchasing Agent of the City of Chicago.

"Actual residents of the City of Chicago" shall mean persons domiciled within the City of Chicago. The domicile is an individual's one and only true, fixed and permanent home and principal establishment.

The Developer and the Employers shall provide for the maintenance of adequate employee residency records to ensure that actual Chicago residents are employed on the construction of the Improvements. The Developer and the Employers shall maintain copies of personal documents supportive of every Chicago employee's actual record of residence.

Weekly certified payroll reports (United States Department of Labor Form WH-347 or equivalent) shall be submitted to the Department in triplicate, which shall identify clearly the actual residence of every employee on each submitted certified payroll. The first time that an employee's name appears on a payroll, the date that the company hired the employee should be written in after the employee's name.

The Developer and the Employers shall provide full access to their employment records to the Purchasing Agent, the Department, the Superintendent of the Chicago Police Department, the Inspector General or any duly authorized representative thereof. The Developer and the Employers shall maintain all relevant personnel data and records for a period of at least three (3) years from and after the issuance of the Certificate of Completion.

At the direction of the Department, the Developer and the Employers shall provide affidavits and other supporting documentation to verify or clarify an employee's actual address when doubt or lack of clarity has arisen.

Good faith efforts on the part of the Developer and the Employers to provide work for actual Chicago residents (but not sufficient for the granting of a waiver request as provided for in the standards and procedures developed by the Purchasing Agent) shall not suffice to replace the actual, verified achievement of the requirements of this section concerning the worker hours performed by actual Chicago residents.

In the event that the City has determined that the Developer or an Employer failed to ensure the fulfillment of the requirements of this section concerning the worker hours performed by actual Chicago residents or failed to report in the manner as indicated above, the City will thereby be damaged in the failure to provide the benefit of demonstrable employment to Chicagoans to the degree stipulated in this section. Therefore, in such a case of non-compliance which has not been remedied in accordance with the breach and cure provisions contained in Section 15.C. herein, it is agreed that 1/20 of one percent (.05%) of the aggregate hard construction costs set forth in the Developer's budget shall be surrendered by the Developer and for the Employers to the City in payment for each percentage of shortfall toward the stipulated residency requirement. Failure to report the residency of employees entirely and correctly shall result in the surrender of the entire liquidated damages as if no Chicago residents were employed in either of the categories. The willful falsification of statements and the certification of payroll data may subject the Developer and/or the other Employers or employee to prosecution.

Nothing herein provided shall be construed to be a limitation upon the "Notice of Requirements for Affirmative Action to Ensure Equal Employment Opportunity, Executive Order 11246" and "Standard Federal Equal Employment Opportunity, Executive Order 11246", or other affirmative action required for equal opportunity under the provisions of this agreement.

The Developer shall cause or require the provisions of this Section 19.B. to be included in all construction contracts and subcontracts related to the construction of the Improvements.

C. The Developer's M.B.E./W.B.E. Commitment. The Developer agrees, and shall contractually obligate the Employers to agree, that during the construction of the Improvements:

1. Consistent with the findings which support the Minority-Owned and Women-Owned Business Enterprise Procurement Program (the "M.B.E./W.B.E. Program"), Section 2-92-420, et seq., of the Municipal Code of Chicago, and in reliance upon the provisions of the M.B.E./W.B.E. Program to the extent contained in, and as qualified by, the provisions of this Section 19.C., during the course of construction of the Improvements, at least the following percentages of the aggregate hard construction costs shall be expended for contract participation by minority-owned businesses ("M.B.E.s") and by women-owned businesses ("W.B.E.s"):
 - a. At least twenty-five percent (25%) by M.B.E.s.
 - b. At least five percent (5%) by W.B.E.s.
2. For purposes of this Section 19.C. only, the Developer (and any party to whom a contract is let by the Developer pursuant to this Agreement) shall be deemed a "Contractor" and this agreement (and any contract let pursuant thereto) shall be deemed a "Contract" as such terms are defined in Section 2-92-420 of the Municipal Code of Chicago. In addition, the term "minority-owned business" or M.B.E. shall mean a business enterprise identified in the *Directory of Certified Minority Business Enterprises* published by the City's Purchasing Department, or otherwise certified by the City's Purchasing Department as a minority-owned business enterprise; and the term "women-owned business" or W.B.E. shall mean a business enterprise identified in the *Directory of Certified Women Business Enterprises* published by the City's Purchasing Department, or otherwise certified by the City's Purchasing Department as a women-owned business enterprise.

3. Consistent with Section 2-92-440 of the Municipal Code of Chicago, the Developer's M.B.E./W.B.E. commitment may be achieved by the Developer utilizing a M.B.E. or a W.B.E. as a contractor, by subcontracting or causing a contractor to subcontract a portion of the work to one (1) or more M.B.E.s or W.B.E.s, or by the purchase of materials used in the construction of the Improvements from one (1) or more M.B.E.s or W.B.E.s, or by any combination of the foregoing. Those entities which constitute both a M.B.E. and a W.B.E. shall not be credited more than once with regard to the Developer's M.B.E./W.B.E. commitment as described in this Section 19.C.
4. The Developer shall deliver quarterly reports to the Department describing its efforts to achieve compliance with this M.B.E./W.B.E. commitment. (d) To the knowledge of Landlord, the Premises, on the date on which they had originally been delivered to Tenant, contained no environmentally hazardous materials.

4.2 Covenant Of Quiet Enjoyment.

Landlord covenants and agrees that Tenant, upon paying the rent and upon observing and keeping the covenants, agreements and conditions of this lease on its part to be kept, observed and performed, shall lawfully and quietly hold, occupy and enjoy the Premises (subject to the provisions of this lease) during the Term without hindrance or molestation by Landlord or by any person or persons claiming under Landlord.

4.3 Landlord's Duty To Maintain Premises And Right Of Access.

(a) Unless otherwise provided in this lease, Landlord shall, at Landlord's expense, keep the roof, structural elements, electrical system the heating, ventilating and air-conditioning ("H.V.A.C.") systems and plumbing systems serving the Premises in a condition of thorough repair and good order, and in compliance with all applicable provisions of the Municipal Code of Chicago, including but not limited to those provisions in Title 13 ("Building and Construction"), Title 14 ("Electrical Equipment and Installation"), Title 15 ("Fire Prevention") and all applicable provisions of the Landscape Ordinance of the City of Chicago. If Landlord shall refuse or neglect to make needed repairs within ten (10) days after written notice thereof sent by Tenant, unless such repair cannot be remedied by ten (10) days, and Landlord shall have commenced and is diligently pursuing all necessary action to remedy such repair, Tenant is authorized to make such repairs and to deduct the reasonable and actual cost thereof from rents accruing under this lease, provided that Tenant shall, in all such instances, provide to Landlord copies of all invoices for all such costs. Landlord shall have the right of access to the Premises for the purpose of inspecting and making repairs to the Premises, provided that, except in the case of emergencies, Landlord shall first give notice to Tenant of its desire to enter the Premises (which notice may be made verbally to Tenant's on-site manager) and will use commercially reasonable efforts to schedule its entry so as to minimize any interference with Tenant's use of Premises, and to exhibit the Premises to prospective or actual purchasers, mortgagees, tenants, workmen or contractors or as otherwise necessary in the operation or protection of the Premises.

(b) Except as set forth in Section 4.3(a), Tenant shall, at Tenant's own expense, keep the Premises, including, but not limited to, the parking areas, vacant land, sidewalks, lawns (including cutting and weed maintenance) and all other areas associated with the Premises, including but not limited to the fire prevention systems, light bulbs and tubes, and windows and all interior and exterior glass, in good order, condition and repair. Tenant's maintenance obligations shall include repairs and replacements. Landlord may, but need not, make such repairs and replacements and the reasonable and actual amount of Landlord's cost for such repairs and replacements shall be deemed additional rent reserved under this lease due and payable forthwith, provided that Landlord shall, in all such instances, provide to Tenant copies of all invoices for all such costs.

4.4 Use Of The Premises.

Tenant has not used and shall not use the Premises in a manner that would violate any Law. Tenant further covenants not to do or suffer any waste or damage, comply in all respects with the laws, ordinances, orders, rules, regulations and requirements of all federal, state and municipal governmental departments which may be applicable to the Premises or to the use or manner of use of the Premises, disfigurement or injury to any building or improvement on the Premises, or to fixtures and equipment thereof.

4.5 Alterations And Additions.

Tenant shall not have the right to make such alterations, additions and improvements on the Premises as it shall deem necessary without Landlord's prior written approval, which approval shall not be unreasonably withheld. Any such alterations, additions and improvements shall be in full compliance with the applicable law.

Prior to making any alterations, additions or improvements to the Premises, Tenant shall provide to Landlord, for Landlord's review and approval, written plans and specifications therefor. Landlord's approval of any plans and specifications shall not be deemed a representation that same comply with applicable Laws. Any alterations, additions or improvements performed by or on behalf of Tenant shall be performed in a good and workmanlike manner using only new, high grade materials. All alterations, additions and improvements shall, upon installation, become Landlord's property without compensation to Tenant and shall remain with the Premises and be delivered to Landlord in good condition, ordinary wear and tear excepted, upon the expiration or earlier termination of this lease, unless at the time at which Landlord has granted approval as aforesaid, Landlord has advised Tenant that any such alterations, additions or improvements are to be removed upon

expiration or earlier termination of this lease. In the event that Landlord has requested their removal, same shall be removed by Tenant at Tenant's expense and Tenant shall restore the Premises to its condition prior to having made the alteration, addition or improvement to be so removed.

Section 5.

Assignment, Sublease And Liens.

5.1 Assignment And Sublease.

Tenant shall not assign, sublease, mortgage, encumber or otherwise transfer this lease in whole or in part, or sublet the Premises or any part thereof without the written consent of Landlord in each instance. Landlord shall not unreasonably withhold consent to any assignment of the lease or sublease of the Premises provided that (i) the assignee or sublessee will use the Premises for the Permitted Use and in a manner similar to that being used as of the date of this lease, (ii) no such assignment or sublease shall release Tenant from any liability under this lease, (iii) Tenant shall pay to Landlord the excess if any of (a) the rent and other amounts paid to Tenant by the assignee or sublessee under the assignment or sublease over the rent payable by Tenant to Landlord under this lease, (iv) the assignee or sublessee has, in Landlord's reasonable judgment, sufficient experience in the operation of its business, and the assignment or sublease, in Landlord's reasonable judgment, will not result in a decrease in the quality of Tenant's business operations, (v) Tenant shall not be in default under any of the provisions of this lease at the time of the assignment, (vi) the assignee or sublessee furnishes Landlord at least thirty (30) days prior to the effective date of the assignment or sublease a written instrument reasonably satisfactory to Landlord, and (vii) Tenant shall have given Landlord not less than thirty (30) days prior notice of any such assignment or sublease request, which notice shall contain all information and documentation Landlord reasonably requires to satisfy itself as to the foregoing.

5.2 Tenant's Covenant Against Liens.

Tenant shall not cause or permit any lien or encumbrance, whether created by act of Tenant, operation of Law or otherwise, to attach to or be placed upon Landlord's title or interest in the Premises. All liens and encumbrances created by Tenant shall attach to Tenant's interest only.

Tenant hereby agrees to hold the Landlord, its beneficiaries, partners, members and their respective agents and employees, harmless from any and all liabilities of every kind and description which may arise out of or be connected in any way with any alterations, additions or improvements. Any lien or encumbrance filed against the Premises for work claimed to have been furnished to the Tenant shall be discharged of record by the Tenant within thirty (30) days after notice from Landlord, at the Tenant's expense. In the event that Tenant shall fail to remove any such lien within said thirty (30) days, Landlord shall have the right, but not the obligation, to pay the amount thereof and have same removed of record, all without any obligation to inquire as to the validity thereof. In any such case the amounts so paid, including expenses, interest and attorney's fees, shall be additional rent hereunder and shall be paid to Landlord within five (5) days of Tenant's receipt of an invoice therefor. Upon completing any alterations, additions or improvements, Tenant shall furnish the Landlord with contractors' affidavits and fill and final waivers of lien and receipted bills covering all labor and materials expended and used.

5.3 Landlord's Right To Assign.

Landlord shall have the right to assign this lease in whole or in part without the consent of Tenant, provided, however, that no such assignment shall result in a conflict of interest, as defined in Section 8.1, below and further provided that no such assignment shall be made to a party which is not in compliance with the governmental ethics provisions referred to in Section 8.2, below.

5.4 Recapture.

Notwithstanding anything to the contrary contained in this section, Landlord shall have the option, by giving notice to Tenant within thirty (30) days after receipt of Tenant's notice of any proposed transfer, to recapture the Premises. Such recapture notice shall cancel and terminate this lease as of the date stated in Tenant's notice as the effective date of the proposed transfer, unless Tenant revokes Tenant's notice of proposed transfer by notice to Landlord within ten (10) days after Landlord's notice of recapture.

Section 6.

Insurance And Indemnification.

6.1 Insurance.

The Landlord shall procure and maintain at all times, at Landlord's own expense, during the Term of this lease, the types of insurance specified below, with insurance companies authorized to do business in the State of Illinois.

The kinds and amounts of insurance required are as follows:

(a) Workers' Compensation And Occupational Disease.

Workers' Compensation and Occupational Disease Insurance, in accordance with the laws of the State of Illinois, or any other applicable jurisdiction, covering all Landlord's employees at the Premises and Employer's Liability coverage for Landlord's employees at the Premises. This provision shall apply only if and to the extent that Landlord hires employees for work on the Premises.

(b) Commercial Liability Insurance (Primary And Umbrella).

Commercial General Liability Insurance or equivalent with limits of not less than One Million Dollars (\$1,000,000) per occurrence, for bodily injury, personal injury and property damage liability. Coverage extensions shall include the following: all Premises and Landlord's operations thereon. Tenant is to be named as an additional insured.

The Landlord shall be responsible for all loss or damage to personal property (including but not limited to materials, equipment, tools and supplies), owned or rented by the Landlord.

6.2 Other Terms Of Insurance.

The Landlord will furnish the City of Chicago, Department of General Services, Bureau of Asset Management, 30 North LaSalle Street, Suite 3700, Chicago, Illinois 60602, certificates of insurance, or copies thereof, evidencing the required coverage to be in force on the date of this lease, and renewal certificates of insurance, or copies thereof, or such similar evidence, if the coverages have an expiration or

renewal date occurring during the Term of this lease. The Landlord shall submit evidence on insurance prior to lease award. Unless Landlord is self-insured, the failure of the City to obtain certificates or other insurance evidence from Landlord shall not be deemed to be a waiver by the City.

The required insurance shall not be limited by any limitations expressed in the indemnification language herein or any limitation placed on the indemnity therein given as a matter of Law.

The City of Chicago Risk Management Department maintains the right to reasonably modify, delete, alter or change these requirements, provided that in no event shall any such requirements be increased.

6.3

Tenant shall self-insure pursuant to an appropriate program of self-insurance, for risks covered by workers' compensation (in accordance with the laws of the State of Illinois, or any other applicable jurisdiction), occupational disease, employer's liability, commercial general liability, and "all risk" property insurance, provided that Landlord (and the other parties designated by Landlord) shall be afforded protection in the same manner and to the same extent had Tenant obtained insurance on the Premises as herein provided, including, but not limited to receipt of certificate(s) of insurance naming Landlord, Landlord's lender, and any other parties designated by Landlord, as additional insureds with respect to liability coverages of Tenant's self-insurance coverage. All insurance required to be maintained pursuant to this Section 6.3 shall be in commercially reasonable amounts. Without limitation, for purposes of the mutual waiver of claims and subrogation set forth in this lease, Tenant shall be deemed to have the insurance for which Tenant is self-insuring.

6.4 Mutual Waiver Of Claims And Subrogation Rights.

Notwithstanding any other provision of this lease to the contrary, whenever (a) any loss, cost, damage or expense resulting from fire, explosion or any other casualty or occurrence is incurred by either of the parties to this lease, or anyone claiming by, through, or under it in connection with the Premises, and (b) such party is then covered in whole or in part by insurance with respect to such loss, cost, damage or expense or is required under this lease to be so insured, then the party so insured (or so required) hereby waives any claims against and releases the other party from any liability said other party may have on account of such loss, cost, damage or expense to the extent of any amount recovered by reason of such insurance (or which could have been recovered had such insurance been carried as so required);

provided that such waiver of claims or release of liability shall not be operative in any case where the effect thereof is to invalidate such insurance coverage or increase the cost thereof (except that in the case of increased cost, the other party shall have the right, within thirty (30) days following written notice, to pay such increased cost, thereby keeping such release or waiver in full force and effect). If the party released from liability hereunder is the Landlord, and if Landlord is an Illinois land trust, the term "Landlord", for the purpose of this Section 6.4, only, shall include the Trustee, its agents, its beneficiary or beneficiaries and their agents, including Agent.

6.5 Fire Protection.

Tenant shall conform with all applicable fire codes of any governmental authority, and with the rules and regulations of Landlord's fire underwriters and their fire protection engineers, including, without limitation, the installation of adequate fire extinguishers.

6.6 Mutual Indemnification.

Landlord and Tenant shall indemnify and hold each other harmless against all liabilities, judgment costs, damages, and expenses which may accrue against, be charged to, or be recovered from either party by reason of any negligent performance of or failure to perform any of their obligations under this lease.

6.7 Tenant's Indemnity And Waiver.

Tenant will protect, indemnify and save Landlord, its members, managers, partners, shareholders, employees, officers, directors, agents, and their respective successors and assigns harmless from and against all liabilities, obligations, claims, damages, penalties, causes of action, costs and expenses (including without limitation, reasonable attorney's fees and expenses) imposed upon, incurred by or asserted against Landlord by reason of: (a) any accident, injury to or death of persons or loss of or damage to property occurring on or about the Premises or any part thereof or the adjoining properties, sidewalks, curbs, streets or ways, or resulting from an act or omission of Tenant or anyone claiming by through or under Tenant; (b) any failure on the part of Tenant to perform or comply with any of the terms of this lease or any other agreements affecting the Premises; (c) the use, occupation, condition or operation of the Premises or any part thereof; or (d) performance of any labor or services or the furnishing of any materials or other property in respect of the Premises or any part thereof. In case any action, suit or proceeding is brought against Landlord by reason of any such occurrence, Tenant

will, at Tenant's sole expense, resist and defend such action, suit or proceeding, or cause the same to be resisted and defended.

Tenant waives all claims it may have against Landlord and Landlord's agents for damage or injury to person or property sustained by Tenant or any persons claiming through Tenant or by any occupant of the Premises, or by any other person, resulting from any part of the Premises becoming out of repair, or resulting from any accident on or about the Premises except those resulting directly from any act or neglect of Landlord.

This Section 6.7 shall include, but not by way of limitation, damage caused by water, snow, frost, steam, excessive heat or cold, sewage, gas, odors or noise, or caused by bursting or leaking pipes or plumbing fixtures, and shall apply equally whether any such damage results from the act or neglect of Tenant or of any other person, including Landlord to the extent permitted by Law, and whether such damage be caused or result from anything or circumstance above mentioned or referred to, or to any other thing or circumstance whether of a like nature or of a wholly different nature. All personal property belonging to Tenant or any occupant of the Premises shall be there at the risk of Tenant or of such other person only, and Landlord shall not be liable for any damage thereto or for the theft or misappropriation thereof.

Section 7.

Damage Or Destruction.

7.1 Damage Or Destruction.

If the Premises are damaged or destroyed by fire or other casualty to such extent that Tenant cannot reasonably continue, occupy or conduct its normal business therein, or if, in Tenant's reasonable opinion, the Premises are rendered untenable, Tenant shall have the option to declare this lease terminated as of the date of such damage or destruction by giving Landlord written notice to such effect within thirty (30) days after the date on which such damage occurred. If Tenant exercises this option, the rent shall be apportioned as of the date of such damage or destruction and Landlord shall forthwith repay to Tenant all prepaid rent. Notwithstanding the foregoing, Tenant shall have no right to terminate this lease in the event the damage or destruction can be repaired within one hundred eighty (180) days after the date of such damage and Landlord notifies Tenant within thirty (30) days after such damage that it intends to restore the Premises. If all or substantially all the Premises is rendered untenable because of such damage or

destruction then Landlord shall also have the right to terminate this lease by written notice delivered to Tenant. In no event shall Landlord be required to repair or replace any of Tenant's furniture, furnishings, fixtures or equipment, or any alterations or improvements.

Section 8.

Conflict Of Interest And Governmental Ethics.

8.1 Conflict Of Interest.

No official or employee of the City of Chicago, nor any member of any board, commission or agency of the City of Chicago, shall have any financial interest (as directed in Chapter 2-156 of the Municipal Code of Chicago), either direct or indirect, in the Premises; nor shall any such official, employee, or member participate in making or in any way attempt to use his position to influence any City governmental decision or action with respect to this lease.

8.2 Duty To Comply With Governmental Ethics Ordinance.

Landlord and Tenant shall comply with Chapter 2-156 of the Municipal Code of Chicago, "Governmental Ethics", including but not limited to Section 2-156-120, which states that no payment, gratuity or offer of employment shall be made in connection with any City of Chicago contract as an inducement for the award of that contract or order. Any contract negotiated, entered into, or performed in violation of any of the provisions of Chapter 2-156 shall be voidable as to the City of Chicago.

Section 9.

Holding Over.

9.1 Holding Over.

Any holding over by Tenant shall be construed to be a tenancy at sufferance and the rent shall be at one hundred fifty percent (150%) of the rate set forth in Section 3.1(e) of this lease. Notwithstanding anything contained herein to the contrary, for a period not to exceed thirty (30) days after the scheduled end of the Term

("Negotiation Period"), Tenant shall not be required to pay the rent increase provided for in this section for failing to vacate after the end of the Term if and only if Landlord and Tenant are actively engaged in bona fide negotiations with regard to an extension or renewal of this lease for the Premises. Provided that, prior to the expiration of the Negotiation Period, Landlord and Tenant have agreed on the terms of such renewal or extension, and provided further that the terms of such extension or renewal have been submitted to the City Council of Chicago for approval prior to the expiration of the Negotiation Period, then, in such event Tenant shall not be required to pay the rent increase provided for in this section for an additional period beginning on the expiration of the Negotiation Period and ending on the earlier of (i) the date on which the City Council of Chicago shall next meet in session, or (ii) thirty (30) days after the expiration of the Negotiation Period. In the event that Landlord and Tenant shall agree upon the terms of any renewal or extension, the terms of such renewal or extension shall be effective as of the day after the expiration of the Term. Notice at any time from Landlord to Tenant that Landlord does not wish to negotiate any extension, which notice may be given prior to the beginning of the holdover period, shall be dispositive that bona fide negotiations are not in progress (although such a notice is not required to be given by Landlord).

Section 10.

Miscellaneous.

10.1 Notice.

All notices, demands and requests which may be or are required to be given, demanded or requested by either party to the other shall be in writing, except as specifically set forth in this lease. All notices, demands and requests by Landlord to Tenant shall be delivered by either personal service, national overnight courier or shall be sent by United States registered or certified mail, return receipt requested, postage prepaid addressed to Tenant as follows:

Bureau of Asset Management
Department of General Services
30 North LaSalle Street, Suite 3700
Chicago, Illinois 60602

or at such other place as Tenant may from time to time designate by written notice to Landlord and to Tenant at the Premises. All notices, demands and requests by Tenant to Landlord shall be delivered by either personal service, a national overnight courier or shall be sent by United States registered or certified mail, return receipt requested, postage prepaid, addressed to Landlord as follows:

3200 South Kedzie, L.L.C.
In care of The Regent Group
8999 Palmer Street
River Grove, Illinois 60171-1926
Attention: Mr. William G. Bailes

or at such other place as Landlord may from time to time designate by written notice to Tenant. Any notice, demand or request which shall be served upon Landlord by Tenant, or upon Tenant by Landlord, in the manner aforesaid, shall be deemed to be sufficiently served or given for all purposes hereunder at the time such notice, demand or request shall be either accepted or delivery is refused.

10.2 Partial Invalidity.

If any covenant, condition, provision, term or agreement of this lease shall, to any extent, be held invalid or unenforceable, the remaining covenants, conditions, provisions, terms and agreements of this lease shall not be affected thereby, but each covenant, condition, provision, term or agreement of this lease shall be valid and in force to the fullest extent permitted by Law.

10.3 Governing Law.

This lease shall be construed and be enforceable in accordance with the laws of the State of Illinois.

10.4 Entire Agreement.

All preliminary and contemporaneous negotiations are merged into and incorporated in this lease. This lease contains the entire agreement between the parties and shall not be modified or amended in any manner except by an instrument in writing executed by the parties hereto.

10.5 Captions And Section Numbers.

The captions and section numbers appearing in this lease are inserted only as a matter of convenience and in no way define, limit, construe or describe the scope or intent of such sections of this lease nor in any way affect this lease.

10.6 Binding Effect Of Lease.

The covenants, agreements, and obligations contained in this lease shall extend to, bind, and inure to the benefit of the parties hereto and their legal representatives, heirs, successors and assigns.

10.7 Time Is Of The Essence.

Time is of the essence of this lease and of each and every provision hereof.

10.8 No Principal/Agent Or Partnership Relationship.

Nothing contained in this lease shall be deemed or construed by the parties hereto nor by any third party as creating the relationship of principal and agent or of partnership or of joint venture between the parties hereto.

10.9 Authorization To Execute Lease.

The parties executing this lease hereby represent and warrant that they are the duly authorized and acting representatives of Landlord and Tenant, respectively, and that by their execution of this lease, it became the binding obligation of Landlord and Tenant, respectively, subject to no contingencies or conditions except as specifically provided herein.

10.10 Termination Of Lease.

Tenant shall have the right to terminate this lease and Tenant's obligations hereunder by ninety (90) days prior written notice to Landlord delivered at any time after June 1, 2005.

10.11 Force Majeure.

When a period of time is provided in this lease for either party to do or perform any act or thing, other than the payment of money, the party shall not be liable or responsible for any delays due to strikes, lockouts, casualties, acts of God, wars, governmental regulation or control, and other causes beyond the reasonable control of the party, and in any such event the time period shall be extended for the amount of time the party is so delayed. In addition, Landlord does not warrant that any of the services to be provided pursuant to this lease will be free from interruptions caused by war, insurrection, civil commotion, riots, acts of God or the enemy, governmental action, repairs, renewals, improvements, alterations, strikes, lockouts, picketing, whether legal or illegal, accidents, inability of the Landlord to obtain fuel or supplies or any other cause or causes beyond the reasonable control of the Landlord. Landlord's performance of its obligations pursuant to this lease or any interruption of service due to the foregoing shall never be deemed an eviction or disturbance of the Tenant's use and possession of the Premises or any part thereof, or render the Landlord liable to the Tenant for damages, or relieve the Tenant from performance of the Tenant's obligations under this lease.

10.12 Condemnation.

If the whole or any substantial part of the Premises are taken or condemned by any competent authority for any public use or purpose, or if any adjacent property or street shall be so condemned or improved in such a manner as to require the use of any part of the Premises, the Term of this lease shall, at the option of Landlord or the condemning authority, be terminated upon, and not before, the date when possession of the part so taken shall be required for such use or purpose, and Landlord shall be entitled to receive the entire award without apportionment with Tenant. Rent shall be apportioned as of the date of Tenant's vacating as the result of said termination.

Section 11.

13.2 Landlord's Remedies.

(a) The occurrence of any one (1) or more of the following matters constitutes a default by Tenant under this lease:

(i) Tenant fails to pay any installment or other payment of rent or any other charges required to be paid within five (5) business days of written notice thereof; provided that the first (1st) two (2) non-consecutive occurrences of such late payments in any calendar year shall not constitute a default if payment is made to Landlord within thirty (30) days of written notice thereof;

(ii) Tenant fails to observe or perform any of the other covenants, conditions or provisions of this lease to be observed or performed by Tenant and fails to cure such default within thirty (30) days after written notice thereof to Tenant; provided that, in the event such default cannot reasonably be expected to be cured within said thirty (30) days, and provided that Tenant shall commence the cure within said thirty (30) days and continue to diligently pursue such cure to completion, such failure to observe or perform shall not be deemed a default hereunder;

(iii) Tenant shall default in keeping, observing or performing any other covenant, agreement, condition or provision of this lease.

(b) In the event of any uncured default of this lease by Tenant, Landlord may, at its option and without notice or demand to Tenant and in addition to all other rights and remedies provided in this lease at Law or in equity, terminate this lease and Tenant's right of possession of the Premises, and recover all damages to which Landlord is entitled under law, specifically including, without limitation, all rent for the balance of the Term (through May 31, 2006), provided that same shall be discounted to its net present value.

(c) Tenant shall pay upon demand, all costs and expenses, including reasonable attorneys' fees, incurred by Landlord in enforcing the observance and performance by Tenant of all covenants, conditions and provisions of this lease to be observed and performed by Tenant, or resulting from Tenant's default under this lease. All references in this lease to Landlord's attorneys' fees shall be deemed to include all legal assistants' and paralegals' fees and shall include all fees incurred through all post-judgment and appellate levels and in connection with bankruptcy proceedings.

The term "Hazardous Materials", when used herein, shall include, but shall not be limited to, any substances, materials or wastes that are regulated by any local governmental authority, the state where the Premises is located, or the United States of America because of toxic, flammable, explosive, corrosive, reactive,

Tenant does hereby indemnify, defend and hold harmless Landlord and its agents and their respective officers, directors, beneficiaries, shareholders, partners, agents and employees from all fines, suits, procedures, claims and actions of every kind, and all costs associated therewith (including attorneys' and consultants' fees) arising out of or in any way connected with any deposit, spill, discharge or other release of Hazardous Materials that occurs during the Term of this lease, at or from the Premises, or which arises at any time from Tenant's use or occupancy of the Premises, or from Tenant's failure to provide all information, make all submissions, and take all steps required by all applicable governmental authorities. (c) All restricted parking spaces created pursuant to this section shall require approval by a vote of the city council to be effective. Upon receiving an initial application, the alderman of the ward in which the restricted parking space will be located may introduce an ordinance proposing approval of the creation of a restricted parking space. However, the city council shall not take action on the ordinance to create a restricted parking space during the 30-day period required for the director of revenue to complete the parking study.

(d) After introduction of an ordinance described in subsection (c), the director of revenue shall arrange for a parking study if:

(1) the applicant has tendered the required fee for restricted parking, and

(2) the director of revenue concludes that the above conditions (1) through (3) of subsection (b) of this section are met and the application is otherwise acceptable[, the director shall arrange for a parking study].

Such parking study shall *be completed within 30 days after the conditions in subsections (d)(1) and (d)(2) are met and shall include a determination [as to whether the applicant has alternative accessible off-street parking at his or her primary residence. The determination of accessibility shall be based upon the presence or absence of physical obstacles to unimpeded access to and from the residence, the times any such parking is available, the distance from any such parking to the residence and other relevant considerations. The study's conclusions shall include a determination as to availability of alternative accessible off-street parking at the applicant's primary residence and] regarding the feasibility and, if appropriate, the proposed location of a proposed restricted parking space. The determination shall be based upon the number of restricted parking spaces currently installed on the residential street; the proximity of the requested restricted parking space to crosswalks, curb cuts, alleys, intersections and fire hydrants; and any other information concerning the applicant's needs and local traffic restrictions. The determination may also be based upon the extent of the alternative accessible off-street parking at the applicant's primary residence.*

(e) Upon [approving an application] *completion of the parking survey and the recommendation that a restricted parking space be installed,* the director of revenue shall inform the applicant of the proposed location of the proposed parking space and shall report such [approval] *recommendation* to the alderman of the ward in which the restricted parking space will be located and to the city council committee on traffic control and safety. Upon [denying] *determining that an application for a restricted parking space should not be recommended,* the director of revenue shall provide written notice to the person submitting the application as *well as the alderman of the ward in which the application was made.* Any person whose application has *not* been [denied on the basis of having alternative accessible off-street parking at his or her primary residence, or because the city has determined that a restricted parking space cannot be situated in a location accessible to the applicant's primary residence] *recommended because the city has determined that a restricted parking space cannot be situated in a location accessible to the applicant's primary residence or was not recommended on the basis of the extent of the alternative accessible off-street parking at his or her primary residence* may, within ten days of the date of denial, respond in writing to the mayor's office for people with disabilities requesting a review of the findings and stating reasons in support of reconsideration. The mayor's office for people with disabilities shall conduct such review[, employing the criteria for determination of accessibility set forth in subsection (c) of this section,] and shall make a determination within [60] 30 days of the date the request for reconsideration was made. The mayor's office for people with disabilities shall report its determination to the director of revenue, who shall follow, and, if appropriate, reevaluate the application in light of, such determination. [Any person whose application has been denied on the basis of having alternative accessible off-street parking at his or her primary residence, or because the city

has determined that a restricted parking space cannot be situated in a location accessible to the applicant's primary residence, shall be refunded his or her application fee.])

[All restricted parking spaces created pursuant to this subsection shall require approval by a vote of the city council to be effective.] *Upon approval of the city council of the designation of a restricted parking space under this subsection, the director of revenue shall issue to the applicant a revocable permit evidenced by decal or other device indicating the permit number for the restricted parking space. For restricted parking spaces that have been created under this subsection prior to the effective date of this amendatory ordinance, the director of revenue shall issue the permit no longer than 120 days after that effective date.*

In the event that (1) the department of revenue does not recommend the creation of a restricted parking space, (2) a request for review with the mayor's office for people with disabilities is not timely made, (3) a request for review with the mayor's office for people with disabilities is timely made but a determination is issued consistent with the earlier findings of the director of revenue, and/or (4) the city council fails to approve creation of a restricted parking space, the department of revenue shall refund the applicant his or her application fee directly.

(f) If the city determines, as to a pending application, that the applicant has falsely represented any one or more of conditions (1) through (3) of subsection (b) of this section, the applicant shall be subject to a fine of not less than \$100.00 nor more than \$500.00 and the application shall be denied. [If the city determines, as to a pending application, that the applicant has falsely represented condition (4) of subsection (b) of this section, the application shall be denied.] If the city determines, either at the time of a renewal or at any other time, that a person who applied for and is using a restricted parking space issued pursuant to subsection [d](e) of this section is not in compliance with any one or more conditions (1) through [(4)](3) of subsection (b) of this section, the director of revenue, 30 days after providing written notice to the person *and the alderman of the ward in which application was made or in which the sign was installed*, and an opportunity to respond, is authorized to revoke *the permit issued under subsection (e) and the restricted parking space*, and the commissioner of transportation is authorized to remove the sign designating such parking space. Any person not in compliance with any one or more of conditions (1) through (3) of this section shall be subject to a fine of not less than \$100.00 nor more than \$500.00. *In addition, the permit and restricted parking space issued and created under subsection (e) shall be deemed revoked whenever the commissioner of transportation removes the sign for reasons of public convenience or necessity under subsection (e) of Section 9-68-030.*

Upon death of an applicant, there shall be a revocation of the permit issued hereunder, except in the case of a spouse or child of an applicant meeting the qualifications set forth in subsection (b) of this section. Application shall be made pursuant to subsection (b) of this section without additional fees or the removal of existing signs, and the permit shall be reissued to the spouse or child of the decedent subject to subsection (e) of this section.

(g) A renewal fee for a permit and restricted parking space issued and created pursuant to subsection [(d)](e) of this section shall be required annually. The renewal fee requirement may only be waived if the applicant provides a certification of approval under the Senior Citizens and Disabled Persons Property Tax Relief and Pharmaceutical Assistance Act, 320 ILCS 25/1, et seq., as amended. The director of revenue shall provide written notice of the renewal fee requirement annually to each person using such restricted parking space. Upon a person's failure to submit the required fee in a timely fashion, the director of revenue shall provide a second written notice to the person and an opportunity to respond. If the fee, along with any prior unpaid fees, is not received by the city within 30 days from the date the second notification is mailed, the director of revenue is authorized to revoke the permit issued under this section and the restricted parking space, and the commissioner of transportation is authorized to remove the sign designating such restricted parking space.

(h) Any space designated as an on-street person with a disability parking space pursuant to this section shall be a maximum of twenty-five feet in length. Any such space shall be indicated by two signs, one located at each end of the parking space, unless conditions in the public way dictate the placement of a single sign located at one end of the parking space. The signs indicating a restricted parking space created under subsection (e) of this section shall indicate that parking in that space is restricted to the holder of the permit for such space, and shall indicate the permit number for such space.

(i) The parking administrator is authorized to designate certain areas on business streets in which parking is prohibited except by vehicles displaying person with a disability or disabled veterans state registration plate or a person with a disability parking decal or device issued pursuant to Section 3-609, 3-616 or Section 11-1301.2 of the Illinois Vehicle Code. Such areas shall comprise at least two percent of the available on-street parking spaces on any street within the area bounded by Roosevelt Road to the south, Halsted Street from Roosevelt Road to Chicago Avenue and LaSalle Street from Chicago Avenue to Division Street on the west, Chicago Avenue from Halsted Street to LaSalle Street and Division Street from LaSalle Street to Lake Michigan on the north and Lake Michigan on the east. The parking administrator is authorized to determine the specific times and days that the restrictions shall be in effect. The parking administrator shall consult with the commissioner of transportation in the selection of locations. All locations

selected by the parking administrator pursuant to this subsection shall be subject to the review and approval of the mayor's office for people with disabilities. The commissioner of transportation and the mayor's office for people with disabilities shall develop a comprehensive plan for designating areas of restricted parking pursuant to this subsection. The commissioner of transportation shall install appropriate signs at areas designated pursuant to this section.

(j) It shall be unlawful to park any vehicle in any space designated by signage as a person with a disability parking space or in any parking stall of a private or public parking lot designated by the lot owner or his agent as reserved for person with disability parking unless the vehicle bears person with a disability or disabled veteran state registration plates or a person with a disability parking decal or device issued pursuant to Section 3-609, 3-616 or Section 11-1301.2 of the Illinois Vehicle Code and such vehicle is operated by the person to whom the special registration plates, special decal or device was issued or a qualified operator acting under his express direction while the person with a disability is present. In addition, beginning 120 days after the effective date of the amendatory ordinance, it shall be unlawful to park in a restricted parking space created under subsection (e) of this section unless the vehicle bears the decal or other device issued under that subsection, and the vehicle is operated by the permit holder, or by a qualified operator acting under the express direction of the permit holder while the permit holder is present.

(k) Except as otherwise provided in this section, [A]any motor vehicle bearing a person with disability license plate or a person with disability parking decal or device containing the international symbol of access issued to persons with disabilities by any local authority, state, district, territory or foreign country shall be recognized as a valid license plate or device and receive the same parking privileges as provided in this section.

Authority for the above named privilege is herein given and granted from and after April 1, 2001 through, and including, November 1, 2001.

Said privilege shall be maintained and used in accordance with the ordinances of the City of Chicago and the directions of the Commissioner of Streets and Sanitation, the Commissioner of Inspectional Services and the Director of Revenue. The grantee shall keep that portion of the public way under said privilege in good condition and repair, safe for public travel, free from snow, ice and debris to the satisfaction of the Commissioner of Transportation.

SECTION 1. The operator of a sidewalk cafe shall install and maintain a physical boundary separating the permitted outdoor seating from the remainder of the public way. The boundary may be a partition, planters, railing, fence or any combination of them, and shall be no less than twenty-four (24) inches and no more than thirty-six (36) inches in height. The boundary must be of such construction and configuration that it will not topple due to wind or incidental contact with pedestrians. Said insurance coverage shall be continuing in effect until the structures and appliances herein authorized are removed and the public way is restored as herein required.

SECTION 2. The grantee agrees to pay the City of Chicago as compensation for the privilege herein granted the sum as stated in Section 1, in advance. In case of termination of the privilege herein granted or the grantee transfers title or vacates the premises, the grantee shall, nevertheless, remain liable to the City of Chicago for the compensation which shall have become due and payable under the provisions hereof, until the structures and appliances herein authorized are removed and the public way is restored as herein required.

SECTION 3. This ordinance is subject to amendment, modification or repeal, and permission and authority herein granted may be revoked by the Mayor of the City of Chicago or the Director of Revenue at any time without the consent of said grantee. In the event of failure, neglect or refusal of said grantee so to do, the City of Chicago will have the choice of either performing said work and charging the cost thereof to said grantee or determining what the cost of said work shall be and billing the grantee for said cost.

SECTION 4. The insurance company and the grantee, as provided in Section 5, will hold and save the City of Chicago, its officers, agents and employees harmless from any and all liability and expense, including judgments, costs and damages, for removal, relocation, alteration, repair, maintenance and restoration of the structures or appliances herein authorized, and from any and all damages thereto on account of the location, construction, alteration, repair or maintenance of any public ways, bridges, subways, tunnels, vaults, sewers, water mains, conduits, pipes, poles and other utilities. For the City of Chicago to recover from the insurance company and the grantee under this section, it is not necessary that the City of Chicago first make said removal, relocation, alteration, repair, maintenance or restoration. The Commissioner of Streets and Sanitation is hereby authorized to determine what cost would be involved to perform said removal, relocation, alteration, repair, maintenance and restoration and that decision as to the amount shall be final and binding. The grantee and the insurance company, upon receiving written notification from the Commissioner of Streets and Sanitation of the cost of said removal and restoration, shall pay immediately said amount upon demand. It shall be the responsibility of the grantee to furnish the City of Chicago, prior to issuance of the permit for this privilege, a copy of proof of insurance (Certificate of Insurance) in an amount not less than One Million and no/100 Dollars (\$1,000,000.00) Combined Single Limit with said insurance covering all liability, including Public

The aforementioned insurance coverage shall be maintained at all times by the grantee until the structures or appliances described in this ordinance are removed and the public way is restored as herein required.

SECTION 5. The permission and authority herein granted shall not be exercised until a permit authorizing same shall have been issued by the Director of Revenue and upon the faithful observance and performance of any and all conditions and provisions of this ordinance, and conditioned further to indemnify, keep and save harmless the City of Chicago, its agents, officers and employees, against all liabilities, judgments, costs, damages and expenses, including any dramshop liability, which may in any way come against said City in consequence of the permission given by this ordinance, or which may accrue against, be charged to, or recovered from said City from, or by reason, or on account of, any act or thing done, or omitted, or neglected to be done by the grantee in and about the construction, reconstruction, maintenance, use and removal of said structures or appliances and the restoration of the public way as herein required. Said insurance coverage shall be continuing in effect until the structures and appliances herein authorized are removed and the public way is restored as herein required.

SECTION 6. This ordinance shall take effect and be in force from and after its passage; provided, however, that said grantee file proof of indemnification on behalf of the City of Chicago, as herein requested, and payment of the compensation be paid to the Department of Revenue.

4. This plan of development consists of fifteen (15) statements; a Bulk Regulations and Data Table; an Existing Zoning Map; General Land-Use Map; Boundary and Property Line Map; Site Plan; Landscape Plan; Plaza Plan, Floor Plans and Building Elevations dated July 12, 2001, prepared by Solomon Cordwell Buenz, Architects. 13. The applicant acknowledges that it is in the public interest to design, construct and maintain all buildings in a manner which promotes and maximizes the conservation of energy resources. The applicant shall use best and reasonable efforts to design, construct and maintain all buildings

located within this planned development in an energy efficient manner, generally consistent with the most current energy efficiency standards published by the American Society of Heating, Refrigerating and Air-Conditioning Engineers ("A.S.H.R.A.E.") and the Illuminating Engineering Society ("I.E.S."). Copies of these standards may be obtained from the Department of Planning and Development.

14. The applicant acknowledges that it is in the public interest to design, construct and maintain the project in a manner which promotes, enables, and maximizes universal access throughout the property. Plans for all buildings and improvements on the property shall be reviewed and approved by the Mayor's Office for People with Disabilities (M.O.P.D.) to ensure compliance with all applicable laws and regulations related to access for persons with disabilities and to promote the highest standard of accessibility. No approvals shall be granted pursuant to Section 11.11-3(b) of the Chicago Zoning Ordinance until the Director of M.O.P.D. has approved detailed construction drawings for each building or improvement.
15. Unless substantial construction has commenced within six (6) years following adoption of this planned development, then this planned development shall expire. However, in the event that no substantial construction has not commenced within four (4) years of adoption of this planned development, then the Commissioner of Planning may elect to terminate this planned development by giving written notice to the developer. 10. Off-street parking and loading facilities will be provided in compliance with this plan of development as authorized by the Chicago Zoning Ordinance.

11. Height restriction of any building or any appurtenance thereto shall, in addition to the Bulk Regulations and Data Table, be subject to height limitations as certified and approved by the Federal Aviation Administration. 12. The improvements on the property, including the buildings, exterior landscaping, landscaping along the adjacent rights-of-way, and all entrances and exits to and from the buildings and their associated parking and loading areas shall be designed, constructed and maintained in substantial conformance with the Plans, Maps, Site Plans, Site and Bulk Tables, and exhibits described in Statement 4. In addition, the improvements on the property shall be subject to the following regulations:
 - A. Building Design And Layout.
 1. Design Compatibility. The Applicant, its successors and assigns, shall make reasonable efforts to design and construct all buildings in a manner compatible with the existing campus character of the University of Chicago and the adjacent residential areas. The Commissioner of Planning and Development shall determine whether the improvement complies with the requirement for compatibility during the site plan review process.
 2. Quadrangles. The concept of the quadrangle shall be the predominant spatial theme when conceptualizing new development. The quadrangle concept is a system of open spaces or courtyards contained and separated from the surrounding streets by architecture.
 3. Building Character And Scale. All new structures will be designed to be compatible with the existing buildings on the University of Chicago campus and adjacent residential areas. Scale, massing, articulation, setbacks, materials, color, texture, lighting, fenestration and other architectural devices will be used to create a design in character with the architectural heritage of the University and Hyde Park. Exterior walls visible from any public way shall be designed using texture and details of windows, openings, projections, recesses, offsets or other architectural elements. Special attention shall be given to achieve an interesting building design at the pedestrian level through

the use of landscape elements, articulation of surface forms and textures, expression of the structural rhythm and architectural detail. Where active uses are located along the periphery, windows and entrances will be encouraged at grade level along the public way. Established circulation and public space patterns at street level will be respected. Existing architectural details, such as cornice height, fenestration rhythms and building setbacks from surrounding structures shall be recognized in the design of the building.

4. Projections Over Rights-Of-Way. Horizontal projections (such as balconies, loggias or terraces) shall be permitted within required building setbacks. Canopies, awnings, cornices and/or similar projections shall be allowed provided they do not in any way obstruct the public way.

Sky bridges shall only be permitted after the review and approval of the Commissioner of the Department of Planning Development and with input from the alderman of the ward.

5. Lighting. Base level lighting shall address a variety of functions. More intense, but directed lighting shall be provided at public entries, drop-offs, pedestrian walkways, et cetera. Base level facade and landscape lighting will be softer in nature. The use of lighting to highlight architectural features is strongly encouraged; however, lighting shall not beam directly into the windows of nearby buildings.
6. Vacant Sites. If construction does not occur within twelve (12) months from the date a site is cleared, the site shall be graded, seeded to grass and maintained as a lawn area.

B. Traffic, Circulation And Parking.

1. Traffic Management. The Applicant acknowledges that the development of the University of Chicago Campus and related Medical Facilities will have unique traffic generation and parking characteristics which will require ongoing operation controls to minimize the impact on the

surrounding neighborhood and the traffic network. Accordingly, the Applicant shall be responsible for implementing certain operational controls over parking and traffic activity expected to occur adjacent to these facilities. These operational controls are set forth in a "Traffic Management Plan" (T.M.P.). The T.M.P. (Exhibit 1) shall be deemed an integral part of this planned development. The Applicant's compliance with the T.M.P. shall be a requirement of this planned development ordinance, as amended.

In order to assure the T.M.P.'s effectiveness, the Applicant shall submit to the Commissioner of the Department of Transportation (with a copy to the Commissioner of Planning and Development) a biannual report which will describe the past two (2) years traffic and parking activity, update population figures, and assess the effectiveness of the various provisions of the T.M.P. and recommend modifications. Additionally, the Applicant or its designated representative, shall cooperate with the City and with the applicable transit agencies in the on-going review and updating of the T.M.P.

In the event the Chicago Department of Transportation determines that the measures taken as part of the T.M.P. do not prove effective, the Chicago Department of Transportation may request additional traffic management, parking or control measures as needed to mitigate or eliminate traffic interference. The Applicant shall be responsible for making any modifications to the T.M.P., and for implementing any additional traffic management or control measures reasonably required by the Department of Transportation, after consultation with the alderman and community representatives.

Modifications to the T.M.P. may be made at any time with the approval of the Commissioner of Transportation and the Commissioner of the Department of Planning and Development and shall automatically become part of this plan of development. Such modifications and approvals shall be kept on file with the Department of Transportation and the Department of Planning and Development.

2. Circulation. The pedestrian circulation and open space system shall continue to be emphasized as the organizing framework for campus development. Priority shall be given to a network of primary campus pedestrian routes running through and between the blocks of campus providing a visible, continuous linkage of the major spaces in each block. In turn, the major spaces should be established at the outset as the framework around which building sites are organized.

The architectural complement to this principal is emphasizing primary pedestrian entries to buildings on the sides which face the open space and by avoiding the penetration of vehicular and service functions into the open space where feasible.

The street grid system shall remain as the organizing principle for pedestrian and vehicular circulation as the peripheral areas of the campus grow and develop. This continues to respect the order established by the City of Chicago street grid system and the axial form of the central campus. Variations in the pattern should appear mainly as a result of building and spatial organization at the block or sub-block scale. Maintaining a reasonably fine-grained street network in the campus area will continue to provide access and circulation to all parts of the campus and surrounding neighborhoods.

Parking lot layout, loading access, private roadway circulation routes, parking structure operational design, and the location and design of curbcuts at the public street shall be constructed in substantial accordance with the Site Plans submitted to and approved by the Department of Planning and Development.

3. Parking. The number of required parking spaces shall be determined by applying University population figures against parking ratios described in the Transportation Management Plan.

The amount of required parking may be reduced by a maximum of twenty percent (20%) if the Department of Planning and Development determines, in consultation with the Department of Transportation, that a reduction is warranted based on alternate modes of transportation provided by (or supported by) the University.

Under this ordinance, a minimum of two percent (2%) of the spaces shall be designed and designated for use by the handicapped.

4. Curb Cuts. Private roadways, driveways, entrances to off-street parking and loading docks, and all other facilities requiring curb cuts shall be located to minimize conflicts with on-street traffic and with pedestrian circulation. No curb cut shall be located within ten (10) feet of any property line or within ten (10) feet of any other curb cut. All such curb cuts shall comply with City of Chicago standards.
5. Private Roadways. A private roadway shall mean any private drive located on private property which is designed and intended for use as vehicular access to functions located therein. Firelanes, if required within the private property, shall be designed and paved to provide access and egress for emergency vehicles. Any private roadway shall be designed and configured to provide direct and coherent pathways to public streets.

C. Site Amenities And Landscaping.

1. Landscape Design. All projects submitted to the Department of Planning and Development shall have a Landscape Plan. The Landscape Plan shall continue the planting design traditions established in the central campus, consisting of broad sweeps of lawn, canopy shade trees, ornamental flowering trees and shrubs, and flower beds. In addition, the Landscape Plan will adhere to the

parkway planting provisions of the Chicago Zoning Ordinance and corresponding guidelines and regulations for installation of shade trees along the city parkways.

2. Paving Materials. When decorative paving materials are proposed for walkways or roads, they shall be in accordance with the established palette on the University of Chicago campus. This palette includes stone, brick, concrete pavers and specialty concrete.
 3. Site Amenities. If site amenities such as light standards, trash receptacles, benches, flagpoles, ash urns and planters are specified for placement within the public outdoor spaces of a proposed development, they shall be compatible with those items presently existing on the University of Chicago campus.
 4. Landscaping shall be installed and maintained substantially in accordance with the Landscape provisions of the Chicago Zoning Ordinance on all surface lots owned and controlled by the Applicant pursuant to a phasing schedule to be submitted and approved by the Department of Planning and Development. However, all landscaping of surface parking lots shall be completed no later than six (6) years after adoption of this ordinance.
13. The terms, conditions and exhibits of the planned development ordinance may be modified administratively by the Commissioner of the Department of Planning and Development upon the request of the Applicant and after a determination by the Commissioner that such modification is minor, appropriate, consistent with the nature of the development of the property contemplated in this planned development ordinance. Any such modification shall be deemed to be a minor change in the planned development ordinance as contemplated by Section 11.11-3(c) of the Chicago Zoning Ordinance. Notwithstanding the provisions of subclauses (4) and (5) of Section 11.11-3(c) of the Chicago Zoning Ordinance, such minor changes may include a reduction in the minimum required distance between structures, and reduction in the periphery setbacks, or an increase of the maximum percent of land covered.

14. The improvements on the property shall be designed, constructed and maintained in substantial conformance with the plans and exhibits attached hereto and with the parkway and parking lot landscaping provisions of the Chicago Zoning Ordinance and corresponding regulations and guidelines.
15. Prior to the issuance by the Department of Planning and Development of a determination pursuant to Section 11.11-3(b) of the Chicago Zoning Ordinance ("Part II Approval") of the buildings contemplated within this Institutional Planned Development Number 43, as amended, the Applicant shall submit plans of such buildings for site and elevation plan review and approval of the Commission of the Department. Review and approval of the Site and Elevations Plans by the Commissioner is intended to assure that specific development proposals substantially conform with this planned development and to assist the City in monitoring ongoing development. Such Site and Elevation Plans need only include that portion of the property, for which approval is being sought by the Applicant. No Part II Approval for any portion of the property shall be granted until an applicable Site Plan has been approved.

Following approval of the Site/Landscape Plan and Elevations by the Commissioner, the approved plans and supporting data and materials shall be kept on permanent file with the Department and shall be deemed to be an integral part of this planned development.

After approval of Site/Landscape and Elevation Plans, the approved plans may be changed or modified pursuant to the provisions of statement 15 hereof. In the event of any inconsistency between an approved plans and the terms of this planned development in effect at the time of approval of such plans or of the modifications or changes thereto, the terms of this planned development shall govern.

Plans shall, at a minimum, provide the following information:

- (a) the boundaries of the site or portion of the property for which approval is being sought;
- (b) the footprint of the proposed improvements;
- (c) elevations of the improvements;

- (d) location and depiction of all parking spaces (including relevant dimensions);
- (e) location and depiction of all loading berths (including relevant dimensions);
- (f) all drives, roadways and vehicular routes;
- (g) all landscaping and buffer zones (including a description of all landscape materials);
- (h) statistical information application to the property limited to the following:
 - (i) floor area and floor area ratio;
 - (ii) floor area devoted to retail uses;
 - (iii) number of dwelling units;
 - (iv) number of parking spaces;
 - (v) number of loading berths; and
 - (vi) uses of parcels.
- (i) parameters of building envelopes including:
 - (i) maximum building height; and
 - (ii) setbacks, required and provided.

Site/Landscape and Elevation Plans shall include such other information as may be necessary to illustrate substantial conformance to this planned development.

16. The Applicant acknowledges that it is in the public interest to design, construct and maintain the project in a manner which promotes, enables and maximizes universal access throughout the property. Plans for all buildings and improvements on the property shall be reviewed and approved by the Mayor's Office for People with Disabilities (M.O.P.D.) to ensure compliance with all applicable laws and regulations related to

access for persons with disabilities and to promote the highest standard of accessibility. No approvals shall be granted pursuant to Section 11.11-3(b) of the Chicago Zoning Ordinance until the Director of M.O.P.D. has approved detailed construction drawings for each building or improvement.

17. The Applicant acknowledges that it is in the public interest to design, construct and maintain all buildings in a manner which promotes and maximizes the conservation of energy resources. The Applicant shall use best and reasonable efforts to design, construct and maintain all buildings located within this planned development in an energy efficient manner, generally consistent with the most current energy efficiency standards published by the American Society of Heating, Refrigerating and Air-Conditioning Engineering ("A.S.H.R.A.E.") and the Illuminating Engineering Society ("I.E.S."). Copies of these standards may be obtained from the Department of Planning and Development.
18. Unless substantial construction of the University of Chicago Coiner Children's Hospital proposed within Subarea A has commenced within six (6) years following adoption of this planned development amendment, and unless completion is thereafter diligently pursued, then this planned development as it pertains to the Children's Hospital in Subarea A shall expire; the zoning shall automatically revert to the planned development existing prior to the amendment, except with respect to the new parcels added to the planned development Subarea A, which shall revert to the prior R5 General Residence District classifications.

(As Amended)
(Application Number 13286)

Be It Ordained by the City Council of the City of Chicago:

SECTION 1. That the Chicago Zoning Ordinance be amended by changing all the current Business Planned Development Number 669 symbols and indications as shown on Map Number 2-E in the area bounded by:

a line 80.39 feet north of East Balbo Drive; South Michigan Avenue; East Balbo Drive; and the alley next west of South Michigan Avenue,

to those of Residential-Business Planned Development Number 669, as amended, which is hereby established in the area described above, subject to such use and bulk regulations as are set forth in the Plan of Development attached hereto and to no others.

SECTION 2. This ordinance shall be in force and effect from and after its passage and due publication.

Plan of Development Statements referred to in this ordinance read as follows:

*Residential-Business Planned Development
Number 669, As Amended.*

Plan Of Development Statements.

1. The area delineated herein as Residential-Business Planned Development Number 669, as amended (the "Planned Development") consists of approximately thirteen thousand eight hundred ninety (13,890) square feet of property which is depicted on the attached Planned Development Boundary and Property Line Map (the "Property") and is owned or controlled by the applicant, Maharishi Royal Residences, L.L.C.
2. The applicant shall obtain all necessary official reviews, approvals or permits. Any dedication or vacation of streets, alleys or easements or any adjustments of rights-of-way shall require a separate submittal on behalf of the applicant and approval by the City Council.
3. The requirements, obligations and conditions contained within this Planned Development shall be binding upon the applicant, its successors and assigns and, if different than the applicant, the legal title holders and any ground lessors. All rights granted hereunder to the applicant shall inure to the benefit of the applicant's successors and assigns (including any condominium association which is formed) and, if different than the applicant, the legal title holder and any ground lessors. Furthermore, pursuant to the requirements of Section 11.11-1 of the Chicago Zoning Ordinance, the Property, at the time applications for amendments, modifications or changes (administrative, legislative or otherwise) to this Planned Development are made, shall be under single ownership or under single designated control. Single designated control for purposes of this paragraph shall mean that any application to the City for any amendment

to this Planned Development or any other modification or change thereto (administrative, legislative or otherwise) shall be made or authorized by the applicant.

4. This Plan of Development consists of fourteen (14) statements; a Bulk Regulations and Data Table; an Existing Zoning Map; a Planned Development Boundary and Property Line Map; an Existing Land-Use Map; a Site/Landscape Plan; Building Elevations and a Presidential Suite -- 9th Floor Drawing prepared by Lucien Lagrange and Associates and dated July 12, 2001. These and no other zoning controls shall apply to the Property. This Planned Development conforms to the intent and purpose of the Chicago Zoning Ordinance, Title 17 of the Municipal Code of Chicago, and all requirements thereof, and satisfies the established criteria for approval as a planned development.
5. The following uses are permitted in the Planned Development: residential uses, including residential use at the ground floor and live/work uses, defined to mean spaces in which both residential and business uses coexist; retail and related uses, including restaurants which may serve liquor in conjunction with the serving of food as the principal activity and may include live entertainment and dancing; taverns; telecommunications and broadcast equipment, structures and installations including parabolic dishes, provided that such equipment, structures or installations are appropriately screened; and all other permitted and special uses in the B6-7 Restricted Central Business District.
6. Business identification signs shall be permitted on the ground floor only within the Planned Development subject to the review and approval of the Department of Planning and Development. Temporary signs such as construction and marketing signs also shall be permitted subject to the review and approval of the Department of Planning and Development. No advertising signs shall be permitted within the Planned Development.
7. Off-street parking and loading facilities shall be provided in accordance with the provisions of this Planned Development subject to the review and approval of the Departments of Transportation and Planning and Development. Any service drive or other ingress or egress shall be adequately designed and paved, in accordance with the regulations of the Department of Transportation in effect at the time of construction and in compliance with the Municipal Code of the City of Chicago, to provide ingress and egress for motor vehicles, including emergency vehicles. There shall be no parking within such paved areas. Ingress and egress shall be subject to the review and approval of the Departments of Transportation and Planning and Development. Notwithstanding the provisions of Section

10-20-435 of the Municipal Code of Chicago, the off-street parking and loading facilities required pursuant to this Planned Development shall be accessed via the eighteen (18) foot north/south public alley abutting the Property to the west.

8. In addition to the maximum heights of the buildings and any appurtenance attached thereto prescribed in this Planned Development, the height of any improvements shall also be subject to height limitations as approved by the Federal Aviation Administration.
9. The improvements on the Property shall be designed, constructed and maintained in substantial conformance with this Planned Development. Landscaping shall be installed in accordance with the Landscape Plan and maintained in accordance with the parkway tree planting provisions of the Chicago Zoning Ordinance.
10. For purposes of maximum floor area ratio (F.A.R.) calculations, the definitions in the Chicago Zoning Ordinance shall apply; provided, however, that in addition to the other exclusions from Floor Area for purposes of determining F.A.R. permitted by the Chicago Zoning Ordinance, all floor area devoted to mechanical equipment in excess of five thousand (5,000) square feet in a single location, regardless of placement in the building, shall be excluded when determining F.A.R.
11. The terms, conditions and exhibits of this Planned Development may be modified administratively by the Commissioner of the Department of Planning and Development upon the request of the applicant and after a determination by the Commissioner that such a modification is minor, appropriate and consistent with the nature of the development of the Property contemplated herein and will not result in increasing the maximum floor area ratio for the total net site area or the maximum number of units for the total net site area established in this Planned Development. Any such modification shall be deemed a minor change in the Planned Development as contemplated by Section 11.11-3(c) of the Chicago Zoning Ordinance.
12. The applicant acknowledges that it is in the public interest to design, construct and maintain all buildings in a manner which promotes and maximizes the conservation of energy resources. The applicant shall use best and reasonable efforts to design, construct and maintain all buildings located within this Planned Development in an energy efficient manner, generally consistent with the most current energy efficiency standards published by the American Society of Heating, Refrigeration and Air-Conditioning Engineers ("A.S.H.R.A.E.") and the Illuminating Engineering

Society ("I.E.S.").

13. Unless substantial construction of the improvements contemplated for the Property by this Planned Development has commenced within six (6) years of the effective date hereof and unless the completion of those improvements is thereafter diligently pursued, then this Planned Development shall expire and the zoning of the Property shall automatically revert to the B6-7 Restricted Central Business District classification. The six (6) year period may be extended for up to one (1) additional year if, before expiration, the Commissioner of the Department of Planning and Development determines that good cause for an extension is shown.
14. The Blackstone Hotel has been designated a Chicago landmark by the City Council. In order to protect the historic and architectural character of this building, any proposed work on the building is subject to the review of the Commission on Chicago Landmarks, in accordance with the Chicago Landmarks Ordinance. Furthermore, a restrictive covenant governing the Crystal Ballroom will be filed at the same time the formal condominium documents governing the residential building are recorded with the Cook County Recorder of Deeds. This covenant will require future owners of the residential unit which will encompass the Crystal Ballroom to preserve the historically significant features of the Crystal Ballroom and comply with all provisions of the Chicago Landmark Ordinance. Also, a restrictive covenant governing the presidential suite will be filed at the same time the formal condominium documents governing the residential building are recorded with the Cook County Recorder of Deeds. This covenant will require future owners of the residential unit which will encompass the presidential suite to preserve the historically significant features of this space (to be defined in the restrictive covenant) and comply with all provisions of the Chicago Landmark Ordinance. Upon approval of this application by the Chicago City Council, the applicant will be required to execute and record two (2) memorandums -- one (1) for the Crystal Ballroom and one (1) for the presidential suite -- with the Cook County Recorder of Deeds against the current legal description of the Property which will contain the agreed upon terms of the above restrictive covenants, absent the legal descriptions for the units that will contain the Crystal Ballroom and the presidential suite. The memorandum will state that the restrictive covenants will be recorded with the Cook County Recorder of Deeds with the final legal descriptions at the time the formal condominium documents are recorded and such covenants will supersede and effectively void the memorandums. Either covenant can be voided by the applicant if a decision is made to not proceed with the conversion of the hotel to residential use, pursuant to the terms of the memorandum.

The three (3) rooms which constitute the presidential suite are depicted on the Presidential Suite -- 9th Floor Drawing. Notwithstanding the foregoing, given that the presidential suite is not governed by the landmark designation of the Blackstone Hotel approved by the City Council on April 29, 1998, certain modifications to the presidential suite shall be permitted, which include:

- (a) removal of the existing dropped ceiling and mechanical elements contained therein and recreation of the ceiling to its historic condition;
- (b) creation of an operable fireplace by adding a ventless firebox and restoring the fireplace to its historic condition using the original materials (which include the mantle and surround);
- (c) removal of window coverings and other finishes, change carpets and refinish floors, and utilize new paint colors;
- (d) modification of existing mechanical systems to ensure Code compliance while restoring damaged areas to their historic condition;
- (e) add bookcases and other millwork in such a manner that if removed in the future, the essential form and integrity of the historic property would be unimpaired;
- (f) provision of an additional door opening to the north wall of the dining room. The proposed location of the original and proposed doors is depicted on the Presidential Suite -- 9th Floor Drawing; and
- (g) changing of door leafs (while leaving frames untouched) to match other doors located within the unit. The hardware used on the new doors will match that used on the original doors.

The applicant shall not demolish the barber shop, the art hall and the upper floor corridors (except as noted below), in addition to the spaces protected by the landmark designation of the Blackstone Hotel, dated April 29, 1998 until such time as the applicant meets the condominium pre-sales requirements mandated by its lender in order to release construction financing for the conversion of the hotel to luxury condominiums and the proper demolition and building permits have been obtained from the Chicago Building Department. Demolition of the penthouse and the

original fourteenth (14th) floor as noted on the drawings dated June 1, 2001 and attached to the demolition permit issued by the City of Chicago are exempt from this requirement.

(4) The penalties set forth in 13-32-032 shall apply if the violation in subsection (1)(f) involves a licensee who has knowingly allowed any other person to use the licensee's name or license identification on a building permit application when such licensee will not be performing the work which the permit application states he will perform.

(a) No person licensed under this chapter shall knowingly allow any other person to use the licensee's name or license identification on a building permit application if such licensee will not be performing the work which the permit application states

he will perform unless the permit application has been amended to (i) remove the licensee's name or license identification; and (ii) insert the name of the licensee who will perform the work.

(b) Any home repair licensee who violates this section shall be assessed a fine of \$1,000 for the first offense; a fine of \$1,500 and a ninety day license suspension for the second offense; and a fine of \$2,000 and license revocation for the third offense.

SECTION 2. Section 4-332-110 of the Municipal Code of Chicago is hereby amended by inserting the language in italics, as follows:

4-332-110 License -- Suspension Or Revocation Conditions.

(1) The board shall revoke or suspend a license after a hearing before the board when the findings show one or more of the following:

- (b) that the licensee willfully violated any plumbing ordinance or resolution of the City of Chicago, or any law of this state regulating plumbing or plumbers;

(4) The penalties set forth in 13-32-032 shall apply if the violation in subsection (1)(f) involves a licensee who has knowingly allowed any other person to use the licensee's name or license identification on a building permit application when such licensee will not be performing the work which the permit application states he will perform.
