5. Provide advisory services as needed for optimizing use of the O.C.L.C. database by the second Party.
6. Collect from the Second Party funds to pay for use of O.C.L.C. database services used by the Second Party and transfer these funds to O.C.L.C.
7. Provide monthly or on demand to the Second Party reports of database use and financial account status of the Second Party.

4. Add location symbols and holdings data for all materials being currently acquired for bibliographic records that already exist in the database whether used for current cataloging or retrospective conversion.
5. Permit the Illinois State Library to obtain and utilize a copy of its O.C.L.C./M.A.R.C. records on the Illinois State Library multi-institution magnetic subscription tape for use in the development of services or projects which will benefit the Illinois database participants. 10. Fill all interlibrary loan requests for monographs at no charge to Illinet libraries.

Part C.

Conditions:

1. The term of this Agreement shall be from _____, 1991 until June 30, 1991, with the option to terminate said Agreement earlier upon sixty (60) days written notice by either party. This Agreement may be renewed annually upon the execution by both parties of a renewal Agreement.
2. The Second Party will pay the Illinois State Library charges for the various services provided for in this Agreement in accordance with Appendix A-91, Charges for O.C.L.C. Services, including the following:
 - (a) The initial charge for the online service will be current cooperative O.C.L.C. rate, for each first-time-use of the system, for the period through June 30, 1991. "First-time-use" is defined as the initial use of the O.C.L.C. database for cataloging production where the record is not input by the cataloging library. Such first-time-use charge shall include that item on Appendix A-91, attached hereto and made a part hereof, listed as first-time-use.
 - (b) Billings will be rendered by the Illinois State Library monthly, or upon a subscription basis quarterly in advance, semi-annually in advance, or annually in advance, in accordance with the schedules designated as Appendix A-91. All monthly payments will be due sixty (60) days from billing date. Under the subscription method of quarterly, semi-annual, or annual in advance payment options, the billings for such period will be made initially upon estimates of the number of basic first-time-uses of the Second Party taken from the best evidence available as to what the prospective experience may be, provided that when the subscription amounts shall have credited to them first-time-use charges sufficient in the aggregate to equal any such advance, then the Illinois State Library will institute monthly billings until such time as the Second Party shall elect to enter a new subscription for O.C.L.C. Service.
3. If the Second Party fails to pay any bill so that the payment has not been received by the Illinois State Library within sixty (60)

days of the original billing date, then the Second Party shall pay a surcharge equal to one and one-half (1-1/2) percent per month or fraction thereof on all such amounts which are sixty (60) days or more delinquent.

4. If payment has not been received by the fifteenth (15th) day of the month in which an amount becomes sixty (60) days past due, or at any time thereafter if the payment has not been received, the Illinois State Library may suspend services at its option upon giving to the Second Party fifteen (15) days written notice.
5. In the event that services under this Agreement are suspended they shall not be restored until all outstanding charges have been paid in full and the Second Party has demonstrated both the ability and intention to keep its account current in the future.
6. If the Second Party fails to pay any bill including surcharge so that the payment has not been received by the Illinois State Library within one hundred eighty (180) days of the original billing date, services provided under this Agreement shall be terminated without further notice to the Second Party.
7. If services are terminated by reason of late payment, non-payment or other substantial non-compliance with this Agreement on the part of the Second Party as determined by the Illinois State Library, then the Second Party shall reimburse the Illinois State Library for all costs incurred in terminating services.
8. In the event that services under this Agreement are terminated, for any reason, the services shall not be restored under this Agreement, and this Agreement cannot be renewed or extended, and services can only be restored through the creation of a new Agreement.
9. In order to maintain services, develop new services and afford fair and even handling charges for the actual uses to which the system is put, the right to determine the additional or substitute charges, from time to time, if any, will be exercised upon consultation with various library regions using O.C.L.C. services; however, final determination will be made by O.C.L.C.
10. Telecommunications costs shall be subject to change based on configuration of telecommunications lines by the Illinois State Library and O.C.L.C. and upon changes in rate charges to O.C.L.C. or the Illinois State Library by telecommunications service suppliers.

11. The Second Party shall abide by the Federal Civil Rights Act of 1964, the Federal Rehabilitation Act of 1973, the Illinois Human Rights Act, and all other federal and state laws, regulations or orders which prohibit discrimination because of race, color, religion, sex, national origin, ancestry, age, marital status, or physical or mental handicap.
12. This Agreement is not subject to the State Indemnification Act.
13. The Secretary of State and the State of Illinois shall not be liable under or by reason of this Agreement for the payment of any compensation, award, or damages in connection with the Second Party performing its obligations under this Agreement or for injury or damages occurring to any of the Second Party's employees as the result of any acts, omissions, negligence, or otherwise while in the process of performing the obligations required by this Agreement or in connection with any other employer-employee relationship between the Second Party and its subcontractors or employees.
14. This Agreement shall be governed by, subject to, and construed according to the laws of the State of Illinois.
15. This Agreement is executed in four (4) signed counterparts, each of which is and shall constitute an original hereof.
16. The Second Party certifies that its has not been convicted of bribery or attempting to bribe an officer or employee of the State of Illinois, nor has the Second Party made an admission of guilt of such conduct which is a matter of record, nor has an official, agent, or employee of the Second Party been so convicted or made such admission of bribery on behalf of the Second Party and pursuant to the direction or authorization of an official of the Second Party.
17. The Second Party certifies that it is neither an elected official of the State of Illinois nor employed in any office of state government, nor the spouse or minor child of such person.
18. Each party hereto is an independent contractor with respect to the other, and no franchise or agency relationship between the parties is intended. Neither party shall have the right or authority to commit or bind the other to any contract or financial obligation except as specifically authorized in writing. Nothing in this Agreement shall be deemed to create fiduciary obligations by either party to the other.

19. This Agreement may not be assigned by the Second Party, in whole or in part, without the express, prior, written consent of the Illinois State Library.
20. Neither the Illinois State Library nor O.C.L.C. makes any express or implied representations or warranties with respect to the O.C.L.C. system, the O.C.L.C. Online Union Catalog or any processes, products or services now or hereafter provided in this Agreement or future Agreements. All other warranties, including the warranties of merchantability and fitness for a particular use are hereby disclaimed. The Illinois State Library and O.C.L.C. shall not be liable for incidental or consequential damages, even if advised of the possibility thereof and regardless of the form of action, nor shall it be liable for exemplary damages or lost revenues. In the event that the exclusivity or limitation of liability or remedy set forth above is held to be unenforceable for any reason, then O.C.L.C.'s total liability to the Illinois State Library or the Second Party in respect of any claim, regardless of the form of action, shall not exceed the value of all transactions under this Agreement with the claimant for three (3) months preceding the incident giving rise to such claim.
21. O.C.L.C. shall exert its reasonable best efforts to make Online Processes available between the hours of 6:00 A.M. and 10:00 P.M., Dublin, Ohio local time Monday through Friday, and between the hours of 8:00 A.M. and 8:00 P.M., Dublin, Ohio local time on Saturday, except holidays observed by O.C.L.C. (and the day before or after when such holidays fall on weekends, a schedule for which will be furnished to the Illinois State Library at least six (6) months in advance). In any event, O.C.L.C. agrees that during any time that Online Processes are available to general members accessing the System through an O.C.L.C.-Affiliated Network other than the Illinois State Library such processes shall be available to general members accessing the System through the Illinois State Library. O.C.L.C. reserves the right to suspend System availability for required repair or maintenance, and where periods of downtime occur as a result of scheduled maintenance functions, O.C.L.C. shall provide the Illinois State Library with prior notice thereof. O.C.L.C. acknowledges the interest of the Illinois State Library and the Second Party in the extension of the hours of its operation, and O.C.L.C. will inform the Illinois State Library of any plans for extending hours when developed. O.C.L.C. shall attempt to maintain an average system response time of eight (8) seconds or better during the time the O.C.L.C. System is available, and to maintain an average system availability factor of ninety-five

percent (95%) or better. However, O.C.L.C. cannot commit to the attainment of this or other response times or system availability factors. O.C.L.C. will, however, furnish the Illinois State Library a weekly System Availability and Response Report and will issue explanations of system response time of more than an average of eight (8) seconds in any week or system availability of less than ninety-five percent (95%) in any week. For purposes of this paragraph, the term "average system response time" shall mean the cumulative average response time for all commands as reported weekly by libraries participating in the O.C.L.C. monitoring program in place at the effective date of this Agreement, or if such monitoring program is abandoned, then by a reasonably equivalent means of making such determination. The term "average system availability" shall mean the combined average system availability as reported by libraries in the aforesaid monitoring program, or if hereafter abandoned, then by a reasonably equivalent means of making such determination.

22. This Agreement is the final, complete and exclusive statement of the Agreement of the parties hereto. No provision of the Agreement may be changed, modified, or supplemented except by a writing signed by both parties hereto, unless otherwise provided for herein.

Part D.

Terms And Conditions Required For Inclusion In Network-General Member Agreements:

Terms which are defined in the Agreement between the Illinois State Library and O.C.L.C., the receipt of which is hereby acknowledged by the Second Party, shall have the same meanings when used in this Part D.

1. O.C.L.C. Membership.

The Second Party understands and agrees that by executing this Agreement, it will become a general member of O.C.L.C. (hereinafter "Member") as provided in Article IV of the Code of Regulations of O.C.L.C. Under this Agreement, O.C.L.C. processes will be used by the Member, and O.C.L.C. products and services will be acquired by the Member, on behalf of the following libraries owned or operated by it:

(List libraries or state "All" or, if the Member is a non-library participant, state "None")

(Please attach additional pages as necessary)

2. O.C.L.C. System Uses.

The Second Party agrees that it will limit its uses of the O.C.L.C. System to those uses within authorizations received by the Second Party. Authorized System uses will be as defined in documents available to the Second Party from the Illinois State Library from time to time, and authorizations will be on terms and conditions described in such separate documents and/or in supplementary agreements to be submitted for the Second Party's consideration.

3. Standards.

When accessing the O.C.L.C. System, the Second Party shall abide by standards set forth in Online System Bibliographic Input Standards, Third Edition (1985) (receipt of a copy of which by the Second Party is hereby acknowledged), as the same may be amended from time to time, and/or by other applicable standards adopted by O.C.L.C. regarding use and operation of the O.C.L.C. System and Online Processes.

4. Current Cataloging.

A. During the term of this Agreement, the Second Party agrees: (i) to search the O.C.L.C. Online Union Catalog in connection with all of its Current Cataloging, determine those cases in which a cataloging entry for works being cataloged is not available in said Union Catalog and in such cases create the records and insert them into the said Union Catalog by means of Shared Cataloging; and (ii) to set, by means of Shared Cataloging, its O.C.L.C.-assigned holdings symbol to all bibliographic records in the O.C.L.C. Online Union Catalog for the materials being cataloged by the Second

Party in the course of its Current Cataloging. Provided, however, that if the Second Party has applied and received approval for tapeloading status by the Illinois State Library and O.C.L.C., then any part of its Current Cataloging requirement as set forth above, not met by means of Shared Cataloging, may be met by means of Tapeloading.

- B. Provided that the Second Party's obligations under this Section (D)(4) are met, nothing herein shall prevent the Second Party from also carrying out cataloging activities by any other means it may elect. The Second Party agrees at all times during the term of this Agreement to maintain its holdings information in the O.C.L.C. Online Union Catalog in an accurate and up-to-date condition, and to inform O.C.L.C. promptly of any errors known to it in catalog entries in the said Union Catalog which the Second Party is unable to correct online.

5. Non-Member Services.

The Second Party agrees that it will not access the O.C.L.C. System to perform services or provide assistance for or on behalf of any non-O.C.L.C. member except with the prior written consent of O.C.L.C.; provided, however, that such use for non-members is permitted (a) where it generates an interlibrary loan request on the O.C.L.C. Interlibrary Loan Subsystem and (b) where an O.C.L.C.-authorized processing center participant carries out Current Cataloging on behalf of its client users. The Second Party is an authorized processing center participant only if the Illinois State Library and O.C.L.C. have so agreed in writing.

6. Site Preparation.

The Second Party will be responsible for site preparation for O.C.L.C. Terminals in accordance with O.C.L.C. specifications to be furnished by the Illinois State Library.

7. Use And Transfer Of Records.

The use and transfer by Members of O.C.L.C.-Derived Records (as defined below) received from O.C.L.C. or otherwise obtained

during the term of this or a preceding agreement with the Network or O.C.L.C., and supplied by O.C.L.C. on O.C.L.C./M.A.R.C. Subscription tapes, Local Database Creation tapes or MICROCON Program output tapes, including derivative works made from such records, will be in accordance with the latest revision received from time to time of the document *Guidelines for the Use and Transfer of O.C.L.C.-Derived Records*, a copy of the current version of which is attached hereto as Exhibit 3. However, if, within sixty (60) days after a Member's receipt of a new revision of that document, the institution or other entity which has contracted on behalf of the Member gives the Network notice of termination of its agreement, then the new revision of the document will not replace the existing version as to such entity and the Member. As to O.C.L.C.-Derived Records other than those supplied by O.C.L.C. on O.C.L.C./M.A.R.C. Subscription Tapes, Local Database Creation tapes or MICROCON Program output tapes, the Member will not permit online access to the records or derivative works except to its end user patrons, nor will it transfer copies of such records or derivative works in machine-readable form to any entity, except as O.C.L.C. and the contracting entity may otherwise agree in writing. The Member's rights include non-exclusive licenses permitting the Members to use, copy, display and distribute the catalog records and derivative works referred to above under all copyrights owned or controlled by O.C.L.C. and by the Network. In the event of any breach of this provision by a Member, its liabilities will be limited to those arising in the contract, and will not include liabilities arising under the copyright laws of the United States or other jurisdictions. The rights and obligations of Members and their contracting entities under this provision shall survive any expiration or termination of their agreements with the Network. As used herein, "O.C.L.C.-Derived Records" means, as to any Member, all records stored in the O.C.L.C. Online Union Catalog other than (i) records designated in such catalog as original cataloging by the Member, and (ii) records to which the Member's holding symbol has been attached by Taping.

If a nonmember organization from which O.C.L.C. acquires bibliographic records for addition to the O.C.L.C. Online Union Catalog informs O.C.L.C. that records it thereafter furnishes to O.C.L.C. will be subject to usage or transfer restrictions beyond or in addition to those applicable under the preceding paragraph, and if O.C.L.C. nevertheless elects to accept such records for addition to the O.C.L.C. database, it and/or the Network will so notify all Members, with full details, after which, each Member's right to access, use and transfer such

records will be subject to the identified usage and transfer restrictions. If, at any time during the sixty (60) day period after receipt of the notification of such usage and/or transfer restrictions, a contracting institution or other entity gives the Network notice of termination of its agreement, then the Member(s) identified in its agreement with the Network will be under no further obligation to make cataloging use of any of the records which are subject to such restrictions.

8. Attachments To And Use Of The O.C.L.C. System.

- A. The Second Party will not use computer facilities or software programs with the O.C.L.C. System which would have adverse effect thereon, without the written consent of O.C.L.C. and the Illinois State Library.
- B. The Second Party will not cause or permit any equipment or device to be directly or indirectly attached or linked to the O.C.L.C. telecommunication system, except equipment and devices permitted under the policy statement attached hereto as Exhibit 1 (as the same may be amended from time to time on ninety (90) days prior written notice by O.C.L.C.).
- C. The Second Party agrees that it will not, without O.C.L.C.'s prior written consent, obtain catalog records in machine-readable form, by way of a terminal device or other device or means for accessing the O.C.L.C. System, when the Second Party's O.C.L.C.-assigned holdings symbol has not first been attached to such records in the O.C.L.C. Online Union Catalog, except in the following cases:
 - (i) Records required by the Second Party to carry out Current Cataloging or authorized retrospective conversion activities hereunder may be stored temporarily, prior to attachment of the Second Party's holding symbol, as required by the Second Party's established work flow procedures; but no other use or transfer of the stored records shall be made (under Section (D) (7) above or otherwise) prior to attachment of said holdings symbol.

- (ii) Records may be obtained and used by the Second Party in connection with its current acquisition of library materials provided (a) that the records are not transferred or made available to third parties other than the publishers or suppliers to whom the Second Party's purchase orders for such new materials are issued; and (b) that the Second Party's O.C.L.C.-assigned holdings symbol is attached to all such records in the O.C.L.C. Online Union Catalog reasonably promptly after receipt by the Second Party of the newly acquired materials.

9. Responsible Use.

The Second Party agrees to act in the use of the O.C.L.C. System and the Online Processes with good faith to all other O.C.L.C. members, doing nothing to waste, diminish or cause harm to their shared beneficial interest in O.C.L.C. The Second Party agrees to act cooperatively with all other members in the use of the O.C.L.C. System and to avoid practices not authorized by this Agreement which have the effect of shifting the burden of payment for O.C.L.C. products, processes and services away from those receiving the same, or manipulating use of the O.C.L.C. System in ways which unreasonably and adversely affect its performance. The following practices are examples of violations of the duty of responsible use:

- (i) Creating duplicate records in the O.C.L.C. Online Catalog, whether as a result of failing to search fully before doing original input, in order to reflect local bibliographic information, in order to avoid the First Time update charges, or otherwise.
- (ii) Use of the save file as an electronic mail system.
- (iii) Doing Current Cataloging or reclassification cataloging under a retrospective conversion authorization.
- (iv) Placing multiple interlibrary loan requests on one interlibrary loan work form.

The Second Party agrees to comply with any code of responsible use adopted by O.C.L.C. for O.C.L.C. members upon the recommendation of the O.C.L.C. Users Council, the version of

such code of responsible use in effect at the effective date hereof being attached hereto as Exhibit 2. In the event of any conflict between any such code and this Agreement, the provisions of this Agreement will govern.

10. Grant Of License And Infringement.

The Second Party hereby grants to O.C.L.C., its Users and designees the irrevocable, non-exclusive, royalty-free, sublicenseable, world-wide right to use, copy, display, publish, prepare derivative works from and distribute all bibliographic records, library holdings and other information furnished to O.C.L.C. during the term of this Agreement by the Second Party or any entity acting on its behalf, under any copyright, patent, secrecy or other proprietary right therein owned or controlled by the Second Party, for all purposes consistent with the corporate purposes set out in O.C.L.C.'s Articles of Incorporation as hereafter amended from time to time. The Second Party warrants that no use, reproduction or transfer by O.C.L.C. or its designees of such bibliographic, holdings or other information will infringe any copyright, patent, trademark, secret or other proprietary rights owned or controlled by third parties, and the Second Party agrees to defend, indemnify and hold the Illinois State Library and O.C.L.C. harmless from claims to the contrary.

11. Termination.

This Agreement may be terminated by the Illinois State Library, and/or the Second Party's status in O.C.L.C. under this Agreement may be terminated by O.C.L.C., if the Second Party no longer meets the definition of a General Member, or fails to remedy any violation, or diligently take necessary corrective action to remedy a violation of its obligations under this Agreement within thirty (30) days after written notice thereof, which corrective action will enable the Second Party to correct the violation within a reasonable time; provided, however, that if the Second Party contests the determination by the Illinois State Library or O.C.L.C., upon which the aforesaid termination under this Section (D) (12) was based, then the Second Party will have the right during the sixty (60) day period after such termination to commence an arbitration of all relevant issues in accordance with the rules then obtaining of the American Arbitration Association and judgment on any award therein may be entered in any court having jurisdiction. In addition, all

provisions of this Agreement dealing with the supply of O.C.L.C. processes, products and services will terminate automatically if the Agreement between the Illinois State Library and O.C.L.C., under which the Illinois State Library is authorized to make O.C.L.C. processes, products and services available to the Second Party, is terminated for any reason; provided, however, that the Second Party's rights and obligations under Section (D) (7) hereof shall survive any termination or expiration of the Agreement between the Illinois State Library and O.C.L.C.

12. Third Party Beneficiary.

It is agreed that O.C.L.C. is a third-party beneficiary of the foregoing provisions, entitled to seek enforcement thereof in its own name.

In Witness Whereof, The respective parties hereto have caused this Agreement to be executed the day and year first written above.

Exhibits 1, 2 and 3 attached to this Agreement read as follows:

Exhibit 1.

*O.C.L.C. POLICY FOR ATTACHMENTS TO THE
O.C.L.C. TELECOMMUNICATIONS SYSTEM.*

Except with the prior written consent of O.C.L.C., no equipment or device may be directly or indirectly attached, linked or used with the O.C.L.C. telecommunication system except:

1. Terminal devices furnished or approved in writing by O.C.L.C. expressly for use with said System (hereinafter "Terminals").
2. Any equipment or device which the Second Party may elect, in its sole discretion, to attach to Terminals.

Notwithstanding paragraph numbered "2" above, no equipment or device may be attached (i) to the telecommunication line connecting O.C.L.C. to the site of the said Terminal(s), or (ii) to the modem at the termination point of said telecommunication line at the site of a Terminal, or (iii) to any interconnecting cables between modem and Terminal or between Terminals. In addition, no equipment or devices except other Terminals may be attached directly or indirectly to the next-CRT-port on Terminals, or to any of the circuitry associated with such port.

Attachment of any equipment or device to Terminals under paragraph numbered "2" above shall be at the risk and expense of the Second Party. O.C.L.C. does not warrant or provide any assurance that such equipment or device will function properly or as desired, or that it will not cause harm to the Terminals to which attached, unless the equipment or device is furnished or approved in writing by O.C.L.C.

*Exhibit 2.**Code Of Responsible Use**For**O.C.L.C. Participating Libraries.*

O.C.L.C. is a cooperative library service. Participants accept a responsibility to use efficiently the O.C.L.C. systems as well as a responsibility to share resources and services. Use of the system should benefit the membership as a whole and support the mission and goals of each institution.

All participants will:

1. Provide basic and continuing training and education for staff to enable them to use the system effectively and responsibly.
2. Avoid creating duplicate records.
3. Improve the quality of the Online Union Catalog by reporting errors promptly.
4. Input current cataloging promptly to promote resource sharing and collection development.
5. Input original cataloging according to current national standards and practices as promulgated in O.C.L.C. Bibliographic Input Standards.
6. Enter current cataloging into the O.C.L.C. Online Union Catalog using the appropriate MARC formats.
7. Limit use of O.C.L.C. Online Union Catalog subsystems to O.C.L.C.-authorized institutions.
8. Use the information from the Online Union Catalog only for purposes which do not violate cooperative use of the O.C.L.C. systems among participants.

*About The Code.***Background.**

The O.C.L.C. Users Council has an ongoing interest in the ethical concerns involved with responsible use of the Online Union Catalog. It is recognized that behaviors of members and users should be addressed in a broad multi-faceted system. Contract language can address some questions. Programming for sophisticated monitoring of users and further programming control of allowable practices can be used to address other questions of responsible use. The Code of Responsible Use is intended to raise the consciousness of members and assert the need for self-induced positive behavior vis-à-vis the shared database.

Concern for ethical or responsible behavior obviously extends beyond any one document. Codes are simply rules of conduct which encourage ethical behavior in particular settings. Users and managers of the information in the Online Union Catalog must share a concern for the conduct of each and every use which affects the shared resource. This code is not intended to cover each and every misuse of the system. It does address questions which seem to be most important in relation to the spirit of cooperation in which all O.C.L.C. member libraries seek to operate. The primary responsibility of every member is to accept the basic thesis that the O.C.L.C. On line Union Catalog is a cooperative, shared asset which must be protected.

Discussion Of Principles.

The focus of the eight principles in the Code of Responsible Use is the overall quality of the Online Union Catalog. Regardless of the perspective--from the system manager's concern with functional aspects of the system, to the cataloger's concern with adherence to national bibliographic description standards, to the searcher's need for consistent and efficient retrieval -- a successful system rests on quality.

The concern for quality and the effort to focus on the system as a whole require the maintenance of a strong link between acceptable individual behavior and institutional expectations. This strong link can be built and maintained only if everyone understands the rules and assumes the responsibility to question practices which violate them. Ignorance of future consequences is not an excuse for actions taken which violate the rules.

Valid exceptions to and qualifications of these standards may be identified at member institutions. For example, occasional informal consultation for non-member libraries using the Online Union Catalog enhances the spirit of local cooperation. Regular support through the provision of Online Union Catalog information and subsystem services to an unauthorized user does

violate the spirit of member cooperation. It is assumed that institutions will, through their networks or directly with O.C.L.C., raise and reflect on uses which might diverge from any one point in the code. It is also assumed that any divergence from principles will be examined from a point of view which includes future consequences to the quality of the database as well as potential economic consequences to members.

Knowledge of what the O.C.L.C. system should be able to do for an institution and what any user can do on the system is found in the body of information which begins with documentation supplied by O.C.L.C. and which is enhanced and communicated by networks to local O.C.L.C. members.

O.C.L.C. engineers and management design the database with full knowledge of what the various components of the system should be doing when providing services. No one ever knows in advance the full uses to which these systems can be put. A few users have found advantageous situations and exploited them with a casual attitude which is contrary to a cooperative spirit. Responsibility for the total system rests with users who understand the limits which a cooperative enterprise places on individual initiative. There are real difficulties to be met and overcome when individual institutions try to cope with the conflicts which may exist between institutional goals and cooperative goals. Education and communication are the primary tools for coping with conflict in the future.

Exhibit 3.

Guidelines For The Use And Transfer Of O.C.L.C.-Derived Records.

Revision Of November 16, 1987.

I. Guidelines. (See Definitions In Part II Below)

1. Each member and nonmember library may use records without restriction, and may transfer records of its own holdings without restriction to other libraries.

2. In addition to transfers to libraries, each member and nonmember library may transfer records of its own holdings without restriction, to (a) member networks, (b) state and multi-state library agencies and (c) all other noncommercial firms.
 - a. Member networks may produce and transfer to any member library, copies on magnetic tape of records used or inserted into the O.C.L.C. database by the library. Each member network also may process records of the holdings of any member or nonmember library which has employed and agreed to pay it for that service, provided the member network has first signed either an individual agreement with the library, or a general agreement with O.C.L.C., containing measures agreed upon by O.C.L.C. and the member network for protection of the records it has been employed to process. Any other use and transfer of records by member networks will be as provided in separate understandings with O.C.L.C.
 - b. The use and transfer of records by library systems or projects operated by or under the aegis of one or more state or national library agencies will be as provided in separate understandings with O.C.L.C. Such understandings may include (i) arrangements to incorporate state or national bibliographic databases into the O.C.L.C. system, (ii) paid-up licenses to use records in state or national programs (e.g., by means of payments for O.C.L.C. multi-institution tapes) and/or (iii) any other understandings that will facilitate state or national programs as well as the maintenance and enhancement of the O.C.L.C. database.
 - c. The use and transfer of records by any other organizations to which transfers are made under this Guideline 2 will be as provided in separate understandings with O.C.L.C.
3. In addition, each member and nonmember library may transfer records of its own holdings to commercial firms which the library has employed and agreed to pay to process such records, provided that each commercial firm has first signed an individual agreement with the library, or O.C.L.C. has advised the library that the commercial firm has signed a general agreement with O.C.L.C., in either case containing measures agreed upon by O.C.L.C. and the commercial firm for protection of the records it has been employed to process. In addition, each member and nonmember library may make any other transfers of records to commercial firms, subject to prior written agreements with O.C.L.C. However, there is no requirements for

prior written agreements (a) for transfers made under Guideline 1 above to libraries operated by commercial firms or (b) for transfers to commercial firms by former O.C.L.C. member libraries of records of their holdings, so long as the libraries maintain no continuing user status with O.C.L.C.

4. When a nonmember organization makes bibliographic information available to O.C.L.C. which is subject to usage or transfer restrictions imposed by such nonmember organization, and O.C.L.C. nevertheless elects to accept the information for addition to the O.C.L.C. database, O.C.L.C. will notify libraries to which it makes the information available, and rights to use and transfer records based on such information will be subject to the same restrictions.
5. When transfers under Guideline 1 above are made to machine-readable union catalogs accessible by nonmember libraries, it is requested that machine-readable copies of the records of such union catalogs be submitted to O.C.L.C.. O.C.L.C., at its own expense, will have the right to add such records to its database for all uses consistent with its chartered purposes.
6. The Guidelines above apply to all uses and transfers of records except where a mutually acceptable agreement establishing broader or narrower rights is made with O.C.L.C. relating to a specific product or service.

II. Definitions.

1. The term "member library" means a general member of O.C.L.C. as defined in its Code of Regulations.
2. The term "nonmember library" means any library other than a member library.
3. A "member network" is an O.C.L.C.-affiliated regional, state or multi-state library network organization which is in contract with O.C.L.C. to provide O.C.L.C. services and products, or to assist O.C.L.C. to provide such services and products, to general members of O.C.L.C.
4. A "commercial firm" is any organization permitted, under applicable law, to operate on a for-profit basis.
5. The term "records" means bibliographic records and holdings data (including copies thereof) derived from the O.C.L.C. database, including derivative works made from such records, and either received in machine-readable form or converted by the transferee

into machine-readable form. The term also includes such records when held only in eye-readable form, in the case of proposed transfers to commercial firms; however, records do not include, as to any member or nonmember library (a) bibliographic records designated in the O.C.L.C. database as original cataloging by such member or nonmember library and (b) bibliographic records derived by such member or nonmember library from sources other than the O.C.L.C. database and to copies of which in the O.C.L.C. database its holdings symbol has been attached by tapeloading. Such excluded records are freely transferable and are not dealt with in these Guidelines. O.C.L.C.-derived records held only in eye-readable form are freely transferable except to commercial firms.

6. The terms "transfer" and "transfer of records" refer to all sales, exchanges, gifts, sharing and other transfers, and all online access except online access provided to end-user patrons of a library in authorized possession of the records.

About The Guidelines.

Background.

The O.C.L.C. Board of Trustees adopted a resolution authorizing copyright registration of the Online Union Catalog on December 15, 1982. In May, 1983, after uncertainty arose among O.C.L.C. member libraries and the regional networks about correct interpretation of the copyright action, the Board approved recommended policies for the use, transfer and sharing of records. The guiding principle at that time was that General Members (i.e., libraries) could make any uses they wished of records of their own holdings and, further, could share records with other General Members of O.C.L.C. After further clarification appeared desirable, a policy statement with accompanying questions and answers about the transfer and use of O.C.L.C.-derived records was published in January, 1984.

The O.C.L.C. Users Council passed a resolution in January, 1984, requesting the Board of Trustees to seek alternatives to copyright. Subsequently, in February, 1984, the Board authorized the establishment of the Committee on Copyright Alternatives (C.O.C.A.) with representation from the Board, Users Council, regional networks and O.C.L.C. Management. C.O.C.A.'s final report in December, 1984, endorsed copyright for use with entities not in contract with O.C.L.C., and favored broad but noncompetitive uses of records by parties in contract with O.C.L.C.

While C.O.C.A. was completing its work, the O.C.L.C. Board approved appointment by the President of a Select Committee on Third Party Use (S.C.O.T.P.U.). The Select Committee, made up of leaders in the library profession, also issued its final report in December, 1984. This report supported the sharing of records except where the records would be used for cataloging or in other ways competitive with O.C.L.C.

Following receipt of the reports of C.O.C.A. and S.C.O.T.P.U., an integrated version of the recommendations of the two committees was prepared in the form of principles and guidelines for the transfer of O.C.L.C.-derived machine-readable records. The first edition of the "Ps and Gs" was issued in June, 1985 and was liberalized in a revision issued in May, 1986. The latest edition, in November, 1987, broadens the guidelines further, and addresses the rights and responsibilities of General Members, regional networks, O.C.L.C. and other groups on the issues of record use and transfers.

Discussion Of Principles.

The 1987 revision of the Guidelines for Use and Transfer of O.C.L.C. Derived Records is designed to promote the fundamental public purposes of O.C.L.C. in furthering ease of access to and use of the ever-expanding body of worldwide scientific, literary and educational knowledge and information. O.C.L.C. was established to provide that access through an online union catalog of records supplied by its members and other parties as a resource to be shared among the world's libraries. The continued growth and enrichment of the O.C.L.C. database for the benefit of the O.C.L.C. membership and the library world in general is both necessary and desirable.

O.C.L.C. is dedicated to the principle of sharing information in all formats, including machine-readable formats, throughout the library world. The latest revision of the Guidelines states unequivocally that member libraries may share records of their own holdings with each other and with nonmember libraries without restrictions.

Member libraries have made a major investment in the O.C.L.C. Online Union Catalog and expect other member libraries, member networks and O.C.L.C. to take appropriate steps to protect the database. So far as member and nonmember libraries are concerned, however, all transfers of records of their own holdings may be made without restriction, excepting only certain transfers to commercial organizations which, under Guideline 3, require separate understandings with O.C.L.C.

The present goal of the Board of Trustees is for O.C.L.C. to maintain preeminence in providing an international bibliographic database in

electronic form, and services based on that database. This version of the Guidelines is intended to support that mission.

Redevelopment Plan for Howard-Paulina Blighted Commercial Area attached to this ordinance reads as follows:

Howard-Paulina Redevelopment Plan.

I. Redevelopment Plan Overview.

A. Purpose.

The Howard-Paulina blighted area redevelopment plan provides specific redevelopment planning objectives for the construction of the proposed Retail Transit Center (R.T.C.), and general guidelines for the future renewal of the remainder of the district. The R.T.C. area is generally bounded by North Clark Street on the west, Howard Street on the north, the C.T.A. tracks on the east, and Rogers Avenue on the south. The remainder of the H./P. blighted commercial district consists of the areas west of Clark Street, north of Howard Street along Paulina Street and east of the C.T.A. tracks to Greenview Avenue. The entire blighted commercial area is identified on Map 1.

The redevelopment plan, through its land-use and acquisition maps, indicates the uses to be permitted and the parcels that may be acquired to redevelop the area for a retail transit center project. The plan should also be used as a guide to any zoning changes, redevelopment agreements, or other governmental and legislative actions necessary to support revitalization activities in the district.

B. Planning Process.

With the direct participation of community members, this planning effort has been an ongoing process first started in 1983 to address the problem of economic decline and urban deterioration experienced in the Howard/Paulina shopping area from the 1960's through the present. The Department of Planning formalized the planning process by convening a community advisory group in 1988, to advise the department on redevelopment planning activities in the district.

C. Goals.

While there has been a gradual decline in economic activity within the Howard/Paulina shopping area, the community still possesses a strong commitment to arrest the effects of urban deterioration. As part of this commitment, the community has supported the proposed R.T.C. as a critical anchor for a resurgence of commercial growth within the entire Howard-Paulina area. The remainder of this document will outline how R.T.C. can maximize its impact on the retail, economic, social and environmental life of the surrounding neighborhoods in

addition to identifying goals and policies important to the revitalization of the entire district. The particular emphasis of this Redevelopment Plan is thus to assure that the R.T.C. and other future activities contribute to commercial and economic growth while at the same time enhancing the physical and social environment of the Howard/Paulina community.

The building of a R.T.C. and the redevelopment of the blighted commercial area should have positive physical and social benefits for the community. At a series of community meetings held in the summer of 1988, the following planning goals were identified by D.O.P.'s community advisory committee as most important goals of the redevelopment plan.

1. Provide guidelines for minimizing potential negative impacts on the area's infrastructure that may be created by the development.
2. As a spin-off of development benefits, provide increased social programming and social services for residents, such as day care and training related programs.

This redevelopment plan identifies the key planning goals for the redevelopment of the Howard-Paulina blighted commercial area.

1. Revitalize underused parcels of property, to better serve community residents.
2. Provide job opportunities for residents.
3. Provide a modern commercial and transit facility to better serve resident and commuter needs.
4. Provide guidelines for maximizing the development's positive economic and environmental impacts on local residents.
5. Serves as an anchor for the larger commercial redevelopment of the entire Howard-Paulina area.

The following chapters of this redevelopment plan outline specific policies on land use, development, and social/economic improvements, and the specific implementation steps to be

finalized in the City's redevelopment agreement, planned development ordinance (zoning), and land acquisition policies.

II. Policies.

Introduction.

The Department of Planning's multi-year community planning process focussed on broad concerns related to both the proposed Retail Transit Center and the general redevelopment of the Howard-Paulina blighted commercial area. These concerns included the social and economic benefits to be derived from the R.T.C. Other major issues involve land use planning issues related to the project, specifically, the scope, design and environmental impact of the development on the community.

Critical land use issues are density, permitted uses, development impact on local residents, as well as traffic circulation and parking. Regarding the scope and nature of the R.T.C. project, the overall community goal is a project with a mix of uses serving the neighborhood, as well as design and security provisions enhancing both the project and the neighborhood. Additional issues addressed by the residents involve the project's economic impact on local residents and its impact on the area's current infrastructure capacity.

Regarding maximizing community benefits and minimizing impacts, the redevelopment plan promotes the idea of job training and other needed social services for the community throughout the R.T.C. project and the blighted area.

A. Land Use Controls And Regulations.

The major task confronting planners and developers of the R.T.C. is the integration of this large project into an area in which traffic congestion is already perceived to be a problem. For example, Clark and Howard Streets have limited capacity to absorb more traffic at peak times. The combined traffic generated daily by C.T.A. commuters adds to the challenge of successfully integrating a site plan compatible with the existing environment.

General Land Use Planning Provisions.

In outlining guidelines for land use planning it is important to first review current land use patterns found in the R.T.C. area (see Map 2) and the greater H. P. blighted area.

In the R.T.C. area, large commercial structures are found along Howard Street from Clark Street to the C.T.A. tracks. Among them are the Pivot Point Building, the Howard Bowl and the Westmont Plaza. A major industrial user within the target site is Schumacher Electric Co. which fronts on Rogers Avenue. Additionally, a mixture of residential uses are located along Clark Street and Hermitage Avenue.

Tracts of surface parking and vacant land can be found east of Clark Street north of Birchwood Avenue and on both sides of Hermitage Avenue. C.T.A. terminal facilities comprise the remainder of the proposed R.T.C. Redevelopment site.

The remainder of the blighted commercial area is comprised of three distinct sections: the Clark Street corridor, the Paulina Street district, and the Howard Street district.

The Clark Street corridor, from Howard Street on the north to Rogers Avenue on the south, is primarily a commercial corridor of sound physical quality with some residential and institutional uses on the east side of Clark Street near North Rogers Avenue. The area north of Birchwood Avenue on the east side of Clark Street is primarily surface parking lots, with commercial buildings predominating near Howard Street.

The west side of Clark Street is a retail oriented concentration of commercial uses. The Paulina Street District is a build-up area of a mixture of uses -- commercial, residential and institutional. Major Rogers Park institutions, such as the Good News Community Church and the Howard Area Community Center, anchor the district. The remainder of the district is comprised primarily of multi-story buildings with commercial on the ground floor and residential above.

The Howard Street district east of the C.T.A. tracks is one of the major neighborhood shopping districts of the North Rogers Park Community. The district is anchored by a variety of neighborhood oriented retail stores -- such as restaurants and clothing stores. Multi-story buildings in the district have a mixture of office and residential uses above the first floor.

A1. R.T.C. Permitted Uses.

Based on the existing permitted uses, and the preferred uses articulated in the community planning process, the Redevelopment Plan calls for a mix of residential and retail uses in the R.T.C. area. A proposed project that is not a mix of uses will require an amendment to this redevelopment plan and its land use map.

Recommended permitted uses for the R.T.C. development site include the following:

Commercial Retail, Service And Related Uses.

As permitted in a B5 General Service District, such as but not limited to supermarkets, drug stores, cleaners, hardware and apparel stores, restaurants, professional offices, health clubs and related uses.

Residential Uses.

Residential uses may not be permitted below the second floor in new construction, except that new residential development located close to and compatible with existing residential uses may be permitted.

Industrial Uses.

Existing industrial uses may be permitted to remain provided that they conform to the objectives and controls of the Redevelopment Plan.

A2. Density/Floor Area Ratio.*

* Footnote:

By definition, floor area ratio (F.A.R.) is the ratio of a structure's floor area on any given zoning lot divided by the area of the lot. In the case of a planned development, floor space is divided by the net site area. For example, a floor area ratio of 5.0 means that the permitted amount of floor space is five times as great as the area of the lot.

The allowable density for the R.T.C. redevelopment site should be compatible with surrounding neighborhood densities and consistent with the current allowable density of the site. A maximum F.A.R. of 2.0 is permitted for the R.T.C. project area.

Throughout the community planning process, Howard area residents have expressed great concern about the density of the proposed R.T.C. project and the height of the residential structure which is a part of it. General consensus exists amongst the members of D.O.P.'s Advisory Committee that the project's scale and density should¹ neither overwhelm nor be out of scale with the neighborhood.

This redevelopment plan is in support of those community planning goals. A maximum of 200 residential units, and 200,000 square feet of new commercial space, is permitted in the R.T.C. area, as defined on page one of this report, and as graphically illustrated on the Acquisition Map, as the area that may be acquired.

A3. Parking/Traffic Access.

A large percentage of current land-use in the redevelopment site is devoted to private and public parking facilities. Along Howard Street all major buildings contain a significant amount of attached private parking. Additionally, the C.T.A. provides park and ride facilities along Rogers and Hermitage. On-street parking is provided in both directions on Howard Street, Clark Street, and portions of Rogers Avenue.

Despite the existence of these parking locations, visitors to the Howard/Paulina shopping area often find convenient parking difficult to locate. Therefore developers of the R.T.C. and other sites should provide parking or augment existing parking to improve shopper convenience and positively impact traffic circulation. The following are objectives for improved parking and traffic conditions within the R.T.C. site:

Sufficient additional off-street and on-street parking should be provided to meet needs for future users of the development site.

The location and design of parking facilities should facilitate the overall traffic circulation of the surrounding community.

Parking facilities should provide separate areas for long-term (e.g.: employee and C.T.A. commuter parking) and short-term parking.

A traffic feasibility study should be conducted by the developer and reviewed by the City and the community during the planned development review process.

The neighborhood's existing traffic patterns should be considered when designing the R.T.C.'s parking circulation system.

Parking facilities should be planned to enhance pedestrian movement and provide excellent screening and buffering amenities which.

Multi-story parking structures should be aesthetically compatible with surrounding uses.

Policies should be developed for sharing C.T.A. parking facilities during off-peak and evening hours.

B. Development.

The following objectives attempt to establish a pattern of land-use activities which achieve the integration of both a functionally and aesthetically balanced development within the community. Underlying these objectives is the desire to encourage high standards of design in relation to the appearance of buildings, rights-of-way and public open spaces.

B1. Design.

As part of the overall plan for successfully integrating the R.T.C. into the surrounding community the following design and development objectives should be considered:

Provisions for the optimum amount of usable open space in relation to the structure.

Development of available open space to provide a plaza within the R.T.C. which could be used for leisure and such community activities as displaying art and holding concerts.

Development structures should complement existing surrounding uses in terms of size, intensity and appearance.

The massing and interrelationship of new buildings and open areas should help create a distinct and attractive visual identity for the development and the balance of the blighted area.

All structures in the R.T.C. should be characterized by high-quality building construction and site design.

Attractive and appropriately landscaped frontages should be provided along Howard Street, Clark Street and Rogers Avenue.

Adequate screening and buffering should be provided around all new parking areas.

Off-street loading and service facilities should be consolidated where possible, and should be screened and buffered from adjacent development area and public streets. The facilities should be planned to handle shipping and delivery needs of commercial tenants.

An overall comprehensive pedestrian circulation system should be provided which facilitates pedestrian movement between buildings, related land use areas, parking and building destinations, and residential areas.

Adequate screening and buffering should be provided between different land-use areas, particularly between residential and non-residential development areas. Special care should be taken that protective screening from R.T.C. activities be provided to new residential properties as well as the Brigantine Apartments.

An overall system of signage should be provided which will establish visual continuity and promote a positive overall image of the area.

Common facilities and service areas should be encouraged within office and commercial areas which can serve a number of different buildings or business establishments.

B2. Infrastructure Impact.

It is important that proper consideration be directed to infrastructure programming during the development of the R.T.C. Community review and input of capital improvement programming should be encouraged. Particular attention should be given to the frequent flooding problems in the area caused by inadequate sewer drainage. Policy objectives for this programming should include:

Assessment of current capacity needs of the current infrastructure within and around the proposed development site.

Assurance that the development will not decrease or negatively impact on infrastructure services currently in place.

Assurance that local sewer and water lines are improved to sustain increased capacity loads generated by the R.T.C.

Assurance that streets and sidewalks are maintained or constructed to sustain increased vehicular and pedestrian volumes generated by the R.T.C.

Assurance that viaducts are maintained or renovated to sustain increased vehicular and pedestrian volumes generated by the R.T.C.

Correction of the frequent flooding at the C.T.A. station (at Howard and Paulina).

B3. Size And Character Of Retail Development.

The retail component of the R.T.C. includes approximately 200,000 square feet of space. In developing this retail space the following general guidelines should be adhered to:

R.T.C. developers should create a site design that works well for each retailer.

The retail component of the R.T.C. should establish a strong connection to Howard Street, east and west of the C.T.A.

tracks, which would link the Howard Terminal with the rest of the Howard/Paulina blighted area.

An adequate supply of conveniently located short-term patron and long-term employee parking spaces should be provided within all retail areas.

The retail mix should include outlets for soft/hard goods, for example clothing and appliances, with restaurants and specialty stores interspersed with these stores.

The retail development should be anchored by a large food marketing store or a large general merchandise store.

The retail mix should provide merchandise that reflects and serves the diverse population of the community.

B4. Security/Maintenance.

To reduce the occurrence and perception of crime, the R.T.C. must incorporate reliable security/surveillance practices. Policy guidelines related to security/surveillance should include:

Installation of effective state of the art security lighting to illuminate but not spot light parking and other public areas. Security lighting should not interfere with the privacy of R.T.C. neighbors.

Incorporate architectural and landscaping design components within the R.T.C. which promote surveillance and security.

The installation of up to date electronic surveillance equipment to monitor both merchant inventory and patron security.

Underground parking facilities be staffed with security personnel 24 hours a day.

Similarly all multi-story C.T.A. parking facilities should be staffed when in operation.

C. Renovation Of Howard Rapid Transit Station.

From the beginning, those working on the revitalization of Howard Street have understood that a desirable spinoff of the area's commercial redevelopment is the renovation of the dilapidated Howard Street C.T.A. Rapid Transit Station. It is understood, however, that a mixed-use retail/residential project can benefit the community even if the C.T.A. is unable to complete the project's renovation. Neither project precludes the other.

The station is one of the heaviest used mass transit stations in the C.T.A. system, with approximately 11,000 daily riders originating from this stop and over 50,000 daily riders using this terminal to transfer onto suburban and city trains.

Despite this activity, the station has not undergone structural improvement. As the major transit and focal point of the Howard/Paulina community, continual efforts must be brought to bear to urge its physical refurbishing. Basic physical renovation should include:

1. Improvement of station lighting.
2. Improvement of drainage, particularly sewers, to prevent flooding during major storms as cited earlier in this document.
3. Painting the entire station.
4. Improving access points to the station platform; specifically, replacement of current turnstiles, ticket booths and stairs with modern equipment and structures.
5. Replacement or refurbishing of platforms and walk-overs.
6. Modernization of concession areas.
7. Improvement to the C.T.A. bus turn-around area.
8. Refurbishing common areas, particularly seating and washroom facilities.
9. Improvement of overall pedestrian traffic flow within and outside of the station.

10. General improvement of trackage, to increase efficiency of train operations.

D. Social Policies.

Although the objective of Commercial District redevelopment projects is the physical development of blighted commercial areas, the Department of Planning, its community advisory committee, and the developer, are committed to encouraging neighborhood social improvements through redevelopment activities. This is consistent with recent Mayoral and City Council initiatives in such areas as First Source Agreements and expanded minority participation in City construction and redevelopment contracts.

The R.T.C. should be a catalyst for both economic and social revitalization of the Howard/Paulina blighted area. The framework for this revitalization should be supported by efforts which encourage community economic development through first source hiring of local residents. Other employment related policies should include:

Best efforts to relocate businesses and employees displaced by the development.

Job training programs geared to provide needed skills required by retail operators. The priority for this training should be directed to residents within the immediate vicinity of the R.T.C.

Day care facilities that provide child maintenance assistance to parents within the community, either employed within the R.T.C. or receiving job training relevant to R.T.C. employment, should be encouraged.

A coordination of available state and city programs to enhance social service delivery programs for the Howard/Paulina Commercial District should be pursued.

III. Implementation/Amendments.

The specific steps in realizing the goals and the objectives of the Redevelopment Plan include the following:

1. The City proposes to finance the R.T.C. development in part from tax increment financing.
2. Assemblage of sites will include: a) acquiring and removing deteriorated and/ or obsolete buildings and buildings so situated as to interfere with replanting of the land into parcels suitable for redevelopment in accordance with this Redevelopment Plan; b) vacating existing public right-of-way and making them a part of one or more redevelopment sites; c) assisting the relocation of businesses where necessary.
3. The inclusion of public improvements will consist of a) parking facilities; b) new utilities and utility adjustments; c) surface right-of-way improvements; and d) pedestrian walkway improvements.

Physical and site improvement policies outlined in this redevelopment plan should be implemented in the planned development ordinance which will govern the project. This planned development ordinance should be reviewed by the community prior to plan commission and City Council review.

The City departments of Economic Development, Housing and Public Works will be the key departments in implementing this plan.

Finally, any changes, revisions and amendments to this Redevelopment Plan as outlined above must be approved by the Commercial District Development Commission, the Chicago Plan Commission and the Chicago City Council.

The redevelopers, their successors or assigns, will be required by contract to observe provisions for this Redevelopment Plan for a period of forty (40) years from the date of City Council approval of the first land disposition in the project area.

183.1-4. Any assault weapon is hereby declared as contraband and shall be seized and disposed of in accordance with the provisions of this Code.

*Easement Agreement For Water Service And
Emergency Access.*

This Easement Agreement (the "Easement Agreement") is entered into as of _____, 1991, by and between the Illinois Sports Facilities Authority, a political subdivision, unit of local government, body politic and municipal corporation, having an office at 333 West 35th Street, Chicago, Illinois 60616 (hereinafter referred to as the "Grantor") and the City of Chicago, an Illinois home rule municipal corporation (hereinafter referred to as the "Grantee").

Recitals:

This Easement Agreement is made with respect to the following facts:

I. Grantor is the owner of record of a parcel of real property located in the City of Chicago, County of Cook, State of Illinois, as more fully described on (Sub)Exhibit A attached hereto and made a part hereof (the "Ring Road Parcel").

II. The following streets are dedicated public rights-of-way located within the corporate limits of the City of Chicago, County of Cook, State of Illinois, which are contiguous to the Ring Road Parcel: (a) West 35th Street between South Wentworth Avenue and South Stewart Avenue and (b) South Princeton Avenue between West 37th Street and West 35th Street. For purposes of this Easement Agreement, such portions of West 35th Street and South Princeton Avenue are referred to herein as the

"Subject Streets". Grantor has constructed a paved surface upon the Ring Road Parcel which shall be called "the Ring Road".

III. Grantor desires to grant and Grantee desires to accept an easement for the continued maintenance, repair, replacement, use and operation of a water main beneath the surface of the Ring Road Parcel and the corresponding manholes on the surface of the Ring Road Parcel (collectively, the "Water Main"); for the continued maintenance, repair, replacement, use and operation of three water hydrants located on the perimeter of the Ring Road as depicted on (Sub)Exhibit A attached hereto (the "Hydrants"); and for access, ingress and egress to and from the Ring Road Parcel for such purposes and for the purpose of extinguishing fires and providing other emergency public services ("Emergency Services").

Agreement.

For good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged by the parties hereto, and in consideration of the mutual promises and agreements of the parties contained herein, the sufficiency of which is hereby acknowledged by the parties hereto, Grantor and Grantee covenant and agree as follows:

A. Creation and Use of Ring Road Easement. Upon and subject to the terms and conditions of this Easement Agreement, Grantor hereby grants to Grantee, its successors and assigns, and Grantee hereby accepts, a perpetual easement in, on, through, over, across, upon and beneath the surface of the Ring Road Parcel (the "Ring Road Easement"). The Ring Road Easement shall be used by Grantee only for the following purposes:

1. the use, operation, maintenance, repair and replacement and/or the connection to other water systems of the Water Main and Hydrants; and
2. for access, ingress and egress to and from the Ring Road Parcel by way of the Subject Streets for the purposes stated in paragraph A.1. above and for the purpose of providing Emergency Services.

Notwithstanding anything to the contrary contained in this Easement Agreement, Grantor shall be permitted to locate and maintain "break away" access gates at the points where the Ring Road abuts and joins into each Subject Street, provided Grantee's Commissioner of Fire approves the design of such gates. No other buildings or structures shall be constructed or installed on the Ring Road Parcel.

Exclusive use of the Ring Road Easement is not hereby granted. Grantor reserves unto itself, its successors, assigns and designees the right to use the Ring Road for any use or purpose provided such use or purpose does not unreasonably interfere with Grantee's exercise of rights granted in this Easement Agreement.

B. Construction. Grantor hereby agrees to permit the construction and installation of other below-ground structures necessary for the proper functioning of the Water Main and Hydrants, all in accordance with designs and specifications that are approved by the City of Chicago.

C. Maintenance and Repair. Except for entry to provide Emergency Services, Grantee shall, insofar as is practicable, restore the Ring Road Parcel (including the Ring Road itself), to the extent it is altered or disturbed by Grantee's entry to exercise its rights under this Agreement, to substantially the same condition as it existed prior to Grantee's alteration or disturbance. Grantor shall have no obligation to operate, maintain, repair or restore the Water Main or Hydrants. Grantor shall cause, at its own expense, the Ring Road, but not including the Water Main or Hydrants, to be maintained, repaired and restored in a good and safe condition, and all such work shall be performed in a good and workmanlike manner.

D. Relocation. The right is reserved to Grantor upon the prior written consent of both the Commissioner of Fire and the Commissioner of Water of Grantee, which consent may not be unreasonably withheld at any time, from time to time to relocate, at Grantor's sole expense, any portion of the easement granted hereby, provided that access to and use of the Water Main and Hydrants is not materially interrupted or impaired by such relocation and provided further that Grantor record an amendment to this easement defining such relocation.

E. Indemnification. Grantor hereby agrees to indemnify, defend and hold harmless Grantee and its respective officers, directors, employees, agents, invitees and licensees against any and all claims or liabilities for damage to person or property arising from the acts of or failure to act by Grantor or its respective officers, directors, employees and agents pursuant to this Easement Agreement, and for any costs relating thereto. Grantee hereby agrees to indemnify, defend and hold harmless Grantor and its respective officers, directors, employees, agents, invitees and licensees against any and all claims or liabilities for damage to person or property arising from the acts of or failure to act by Grantee or its respective officers, directors, employees and agents pursuant to this Easement Agreement, and for any costs relating thereto. Grantee shall be solely responsible for injury or damage to property, and injury to persons, including death, resulting from or in connection with (i) the use, operation, maintenance or repair of the Water Main and Hydrants, and (ii) provision of Emergency Services.

F. Covenants Running with the Land. The rights and obligations of Grantor shall be covenants running with the Ring Road Parcel, and shall bind, inure to the benefit of and be enforceable by Grantor, its successors and assigns. The obligations and rights of Grantee hereunder shall be covenants running with the Ring Road Parcel, and shall bind, inure to the benefit of and be enforceable by Grantee, its successors and assigns.

*Conveyance Of Sewer Line And Easement
Agreement For Service.*

This Conveyance and Easement Agreement (the "Agreement") is entered into as of _____, 1991, by and between the Illinois Sports Facilities Authority, a political subdivision, unit of local government, body politic and municipal corporation, having an office at 333 West 35th Street, Chicago, Illinois 60616 (hereinafter referred to as the "Grantor") and the City of Chicago, an Illinois home rule municipal corporation (hereinafter referred to as the "Grantee").

Recitals.

This Agreement is made with respect to the following facts:

I. Grantor is the owner of record of a parcel of real property located in the City of Chicago, County of Cook, State of Illinois, as more fully described on (Sub)Exhibit A attached hereto and made a part hereof (the "Sewer Parcel").

II. Grantor has installed approximately ____ feet of a sewer line with a maximum diameter of 36" together with manholes and related appurtenances (the "Sewer Line") partially beneath South Wells Street, a dedicated public right-of-way, and the Sewer Parcel. The Sewer Line connects to existing public sewer lines in South Wells Street and West 35th Street (the "Municipal System"). Grantor desires to convey to the Grantee and the Grantee desires to accept the conveyance of the Sewer Line in order that the Sewer Line may become a part of the Municipal System.

III. In connection with the conveyance of the Sewer Line to the Grantee, Grantor further desires to transfer and convey to the Grantee, and Grantee desires to accept the transfer and conveyance of certain easement rights on, over, across and through the Sewer Parcel for the maintenance, repair, replacement, use and operation of the Sewer Line; and for the access, ingress and egress to and from, across and over the Sewer Parcel for the maintenance, repair, replacement use and operation of the Sewer Line.

Agreement.

For Ten Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged by the parties hereto, and in consideration of the mutual promises and agreements of the parties contained herein, the sufficiency of which is hereby acknowledged by the parties hereto, Grantor and Grantee covenant and agree as follows:

A. Conveyance Of The Sewer Line. Grantor does hereby convey, assign, transfer and set over to Grantee and Grantee accepts the Sewer Line. Grantor hereby represents that the Sewer Line is free and clear of all liens, charges and encumbrances, and that Grantor has full right, power and authority to convey the Sewer Line. All warranties of quality, fitness and merchantability are hereby excluded.

B. Creation And Use Of Sewer Easement. Upon and subject to the terms and conditions of this Agreement, Grantor hereby grants to Grantee, its successors and assigns, and Grantee hereby accepts, the following perpetual easements (collectively, the "Sewer Easement"):

(a) an easement in, on, through, over, across, upon and beneath the surface of the Sewer Parcel for the use, operation, maintenance, repair and replacement and/or the connection to other sewer systems (collectively, the "Sewer Service") of the Sewer Line; and

(b) an easement for access, ingress and egress to and from the Sewer Parcel for purposes of conducting or providing Sewer Service.

Exclusive use of the Sewer Parcel is not hereby granted. Grantor reserves unto itself, its successors, assigns and designees the right to use and enjoy the Sewer Parcel for any use or purpose, provided that such use or purpose does not interfere with Grantee's use of the Sewer Easement, and provided that no buildings or structures shall be constructed or installed on or over the Sewer Parcel without the approval of the Commissioner of Sewers. The Grantee hereby acknowledges that the

Commissioner of Sewers has approved of the fence (the "Fence") that runs adjacent to the Sewer Line.

C. Use. Grantor hereby agrees to allow Grantee to use, operate, maintain and regulate the Sewer Line in the same manner as Grantee would use, operate, maintain and regulate any other sewer line or manholes that are part of the Municipal System, provided that such regulation does not conflict with the terms and intent of this Agreement.

D. Maintenance and Repair.

(1) Grantee shall cause, at its own expense, the Sewer Line to be operated, maintained, repaired and restored in a good and safe condition, and all such work shall be performed in a good and workmanlike manner. Grantee shall, at its sole cost and expense and insofar as is practicable, (i) use all reasonable efforts to minimize disturbance to the Grantor during any maintenance, repair or replacement of the Sewer Line; and (ii) promptly restore the Sewer Parcel to standard street or surrounding street restoration. During any such maintenance, repair or replacement, Grantee shall keep the Sewer Parcel reasonably free of debris. Grantor shall have no obligation to operate, maintain, repair or restore the Sewer Line.

(2) Notwithstanding anything in this Section D to the contrary, Grantee shall bear the cost and responsibility for removal of the Fence when and only if necessary for repair, maintenance or restoration of the Sewer Line. Grantee shall use all reasonable efforts to minimize the portion of the Fence required to be temporarily removed, and to minimize disturbance of the remaining portions of the Fence. Grantee shall keep areas where the Fence has been removed reasonably secure, provided, however, that Grantor shall have the right to take any actions it deems to be reasonably necessary to maintain security in such open areas. Grantee shall notify Grantor immediately after the conclusion of the work that required removal of portions of the Fence. Thereafter Grantor shall restore the Fence at its sole cost and expense. Grantor and Grantee hereby agree to provide notice to each other prior to taking any actions pursuant to this Section D. Grantee agrees to coordinate the timing and manner of all maintenance and repairs with Grantor.

E. Relocation. Grantor reserves the right upon the prior written consent of the Commissioner of Sewers, which consent shall not be unreasonably withheld or delayed at any time, to have Grantee relocate from time to time, at Grantor's sole expense, any portion of the Sewer Easement granted hereby, provided that access to and use of the Sewer Line is not materially interrupted or impaired by such relocation and provided further that Grantor record an amendment to this Agreement defining such relocation.

F. Indemnification. Grantor hereby agrees to indemnify, defend and hold harmless Grantee and its respective officers, employees, agents, invitees and licensees against any and all claims or liabilities for damage to person or property arising from the acts of or failure to act by Grantor or its respective officers, directors, employees and agents pursuant to this Agreement, and for any costs relating thereto. Grantee hereby agrees to indemnify, defend and hold harmless Grantor and its respective officers, directors, employees, agents, invitees and licensees against any and all claims or liabilities for damage to person or property arising from the acts of or failure to act by Grantee or its respective officers, directors, employees and agents pursuant to this Agreement, and for any costs relating thereto.

G. Covenants Running with the Land. The rights and obligations of the Grantor shall be covenants running with the Sewer Parcel, and shall bind inure to the benefit of and be enforceable by Grantor, its successors and assigns. The obligations and rights of Grantee hereunder shall be covenants running with the Sewer Parcel, and shall bind, inure to the benefit of and be enforceable by Grantee, its successors and assigns.

Exhibit "I" attached to this ordinance reads as follows:

Exhibit "I".

Easement Agreement For Light Fixtures.

This Easement Agreement (the "Easement Agreement") is entered into as of _____, 1991, by and between the Illinois Sports Facilities Authority, a political subdivision, unit of local government, body politic and municipal corporation, having an office at 333 West 35th Street, Chicago, Illinois 60616 (hereinafter referred to as the "Grantor") and the City of Chicago, an Illinois home rule municipal corporation (hereinafter referred to as the "Grantee").

Recitals:

This Easement Agreement is made with respect to the following facts:

I. Grantor is the owner of record of a parcel of real property located in the City of Chicago, County of Cook, State of Illinois, as more fully described on (Sub)Exhibit A attached hereto and made a part hereof (the "Light Fixtures Parcel"). The Light Fixtures Parcel is improved with a sidewalk (the "Sidewalk").

II. The Light Fixtures Parcel is contiguous to the portion of the public right-of-way in West 35th Street to be used as a bus lane for dropoff and pickup of passengers (the "Bus Lane"). The Bus Lane runs along the northern edge of West 35th Street.

III. The City of Chicago has requested an easement for the construction, installation and maintenance of street light fixtures and underground cable or wiring connecting such light fixtures (collectively, the "Light Fixtures") within the Light Fixtures Parcel in order to provide adequate lighting for West 35th Street. The City has also requested an easement for pedestrian use on and over the Light Fixtures Parcel by the general public.

Agreement.

For good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged by the parties hereto, and in consideration of the mutual promises and agreements of the parties contained herein, the sufficiency of which is hereby acknowledged by the parties hereto, Grantor and Grantee covenant and agree as follows:

A. Creation and Use of Light Fixtures Easement. Upon and subject to the terms and conditions of this Easement Agreement, Grantor hereby grants to Grantee, its successors and assigns, and Grantee hereby accepts, a perpetual easement in, on, through, over, across and upon the Light Fixtures Parcel (the "Light Fixtures Easement"). The Light Fixtures Easement shall be used by Grantee only for the construction, installation, use, operation, maintenance, repair and replacement of the Light Fixtures, and for pedestrian use by the general public. Exclusive use of the Light Fixtures Easement is not hereby granted. Grantor reserves unto itself and its designees the right to use and enjoy the Light Fixtures Parcel.

B. Regulation. Grantor hereby agrees to allow Grantee to regulate the Light Fixtures and Sidewalk in the same manner as Grantee would regulate any other public light fixtures or public sidewalk on a comparable street or alley provided that such regulation does not conflict with the terms and intent of this Easement Agreement.

Grantor hereby agrees to permit the construction and installation of the Light Fixtures and other fixtures necessary to support the Light Fixtures, including, without limitation, the necessary electrical or power supply conduits and fixtures, all in accordance with designs and specifications approved by the City of Chicago.

D. Maintenance and Repair. Grantee shall cause, at its own expense, the Light Fixtures to be operated, maintained, repaired and restored in a good and safe condition, and all such work shall be performed in a good and workmanlike manner. Grantee shall, insofar as is practicable, restore the Light Fixtures Parcel, to the extent it is altered or disturbed by Grantee's entry to exercise its rights under this Agreement, to substantially the same condition as the Light Fixtures Parcel existed prior to Grantee's alteration or disturbance. Grantor shall have no obligation to operate, maintain or repair the Light Fixtures. Grantor shall cause, at its own expense, the Light Fixtures Parcel, and all improvements thereon except the Light Fixtures (the "Other Improvements"), to be maintained, repaired and restored in a good and safe condition for public use. Grantee shall have no obligation to maintain or repair the Other Improvements.

E. Indemnification. Grantor shall be solely responsible for the safety of all persons and property coming into contact with the Other Improvements. Grantor hereby agrees to indemnify, defend and hold harmless Grantee and its respective officers, employees, agents, invitees and licensees against any and all claims or liabilities for damage to person or property arising from the acts of or failure to act by the Grantor or its respective officers, employees and agents pursuant to this Easement Agreement, and for any costs relating thereto. Grantee shall be solely responsible for the support, safety and protection of the Light Fixtures, and for the safety and protection of all persons and property coming into contact with the Light Fixtures. Grantee hereby agrees to indemnify, defend and hold harmless Grantor and its respective officers, directors, employees, agents, invitees and licensees against any and all claims or liability for damage to person or property arising from the acts of or failure to act by the Grantee or its respective officers, employees and agents pursuant to this Easement Agreement, and for any costs relating thereto.

F. Covenants Running with the Land. The rights and obligations of Grantor hereunder shall be covenants running with the Light Fixtures Parcel, and shall bind, inure to the benefit of and be enforceable by Grantor, its successors and assigns. The obligations and rights of Grantee hereunder shall be covenants running with the Light Fixtures Parcel, and shall bind, inure to the benefit of and be enforceable by Grantee, its successors and assigns.

SECTION 1. Permission and authority are hereby given and granted, upon the terms and subject to the conditions of this ordinance, to Acme Steel Company to maintain and use as now constructed, a diagonal elevated steel structure over and across South Torrence Avenue, the center line of which is two hundred fifty-three (253) feet north of the center line of East 114th Street. Said elevated steel structure is twenty (20) feet on private property and is used for the purpose of supporting an enclosed conveyer, together with pipe lines and other equipment, the lowest portion of same being not more than twenty-five (25) feet above the surface of the street at said location. Authority for the above described use of the public way shall be in effect for a period of five (5) years from and after March 14, 1991.

The location of said privilege shall be as shown on print hereto attached, which by reference is made a part of this ordinance. Said privilege shall be maintained and used in accordance with the ordinances of the City of Chicago and the directions of the Commissioner of Streets and Sanitation, the Commissioner of Inspectional Services, the Commissioner of Public Works and the Commissioner of General Services. The grantee shall keep that portion of the public way over or under said privilege in good condition and repair, safe for public travel, free from snow, ice and debris to the satisfaction of the Commissioner of Streets and Sanitation.

In case of the termination of the privilege herein granted or the grantee transfers title or vacates the premises, the grantee shall, nevertheless, remain liable to the City of Chicago for the annual compensation which shall have become due and payable under the provisions hereof, until the structures and appliances herein authorized are removed and the public way is restored as herein required. Exhibit "B" attached to this ordinance reads as follows:

Exhibit "B".

*Easement Agreement For
Water Facilities.*

This Agreement is dated as of this ____ day of June, 1991, by and between the City of Chicago, an Illinois home rule municipal corporation (the "City"), and Kentile Floors, Inc., a New York corporation (the "Owner").

In consideration of the mutual covenants and agreements set forth herein and pursuant to the City's home rule powers, the parties hereto agree as follows:

1. Background.

A. The Owner is the owner of certain real estate situated in the City of Chicago, County of Cook, State of Illinois, which real estate is legally described in (Sub)Exhibit A attached hereto and made a part hereof (the "Subject Property").

B. Certain public utilities consisting of a water main and appurtenances thereto (the "Facilities") have been installed upon the Subject Property at the locations shown in (Sub)Exhibit B attached hereto and made a part hereof.

C. The Owner and the City have determined that it is in their respective best interests to enter into this Agreement granting the City an easement for the purpose of servicing and maintaining the Facilities.

2. Grant of Easement. The Owner grants and conveys to the City a perpetual, non-exclusive easement in, at, over, along, across, through, upon and under that portion of the Subject Property consisting of a thirty (30) foot wide strip of land depicted as the hatched area on (Sub)Exhibit B

(the "Easement Premises"), solely to operate, use, maintain, own, test, inspect, repair, remove, replace and upgrade the Facilities at their existing locations, together with all reasonable rights of ingress and egress over, along, across and upon the Easement Premises necessary for the exercise of the rights granted herein.

3. Not a Public Dedication. Nothing in this Agreement shall be deemed to be a gift or dedication of any portion of the Subject Property to the general public or for any public purpose whatsoever, it being the intention of the Owner and the City that this Agreement shall be strictly limited to and for the purposes herein expressed. The foregoing limitation shall apply notwithstanding any temporary blockage of the Easement Premises caused by the City's exercise of its rights hereunder.

4. Hold Harmless. The City agrees to defend, indemnify and hold the Owner harmless from all claims, causes of action, suits, damages, or demands for any injuries to persons or property resulting from use of the Easement Premises by the City, except to the extent such injuries are caused by the negligent, willful and wanton or intentionally tortious conduct of Owner, its agents, employees, successors or assigns.

5. Reservation of Rights. The Owner reserves the right to utilize the Easement Premises in any manner that will not prevent or interfere with the easement granted to the City hereunder including the right to use the Easement Premises for parking and vehicular and pedestrian ingress and egress and the right to install and maintain pavement, curb cuts and other improvements related to such use. The grant of easement hereunder shall not be deemed to prevent the continuation of existing taps into the Facilities servicing Owner's adjacent properties nor shall it prevent Owner from applying to the City for additional taps into the Facilities in the future. It is expressly agreed that Owner will not, without the prior written consent of the City's Commissioner of Water, construct or install any building or structure over the Easement Premises.

6. Additional Easements. The Owner shall have the right to grant other non-exclusive easements over, along, across or upon the Easement Premises; provided, however, that any such other easements shall not interfere with the rights granted hereunder and shall be subject to this Agreement and the rights granted hereby.

7. City Restoration. In the event the City enters upon the Easement Premises pursuant to the provisions hereof, the City agrees to (a) replace and grade any and all topsoil removed by the City; (b) restore to condition immediately preceding such entry (which condition shall not exceed ordinary standards applicable to the City's streets and alleys) any and all fences, roads, plantings, pavement, sidewalks, curbs and buildings or structures (which buildings or structures have been approved as required above) that are damaged or removed as a direct result of the City's entry

upon the Easement Premises; and (c) replace any and all natural grass removed with sod of like quality.

8. Covenants Running With the Land. The easements and rights granted in this Agreement, the restrictions imposed by this Agreement, and the agreements and covenants contained in this Agreement shall be easements, rights, restrictions, agreements and covenants running with the land, shall be recorded against the Subject Property and shall be binding upon and inure to the benefit of the Owner and the City and their respective heirs, executors, administrators, successors, assigns, agents and representatives, including, without limitation, all subsequent owners of the Subject Property, or any portion thereof, and all persons claiming under or through them. If any of the easements, rights, restrictions, agreements or covenants created by this Agreement would otherwise be unlawful or void for violation of (a) the rule against perpetuities or some analogous statutory provision, (b) the rule restricting restraints on alienation, or (c) any other statutory or common law rules imposing time limits, then such easements, rights, restrictions, agreements or covenants shall continue only until 21 years after the death of the last survivor of the now living lawful descendants of George Herbert Walker Bush, President of the United States.

9. Remedies. In the event of a default by the City hereunder, the Owner shall have the right to exercise any remedies available under Illinois law, including the right to demand specific performance by way of injunction or other equitable relief, but in any such event Owner shall have no right to terminate this Agreement.

10. Assignment of Rights. The Owner agrees that the City may assign its rights and delegate its duties under this Agreement to any assignee.

11. Amendment. This Agreement may be modified, amended, or annulled only by the written agreement of the Owner and the City.

12. Severability. If any provision, condition, covenant or other clause, sentence or phrase of this Agreement shall become null and void or illegal for any reason, or be so held by any court of competent jurisdiction, the remaining portions shall remain in full force and effect; provided, however, that if any provisions of this Agreement determined by any such court to be unenforceable go to the essence of this Agreement so that the purpose of this Agreement cannot be fulfilled, then notwithstanding anything in this Agreement to the contrary, this Agreement shall terminate as of the date of any final determination of the holding by any such court.

13. Notices. All notices to be given under this Agreement shall be in writing and shall be served on the parties at the addresses given below or such other address as either party may, by written notice, provide to the other in accordance with the terms of this paragraph.

- (3) The total Commissions owed the City based on sales volume and the Commission rates agreed to.

All monthly reports and related records shall be maintained by the Contractor for at least three (3) years, and shall be subject to inspection by the Management Company and audit by the Department of General Services or other City inspection. Representatives of the Department of General Services may, at their discretion, examine the reports and records at the offices of the Contractor provided that reasonable notice of an intent to examine the records is provided to the Contractor.

The books and records shall maintain a separate account for each Location. All books and records shall be maintained in a manner consistent with generally accepted accounting principles and practice.

Annually, no later than February 20th of every year during which this Agreement remains in force, the Contractor shall supply to the Commissioner of General Services a copy of the financial statements and a Certificate from an independent certified public accountant in form and substance acceptable to the Commissioner of General Services attesting to an audit showing that the Commissions paid to the City under Section

The City reserves the right, by itself or through a third party designated by the Commissioner of General Services, upon ten (10) days written notice to the Contractor, to audit and review the records serving as the basis for such audit, which records shall be regarded as proprietary and confidential. In the event that the independent audit ordered by the City properly determines that the compensation paid to the City was underpaid in the prior calendar year by more than 5%, the Contractor shall bear the cost of the City's audit.

The Contractor will provide to the Commissioner of General Services, the Commissioner of the City's Department of Revenue and the City Comptroller, at no cost, the monthly Detail Reports required by subsection (f) of this Section through mechanized transmission or delivery. A reasonable number of additional reports shall be provided at no extra cost upon request of the City's Program Manager.

(g) Collections. The Contractor shall collect Gross Revenues from each Vending Machine at least once per week. The Commissioner of General Services may, in his discretion, require the Contractor to collect Revenues on a more frequent basis provided that the increased number of collections is reasonably necessary for the protection of City's interests under this Agreement.

(h) Payment. The City's monthly commission check representing the City's share of the revenue generated from the Vending Machines as determined in accordance with Section 1601 of this Agreement shall be presented to the office of the City Comptroller no later than the twentieth (20th) day following the month during which the revenue is generated. The monthly commission check shall be accompanied by the monthly report required by Section 402(e) of this Agreement.

(i) Special Promotions. The Contractor must supply, in cooperation with Vending Machine product suppliers, promotions, contests, prizes and award incentives to induce increased Vending Machine customer patronage. All programs shall include promotional literature and winner announcements.

(j) Recycling. All or part of the discarded cans shall be collected at all Locations and recycled as provided in Article 10.

(k) Location of Vending Machines. The Vending Machines shall be located in any or all of the Potential Locations set forth in (Sub)Exhibit 10. Potential Locations shall include but not be limited to City Hall; the various locations of the Departments of Police, Fire, General Services, Aging and Disability, Human Services, Streets and Sanitation (which

includes all fifty (50) of their Ward locations), Water, Sewers, Health, and Public Works and the Public Libraries.

Any requests for new or additional Locations shall be made in writing by the Contractor to the Commissioner of General Services, who shall have sole authority to grant or deny each request. When the Department of General Services initiates a proposal for a new Location, the Contractor shall evaluate the feasibility of such Location and respond to the Department of General Services on a timely basis, which in no event shall be more than two weeks after the Contractor's receipt of the Department's proposal.

The City reserves the right to modify, cancel, or add to the Potential Vending Machine Locations listed in (Sub)Exhibit 10.

Section 403. Profitability.

The City recognizes that certain costs will be incurred by the Contractor as a result of providing multiple Vending Machine Locations. The Contractor shall have the opportunity to document, and is responsible for documenting, the financial payback for Vending Machines on a Location-by-Location basis. It is not the intent of the City to require unprofitable Vending Machine Locations.

Section 404. Equipment Requirements.

The Contractor shall supply, at its own expense, all of the Vending Machines and any related equipment required by this Agreement. All Vending Machines shall be current generation, new or like new, and of the highest quality. All Vending Machines that dispense soda, milk, juice, hot beverages, or similar products must be equipped with non-resettable meters. All canned beverage machines shall have dollar bill acceptors. All multi-machine Locations shall have, in addition to canned beverage machines with dollar bill acceptors, (1) dollar bill converters to produce change and/or (2) other product machines with dollar bill acceptors. Sites which sell reheatable food shall have new or like new microwave ovens and appropriate condiments and utensils supplied by the Contractor.

The Contractor shall own (not lease) at least 50% of the Vending Machines installed at any Location for the purpose of serving canned beverages. If, for any reason, the Contractor believes that it cannot meet this 50% requirement at any Location, the Contractor must submit a written explanation to the Commissioner of General Services setting forth the reasons why such compliance is not possible. The Commissioner of General Services, after reviewing the explanation submitted by the Contractor, may

waive the 50% requirement for a particular Location provided that he believes such waiver is in the best interests of the City and its employees. The Vending Machines shall dispense as wide a variety of merchandise as is feasible.

All Vending Machines shall be subject to inspection by the Department of General Services. The Department of General Services may reject any Vending Machines delivered pursuant to this Agreement provided there is a reasonable basis to believe that the rejected Vending Machine would not operate efficiently or satisfy the purposes of this Agreement. Grounds for rejecting a Vending Machine shall include, but shall under no circumstances be limited to the following: (1) obvious external damage, (2) unattractiveness, (3) the Vending Machine is not a current model, (4) the Vending Machine would not appear to a reasonable person as being "new" or "like-new", (5) the Vending Machine lacks any of the requirements set forth in this Agreement, (6) the Vending Machine dispenses beverages and lacks a non-resettable meter, or (7) the Vending Machine does not meet the highest standard of quality.

Within thirty (30) days of the Effective Date, the Contractor shall submit to the Commissioner of General Services a detailed plan (the "Plan") for the complete implementation of the Proposal including but not limited to the installation of all Vending Machines. The Commissioner of General Services shall have the right, in his discretion, to accept or reject the Plan.

Section 406. Pricing.

The prices of all merchandise sold in the Vending Machines shall be as agreed to by the Contractor and the Department of General Services and initially shall be as set forth in (Sub)Exhibit 8. The City reserves the right to continuously monitor and review the Contractor's pricing schedule and the Commissioner of General Services, on behalf of the City, may, in his discretion, require the Contractor to make adjustments in such pricing schedule. The Contractor may not increase the prices of any Merchandise or provide new Merchandise without first obtaining the explicit approval, in writing, of the Commissioner of General Services.

*Article 5.**Merchandise.*

At all times, the Contractor shall keep the Vending Machines fully stocked with fresh, high-quality food products. A variety of food products may be sold from the Vending Machines. The products may include candy, canned soda, chips, gum, rolled candy, coffee, milk, chocolate milk and other items listed in (Sub)Exhibit 8 hereto, which may be amended from time to time with the consent of the Commissioner of General Services and the Contractor. All of the items listed in (Sub)Exhibit 8 as such (Sub)Exhibit may be amended from time to time and shall be referred to herein as the "Merchandise".

The Merchandise shall consist exclusively of brand-name products unless this Agreement or (Sub)Exhibit 8 contains an explicit exception to this requirement.

The Contractor shall sell an assortment of Merchandise and attempt to offer the City and its employees as wide a selection of Merchandise and as many categories of Merchandise as possible. The Contractor shall not under any circumstances replace any of the Merchandise with products not listed in (Sub)Exhibit 8. If the Contractor believes that a substitution of product is advisable and would be beneficial to the City and the City's employees, the Contractor shall notify the Commissioner of General Services of its recommendation. The Commissioner of General Services on behalf of the City and the Contractor may amend (Sub)Exhibit 8 to add the recommended product to the Merchandise.

*Article 6.**Sanitation At Vending Machine Locations.*

The Contractor shall be responsible for removing all cans, paper, cardboard and other trash generated by the Vending Machines including but not limited to such trash generated during the filling and servicing of the Vending Machines. All trash shall be removed in a timely fashion and pursuant to a schedule approved by the Commissioner of General Services and the City's Program Manager. The Contractor represents and warrants that at all times it will be willing and ready to take whatever action is reasonably possible to maintain the highest standards of sanitation and cleanliness in the Locations and specifically in the areas where the Vending

Machines are located. The Contractor's commitment to the maintenance of a clean and attractive environment in the areas surrounding the Vending Machines is a material covenant on which the City has relied in concluding this Agreement. Any violation of this Article 6 by the Contractor shall be grounds for the immediate termination of this Agreement by the City. If the City terminates this Agreement because of violation by the Contractor of this Article 6, the City shall have no further obligation to the Contractor and specifically shall not be indebted to the Contractor for any losses the Contractor may incur as a result of the termination of this Agreement pursuant to this Article 6.

Article 7.

Inspection Of Facilities.

Upon not less than 12 hours notice, up to five (5) representatives of the City may inspect the Contractor's facilities including but not limited to any or all of its kitchens, food preparation areas, bakeries, food storage areas, refrigeration units, loading docks and trucks. Upon approval by the Commissioner of General Services, (Sub)Exhibits 1 and 9 shall become a part of this Agreement. Thereafter, such (Sub)Exhibits 1 and 9 may be amended with the prior written approval of the Commissioner of General Services and the Contractor.

*Article 9.**Special Promotions.*

Wherever and whenever possible, the Contractor shall offer a variety of promotional programs, special events, product give-aways, and contests in connection with the Vending Services and the Cafeteria Services that the Contractor will supply pursuant to this Agreement. Whenever promotions are offered or sponsored by manufacturers or suppliers of products sold in the Vending Machines or Police Department Cafeterias, and those promotions are offered by the Contractor at any sites where it has installed or operates vending machines or operates a cafeteria, those promotions shall be offered by the Contractor at all of the Locations and Police Department Cafeterias covered by this Agreement.

All promotions planned for the City's vending Locations and Police Department Cafeterias shall be discussed in advance with and shall be subject to the approval of the Program Manager. The Contractor shall advertise such promotions to the maximum extent reasonably possible.

All promotions shall be carried out in a fair manner. Whenever a promotion involves a contest where prizes will be awarded, the Contractor will make every effort to insure that every participant has an equal chance of winning and that no participant will be shown favoritism in any manner whatsoever.

*Article 10.**Recycling Requirements.*

The Contractor shall be responsible for recycling all beverage cans disposed of in any of the vending Locations or the Police Department Cafeterias. Beverage cans disposed of in the vending Locations or the Police Department Cafeterias shall be referred to herein as "Used Cans". All Used Cans shall be returned by the Contractor, at its expense, to its recycling center. The parties intend for the Used Cans to be "sorted" and "crushed" at the Contractor's recycling center and eventually to be delivered to a recycling facility.

The Contractor, at its expense, shall install Envipco Reverse Vendor Units ("Envipco Unit") at each Location designated by the Department of General Services as a "high volume" Location.

At each Location which is not designated as a "high volume" Location, the Contractor shall provide, at its expense, a corrugated container with a removable plastic liner. All Used Cans, whether deposited and stored in an Envipco Unit or a corrugated container, shall be collected and removed by the Contractor, at its expense, on a timely basis acceptable to the Commissioner of General Services. All Used Cans so removed shall be sent first to the Contractor's recycling center, and after they have been processed, to a recycling facility.

The Contractor shall pay the sum of \$2,000 to the City to compensate the City for revenues realized by the Contractor from the sale of Used Cans recycled by the Contractor during the first year of this Agreement. Such amount shall be paid to the City in four equal quarterly installments of \$500 each.

At the end of the first year of the program, the City and the Contractor will reevaluate the level and method of the Contractor's compensation of the City for recycling revenues and will agree in writing upon the terms of compensation to the City for recycling revenues after the first year of the program; provided, however, that such annual level of Contractor's compensation shall never be less than \$2,000.

The recycling program set forth herein may be altered, modified or amended at any time by the Commissioner of General Services upon giving the Contractor twenty-four (24) hours notice. The Commissioner of General Services, in his sole discretion, may at any time remove the Contractor from any participation in such recycling program. The Commissioner of General Services, at any time, may request the Contractor to develop a more comprehensive recycling program acceptable to the City. Upon reviewing such a request from the Commissioner of General Services, the Contractor shall prepare a more comprehensive program setting forth all action that the Contractor will undertake to meet the City's recycling goals.

The City shall have the right to inspect the Contractor's recycling operations upon reasonable notice.

Article 11.

The City intends to engage a management company experienced in the monitoring of vending machine operations ("Management Company") in order to monitor the Contractor's compliance with all terms of this Agreement. The Contractor shall cooperate with the Management Company and take whatever action is reasonably necessary to enable the

Management Company to fulfill its responsibilities to the City in accordance with the City's agreement with the Management Company.

In addition, the Management Company shall have all rights and privileges granted to the City and/or the Commissioner of General Services under this Agreement in connection with the monitoring of the Vending Machines, inspecting and reviewing the Contractor's financial statements and records relating to the Vending Machines and the sale of Merchandise from the Vending Machines, inspecting the installation, maintenance and repair of the Vending Machines, inspection of the Contractor's facilities, and inspections determined by the Commissioner of General Services to be necessary to determine the Contractor's compliance with all representations, warranties, covenants and obligations under this Agreement.

Article 12.

Term Of Agreement; Timeliness.

Section 1201. Term Of Agreement.

Unless sooner terminated or otherwise extended pursuant to this Agreement, this Agreement shall be for a term of five (5) years beginning on the Effective Date.

Section 1202. Timeliness Of Performance.

The Contractor shall provide the Vending Services and the Cafeteria Services to the Locations and the Police Department Cafeterias within the time limits required from time to time by the Commissioner of General Services. The Contractor acknowledges that sometimes deadlines for installation of the Vending Machines and furnishing the Vending Services or Cafeteria Services are dictated by the requirements of agencies or events outside of the control of the City, that failure by the Contractor to meet these deadlines may result in economic or other losses to the City, and that in those circumstances, time is of the essence.

Section 1203. No Damages For Delay.

The Contractor agrees that it shall make no claims against the City for damages, charges, additional costs or hourly fees for any lost profits or costs

incurred by reason of delays or hindrances by the City in the performance of its obligations under this Agreement.

Section 1204. Agreement Extension Option.

At the request of the Commissioner of General Services, the Purchasing Agent may elect to extend the term of this Agreement for three (3) additional periods of one year each ("Three-Year Period"). Such extensions, if any, shall be upon the same terms and conditions as this original Agreement. However, the Contractor shall have the right to reject an extension of the term of this Agreement if the Contractor notifies the Purchasing Agent of its rejection at least ninety (90) days prior to the expiration of the initial term of this Agreement or any extension thereof and states its unwillingness to agree to an extension under the same terms and conditions. Any extension beyond the Three-Year Period shall require the approval of the City Council of the City.

Section 1205. Removal Of Existing Vending Machines.

The City intends to cause the removal of existing vending machines from Locations in such a manner and at such times as will permit the Contractor to install Vending Machines in the Locations in accordance with the Vending Machine Installation Schedule and the Plan to be agreed upon as provided in Sections 405 and 1301 of this Agreement. In no event shall the City's failure to cause such removal result in any liability of the City to the Contractor. Such failure shall not relieve the Contractor of any of its obligations and responsibilities under this Agreement except that such failure shall postpone the responsibilities of the Contractor to install Vending Machines at Locations where the City has failed to remove existing vending machines. In such event, the Contractor's responsibilities to install Vending Machines at such Locations shall be postponed until the City can cause the removal of such existing vending machines.

Article 13.

Installation Procedures.

Section 1301. Approval Of Specific Locations By The Commissioner Of General Services.

Within thirty (30) days after the Effective Date, the Contractor shall submit to the Commissioner of General Services for his approval a list of the proposed

Locations and a schedule setting forth the number of Vending Machines which shall be installed each month ("Vending Machine Installation Schedule"). The Vending Machine Installation Schedule in the form attached hereto as (Sub)Exhibit 2, shall be deemed effective upon approval by the Commissioner of General Services. Any proposed deviation from previously approved plans and the Vending Machine Installation Schedule must also be submitted by the Contractor in a timely manner for approval by the Commissioner of General Services.

Prior to the installation of Vending Machines at a particular Location, the Contractor shall submit to the Commissioner of General Services for his approval a drawing showing the exact proposed position of each Vending Machine at that Location. (Sub)Exhibit 10 to this Agreement may be amended to add additional Potential Locations with the express written approval of the Commissioner of General Services; provided, however, in no event may any location be added to (Sub)Exhibit 10 if the provision of Vending Machines Services at such location would conflict with any prior legal arrangements of the City or would otherwise be legally precluded. In no event may any of the City's airports be added to (Sub)Exhibit 10 as Potential Locations.

Section 1302. Installation Procedures.

No Vending Machines or related facilities may be installed in any of the Potential Locations without prior approval of the Commissioner of General Services and the issuance of the required permits therefor, which permits shall indicate the time, manner and place of installing the Vending Machines. The Contractor shall submit to the Commissioner of General Services documents which set forth the specifications, standards and procedures for installation of the Vending Machines. Said specifications, standards and procedures shall be consistent with the highest standards of the vending industry and shall, at a minimum, establish procedures to ensure quality work and provide for the safety and protection of residents and property. Said documents shall be submitted to the Commissioner of General Services for review and approval prior to commencement of any installation of a Vending Machine and shall be modified as said Commissioner may require in the interest of public safety. If at any time it is determined by the City or other governmental authority, in its sole discretion and judgment, that any Vending Machine or any of the related Vending Services may be harmful to the health or safety of any person, then the Contractor shall, at its sole cost and expense, promptly correct the harmful situation to the satisfaction of the City or such governmental authority. Correction of the harmful condition may include removal of the Vending Machine.

Subject to the provisions of Section 1308 hereof, the Contractor shall pay all direct and indirect costs of installing the Vending Machines.

Section 1303. Use Of Existing Piping And Wiring.

The Contractor shall use existing piping, wiring and other facilities whenever economically and/or technically feasible and shall not construct or install any new, different or additional piping or wiring in the City for the Vending Machines without approval of the City and any other applicable governmental agency. The Contractor shall comply with all applicable safety standards in the installing of the Vending Machines. All piping and wiring associated with the installation of the Vending Machines must be installed "out of sight" and be accomplished in such a manner to conform with City requirements. The Contractor is responsible for inspecting all existing piping and wiring and confirming that it is safe and meets applicable requirements of the City Municipal Code. Any internal piping and wiring shall be installed by the City or its designated agent at the expense of the City.

Section 1304. Duty Of Care.

(a) The Contractor shall at all times exercise all reasonable care to avoid damage to and loss affecting City property, and the property of third parties in connection with the installation and maintenance of the Vending Machines. The City shall cooperate with and furnish the Contractor with any assistance which the Contractor may reasonably require and which is reasonably within the power of the City to furnish to minimize or prevent any such damage or loss. The Contractor shall obtain the prior consent of the Commissioner of General Services before proceeding with any installation or maintenance work necessitating cutting into or through any part of a structural element of a City building, including but not limited to girders, beams and concrete ceilings. Such consent by the Commissioner shall not be construed as approval by the City as to the methods used in such installation or maintenance work which may affect structural elements.

(b) The Contractor shall take all reasonable safety precautions and shall comply with all applicable provisions of federal, state and local laws, codes and regulations to prevent accidents or injury to persons on, about or adjacent to any of the vending Locations where installation work is being performed. The Contractor shall erect and properly maintain at all times all necessary safeguard barriers, flags and lights for the protection of the Contractor's and any Subcontractors' employees, City employees and the public.

(c) The Contractor shall take all reasonable and appropriate precautions in the performance of the Contractor's installation and maintenance work on, about, under or adjacent to the vending Locations to protect from damage all: (i) overhead and underground utilities and all other property that may be displaced or damaged during the performance of this Agreement; (ii) trees, shrubs, lawns and all landscape work; and (iii) adjacent streets, alleys, drives, paving, walks and curbs. The Contractor shall report to the City any damage on, about, under or adjacent to the vending Locations or other public property or the property of third persons resulting from the Contractor's performance of installation or maintenance work under this Agreement. Substantial or material damage to vending Locations, other City property, or to the property of third parties due, in whole or in substantial part, to the Contractor's performance of installation or maintenance work under this Agreement shall be the responsibility of the Contractor to repair or replace to a reasonably acceptable standard. Any action by the Contractor in connection with the installation of Vending Machines under this Agreement shall not interfere with the customary uses of or any specifically permitted or licensed uses of any public areas.

(d) On a daily basis during any installation or maintenance of a Vending Machine, the Contractor shall clean up and properly dispose of refuse and waste materials in, or under or about the vending Locations or other City property or the property of third parties resulting from the installation or maintenance work by the Contractor. Upon completion of the Contractor's installation or maintenance work, the Contractor shall clean up and properly dispose of all refuse, waste and surplus materials resulting from such installation or maintenance work pursuant to this Agreement. Upon the Contractor's failure to commence performance of the tasks described in this Section within two (2) business days after receiving notification in writing by the City's Program Manager of the Contractor's failure to do so, the City may arrange to have such work performed by City employees or third parties and may charge to the Contractor the actual, direct cost thereof to the City; provided, however, that any disputes regarding the propriety or amount of such charges shall be subject to the dispute resolution procedures set forth in Section 1502 of this Agreement. The Contractor shall also be responsible for all "housekeeping" chores related to maintenance of the Vending Machines, including enclosures. Such responsibilities shall include maintaining a suitable appearance, general cleaning, removal of common graffiti, and repair of enclosure equipment.

Section 1305. Restoration.

In the event of disturbance of the vending Locations, other City property, or private property by the Contractor or its agents, the Contractor shall, at its own expense and in a manner approved by the City or other appropriate governmental authority and/or the owner of such private property, rebuild, restore and repair such public and/or private property, so that it is in as good

a condition as before the work causing such disturbance was done. In the event that the Contractor fails to perform such rebuilding, replacement or restoration within 2 days after notice of the disturbance, the City or the owner shall have the right to do so at the sole expense of the Contractor.

Section 1306. Other Requirements And Approvals.

Issuance of any required permit by the City as to the installation or maintenance of a Vending Machine pursuant to this Agreement does not waive other applicable requirements of federal or Illinois law or the Code, and the Contractor shall comply with such other requirements.

Section 1307. Cooperation.

(a) The City agrees to provide reasonable cooperation and assistance where necessary in order for the Contractor to perform its obligations under this Agreement.

(b) The City shall use reasonable efforts to: (i) secure the cooperation of City personnel so that the Contractor's maintenance and installation work may be done in a timely and efficient manner; (ii) relocate or remove as appropriate and as reasonably necessary items of movable property such as furniture, wall hangings, drapes, carpets, boxes, supplies, and any other items that may impede or prevent the timely and efficient completion of the installation or maintenance work; (iii) coordinate any necessary arrangements with other City contractors working in the Locations where Vending Machines are to be located which may affect the Contractor's performance under this Agreement; and (iv) perform or assist the Contractor in performing such other site preparation requirements as the Commissioner of General Services and the Contractor agree are necessary or desirable for the timely and efficient performance of this Agreement.

Section 1308. City To Supply Electricity.

The City, at its expense, shall supply necessary outlets for electricity and water for the Vending Machines. The City shall pay all utility costs and water bills in connection with supplying electricity and water to the Vending Machines. The Contractor shall identify to the City in advance such requirements concerning electricity and water. Nothing in this Section shall relieve the Contractor from its obligations to pay the costs of installing the Vending Machines as set forth in Section 1302 of this Agreement.

Section 1309. Installation Standards.

The Contractor shall install, operate and maintain Vending Machines in accordance with the following standards: (i) applicable requirements of the Code; (ii) applicable written standards of the City's Department of Public Works and the City's Department of Buildings; (iii) the standards set forth in the National Electric Code; (iv) requirements of the R.F.P. and the Proposal; (v) applicable manufacturer's specifications; and (vi) the Contractor's standard operating practices and procedures. To the extent that these standards are inconsistent or in conflict, the Commissioner of General Services and the Contractor shall use reasonable efforts to resolve such inconsistencies or conflicts in accordance with this Agreement. All Vending Machines installed by the Contractor under this Agreement shall also comply with all applicable federal, state and local laws, regulations, decrees, orders and judgments.

Section 1310. Licenses And Permits.

The Contractor shall bear responsibility for and, in a timely manner consistent with its obligations under this Agreement, shall secure and maintain at its expense such permits, licenses, authorizations and approvals as are necessary for the installation, operation and maintenance of the Vending Machines and the operation of the Police Department Cafeterias.

Section 1311. Schedule Of Installation.

The Contractor shall install the Vending Machines in accordance with the schedule to be submitted by the Contractor within thirty (30) days after the Effective Date as set forth in Section 1301 of this Agreement.

The City's Program Manager and the Contractor's Program Manager shall cooperate in arranging reasonable access and the right to use building amenities for the Contractor's personnel at all vending Locations as may be required for the purpose of performing under this Agreement. The City is not obligated to provide access at such time and in such locations as the City may determine shall unduly interfere with the public safety or public business. Any dispute over access shall be resolved pursuant to Section 1502 of this Agreement.

Section 1314. Inspection.

The City reserves the right to inspect all facilities and equipment related to the Vending Machines throughout the duration of this Agreement.

Article 14.

Bond Or Letter Of Credit; Insurance.

Section 1401. Payment And Performance Bond.

On or prior to the Effective Date, the Contractor shall obtain a bond running to the City, with a good and sufficient corporate surety, approved by the City Comptroller and the City's Corporation Counsel with a minimum amount of One Hundred Fifty Thousand Dollars (\$150,000). Said bond shall be conditioned upon the faithful performance and discharge of the obligations imposed in this Agreement on the Contractor and shall insure the cost of removal of any or all of the Vending Machines at any time the City determines the need for removal. The City's right to recover under the bond shall be in addition to any other rights it may have pursuant to this Agreement or under law. Any proceeds recovered under the Bond may be used to reimburse the City for loss of payment of amounts to be paid by the Contractor pursuant to this Agreement, including principal and overdue interest, if any, and other valuable consideration given pursuant to this Agreement, and to pay or reimburse the City for such additional expenses as may accrue or be incurred by the City as a result of the Contractor's failure to comply with this Agreement including, but not limited to, attorneys' fees and the cost of any action or proceeding or judgment against the City, the cost of removal of Vending Machines and any auditing costs and fees. For the City to recover from the surety or from the Contractor under this Section for removal of any of the Vending Machines it is not necessary that the City

first perform such work. The Commissioner of the Department of Public Works of the City is hereby authorized to determine the cost of performing said removal and the restoration of the applicable City Facilities and his decision as to the amount shall be final and binding.

Section 1402. Letter Of Credit.

In lieu of the bond described in Section 1401 and at the request of the Commissioner of General Services, the Contractor shall provide the City with a letter of credit in the principal amount of One Hundred Fifty Thousand Dollars (\$150,000) in the form set forth in (Sub)Exhibit 7. Said letter of credit shall be provided for the length of this Agreement and shall provide for the right of the City to draw thereon if terminated prior to the termination date of this Agreement. Said letter of credit shall be used to ensure the faithful performance by the Contractor of all provisions of this Agreement and compliance with all orders, permits and directions of any agency, commission, board, department, division or office of the City having jurisdiction over the Contractor's acts or defaults under this Agreement and for payment by the Contractor of any Commissions, penalties, liens, claims and taxes due the City which arise by reason of the installation, operation or maintenance of the Vending Machines or the operation of the Police Department Cafeterias. Said letter of credit shall provide that upon notice by the City to the issuer thereof that the Contractor has failed to pay to the City any Commissions due the City within the time fixed in this Agreement; or has failed to repay the City within ten (10) days any damages, expenses or costs which the City is compelled to pay by reason of the Contractor's act or omission to act in connection with this Agreement; or has failed after three (3) days notice of such failure to comply with any provisions of this Agreement which the Commissioner of General Services has reasonably determined can be remedied by a draw on the letter of credit, the City may immediately draw up to the amount thereof, with interest and penalties, if any, under the letter of credit. Upon such request for payment, the City shall notify the Contractor of the amount and date thereof. If amounts are drawn under the letter of credit, the Contractor shall take such actions as may be necessary to maintain such letter of credit at the full required amount within three (3) days of notification by the City of its drawing against such letter of credit. The rights reserved to the City under such letter of credit shall be in addition to any rights it may have pursuant to this Agreement or under law.

Section 1403. Qualified Companies.

The bond or the letter of credit called for in this Agreement shall be issued by a company or financial institution authorized to do business in Illinois and satisfactory to the City Comptroller. The bond or the letter of credit

shall be in form and substance satisfactory to the Corporation Counsel of the City and if a letter of credit, shall be in the form set forth in (Sub)Exhibit 7.

The bond or letter of credit shall contain a covenant or endorsement of the surety or the issuer of the letter of credit, as the case may be, to provide sixty (60) days written notice by registered mail of such surety's or issuer's intention to terminate, substantially change, or not to renew such bond or letter of credit to both the Corporation Counsel of the City and the Contractor, and the Contractor shall, in the event of any such notice, obtain, pay premiums for, and file with the City Comptroller written evidence of the issuance of a replacement bond or letter of credit to the proposed effective date of such termination, substantial change or nonrenewal.

Failure to carry or keep such bond or letter of credit in force throughout the period set forth in Section 1402 shall constitute a material breach of this Agreement. Notwithstanding anything to the contrary, any bond issued in satisfaction of Section 1401 or letter of credit issued in satisfaction of Section 1402 of this Agreement shall provide that termination, nonrenewal or substantial change of such bond or letter of credit shall not become effective until a replacement bond or letter of credit has been approved by the Corporation Counsel of the City and coverage thereunder has begun. Any letter of credit provided to the City in satisfaction of Section 1402 shall provide that, upon notice of termination, nonrenewal or substantial change, the City shall be entitled to draw thereon ten days prior to the effective date of such termination, nonrenewal or substantial change unless a replacement letter of credit has been approved by the City's Corporation Counsel and delivered to the City prior to such draw date. The City also reserves the right to stop any work related to the carrying out of this Agreement until proper evidence of bond or letter of credit is furnished.

Section 1404. Right To Require Replacement Of Bond Or Letter Of Credit.

If the financial condition of any bonding company or letter of credit issuer issuing a performance bond or letter of credit pursuant to Section 1401 or Section 1402 of this Agreement materially and adversely changes, the City may, at any time, require that such bond or letter of credit be replaced with such other bond or letter of credit consistent with the requirements set forth in this Article.

Section 1405. Alteration.

The Contractor shall not materially change or alter the terms or conditions of the bond or letter of credit referred to herein or replace or

cancel said bond or letter of credit without prior approval of the Corporation Counsel of the City.

Section 1406. No Excuse From Performance.

None of the provisions contained herein or in the bond or letter of credit required herein shall be construed to excuse the faithful performance by the Contractor of the terms and conditions of this Agreement or limit the liability of the Contractor under this Agreement for any and all damages in excess of the amounts of such performance bond or letter of credit.

Section 1407. Insurance Coverage.

The Contractor shall procure at the Contractor's sole expense and maintain at all times during the term of this Agreement the types of insurance specified below, with insurance companies authorized to do business in the State of Illinois covering all operations under this Contract, whether performed by the Contractor or by Subcontractors.

The insurance hereinbefore specified shall be carried at all times during the term of this Agreement. Failure to carry or keep such insurance in force shall constitute a violation of this Agreement, and the City maintains the right to suspend the Contractor's performance and rights under this Agreement until proper evidence of insurance is provided.

The insurance shall provide for 60 days prior written notice to be given to the City in the event that coverage is substantially changed, cancelled, or non-renewed.

The Contractor shall require all Subcontractors to carry the insurance required herein, or the Contractor may provide the coverage for any or all Subcontractors, and, if so, the evidence of insurance submitted shall so stipulate.

The Contractor expressly understands and agrees that any insurance protection furnished by the Contractor hereunder shall in no way limit its responsibility to indemnify and save harmless the City under the indemnity provisions of this Agreement.

The City maintains the right to modify, delete, alter or change these insurance requirements.

Under no circumstances shall the City have any liability or obligation to the Contractor in connection with the operations referred to in this Section.

Section 1603. Material Underpayment Or Nonpayment.

In the event that the independent audit provided for in Section 402(f) of this Agreement determines that, or it is otherwise determined that, the Contractor made underpayments in any month which exceeded five percent (5%) of the amount due in said month, or in the event that the Contractor fails to make any payments on the date due, the Contractor shall pay, in addition to the amount due the City, interest thereon compounded daily at the rate of one hundred and fifty percent (150%) of the corporate base rate as computed daily by the First National Bank of Chicago. - (7) Any other acts specifically and expressly stated in this Agreement as constituting an event of default; and
- (8) Any change in ownership or control of the Contractor without the prior written approval of the Purchasing Agent, which shall not be unreasonably withheld.

Section 1702. Remedies.

The occurrence of any event of default which the Contractor has failed to cure within thirty (30) calendar days after receipt of notice given in accordance with the terms of this Agreement and specifying the event of default or which, if such event of default cannot be reasonably cured within thirty (30) calendar days after notice, the Contractor has failed, in the sole opinion of the City, to commence and continue diligent efforts to cure, may, at the sole option of the City, permit the City to declare the Contractor in default. Whether to declare the Contractor in default is within the sole discretion of the Purchasing Agent and neither that decision nor the factual basis for it is subject to review or challenge under the Disputes Resolution provisions of this Agreement. Written notification of the default, and any intention of the Purchasing Agent to terminate this Agreement, shall be provided to the Contractor, and such decision shall be final and effective upon the Contractor's receipt, as defined herein, of such notice. Upon the occurrence of an event of default hereunder, the City may elect not to declare a default or to terminate this Agreement. The parties acknowledge that this provision is solely for the benefit of the City and that if the City permits the Contractor to continue to provide the Services despite

one or more events of default, the Contractor shall in no way be relieved of any of its responsibilities, duties or obligations under this Agreement nor shall the City waive or relinquish any of its rights.

The remedies under the terms of this Agreement are not intended to be exclusive of any other remedies provided, but each and every such remedy shall be cumulative and shall be in addition to any other remedies, existing now or hereafter, at law, in equity or by statute. No delay or omission to exercise any right or power accruing upon any event of default shall impair any such right or power nor shall it be construed as a waiver of any event of default or acquiescence therein, and every such right and power may be exercised from time to time and as often as may be deemed expedient.

Section 1703. Termination For Convenience.

In addition to termination pursuant to Section 1702 hereof, the City's Program Manager may terminate this Agreement, or all or any portion of the Services to be performed under it, at any time by a notice in writing from the City to the Contractor. If the City elects to terminate this Agreement in full, all Services to be provided hereunder shall cease effective ten (10) days after the notice is deemed to have been given in accordance with Section 1910 of this Agreement if no date is given or upon the effective date stated in the notice. Payment to the City of Commissions accrued before the effective date of the termination shall be paid on the same basis as set forth in Sections 402(h) and 1601 hereof. The amount of Commissions so accrued shall be mutually agreed upon by the City and the Contractor and, if not agreed to, the dispute shall be settled in accordance with Section 1502 of this Agreement.

Section 1704. Suspension.

The City may at any time request that the Contractor suspend its Services, or any part thereof, by giving fifteen (15) days prior written notice to the Contractor or upon no notice in the event of emergency. The Contractor shall promptly resume its performance of such Services under the same terms and conditions as stated herein upon written notice by the Purchasing Agent and such equitable extension of time as may be mutually agreed upon by the Purchasing Agent and the Contractor when necessary for continuation or completion of Services. No suspension of this Agreement shall in the aggregate exceed a period of 45 days within any one contract year. If the total number of days of suspension exceeds 45 days in any contract year, the Contractor by written notice may treat such suspension as a termination of this Agreement for convenience.

- (c) That the Contractor shall not knowingly use the services of any ineligible contractor or consultant for any purpose in its performance under this Agreement; and
- (d) That the Contractor and its Subcontractors are not in default at the time of the execution of this Agreement, or deemed by the Purchasing Agent to have, within five years immediately preceding the date of this Agreement, been found to be in default under any contract awarded by the City; and
- (e) That the Contractor has carefully examined and analyzed the provisions and requirements of this Agreement; that it understands the nature of its obligations hereunder; that, from its own analysis, it has satisfied itself as to the nature of all things needed for the performance of this Agreement, the general and special conditions, and all other matters which in any way may affect this Agreement or its

performance; that the time available to it for such examination, analysis, and preparation was adequate; and that it was permitted access to any person or information in connection with its preparation of the Proposal; and

(f) That this Agreement is feasible of performance in accordance with all of its provisions and requirements and that the Contractor can and shall perform, or cause to be performed, such obligations in strict accordance with the provisions and requirements of this Agreement; and

(g) That, except only for those representations, statements, or promises expressly contained in this Agreement, including any (Sub)Exhibits and Attachments attached hereto and incorporated by reference herein, no representation, statement or promise, oral or in writing, or of any kind whatsoever, by the City, its officials, agents, or employees, has induced the Contractor to enter into this Agreement or has been relied upon by the Contractor, including any with reference to: (i) the meaning, correctness, suitability or completeness of any provisions or requirements of this Agreement; (ii) the nature of the Services to be performed; (iii) the nature, quantity, quality or volume of any materials, equipment, labor and other facilities, needed for the performance of this Agreement; (iv) the general conditions which may in any way affect this Agreement or its performance; (v) the compensation provisions of this Agreement; or (vi) any other matters, whether similar to or different from those referred to in clauses (i) through (v) immediately above, affecting or having any connection with this Agreement, the negotiation hereof, any discussions hereof, the performance hereof or those employed in connection herewith; and

(h) That the Contractor was given ample opportunity and time and was requested by the City to review thoroughly all documents forming this Agreement prior to execution of this Agreement in order that it might request inclusion in this Agreement of any statement, representation, promise or provision which it desired or on which it wished to place reliance; that it did so review those documents, and that either every such statement, representation, promise or provision has been included in this Agreement or else, if omitted, that the Contractor expressly hereby relinquishes the benefit of any such omitted statement, representation, promise or provision and is willing to perform this Agreement in its entirety without claiming reliance thereon or making any other claim on account of such omission; and

(i) That the Contractor and, to the best of its knowledge, its Subcontractors are not in violation of the provisions of Section 2-92-320 of the Code. Section 2-92-320 of the Code states, in pertinent part, that, except as provided for therein, no person or business entity shall be awarded a contract or subcontract if that person or business entity or an affiliated entity thereof (as defined in Chapter 2-92 of the Code): (i) had

Ineligibility under Section 2-92-320 of the Code shall continue for three years following such conviction or admission. For purposes of Section 2-92-320 of the Code, when an official, Agent or employee of a business entity has committed any offense under such section on behalf of such an entity and pursuant to the direction or authorization of a responsible official thereof, the business entity shall be chargeable with the conduct. In connection herewith the Contractor has executed a Certification as required under the Illinois Criminal Code, Ill. Rev. Stat. Ch. 24, Par. 11-42.1-1 (1989) (1990 Supp.) which is attached hereto as (Sub)Exhibit 5 and incorporated by reference as if fully set forth here. Prior to entering into any contractual relationship with any third party in order to perform under this Agreement, the Contractor shall conduct a diligent investigation in order to determine compliance with this Section. If after the Contractor enters into such a contractual relationship it is determined that such contractual relationship is in violation of this subsection, the Contractor shall immediately cease to use such third party in performing under this Agreement. In all cases in which the Contractor enters into a contractual relationship with such third parties, the terms of such contract shall provide that the Contractor shall be entitled to recover all payments made by the Contractor to such third party if prior to or subsequent to the beginning of such contractual relationship the use of such third party in order to perform under this Agreement would be violative of this subsection; and

(j) That the Contractor acknowledges that the City, in its selection of the Contractor to perform hereunder, materially relied upon the Proposal and the Contractor's oral presentation; that the aforesaid information was accurate at the time it was made; that except as affected by this Agreement, no material changes in it have been or will be made without the express consent of the City; and that the City relied among other things during negotiations for this Agreement on the Contractor's statements and representations that the Contractor holds itself to very high standards of quality and professionalism as a provider of cafeteria and vending machine services; and

(k) That it shall be the duty of the Contractor and all Subcontractors and all officers, directors, agents, partners, and employees of the Contractor and all Subcontractors to cooperate with the Inspector General of the City in any investigation or hearing undertaken pursuant to Chapter 2-56 of the Code. The Contractor understands and

will abide by all provisions of Chapter 2-56 of the Code. The Contractor shall inform all its Subcontractors of this provision and require understanding and compliance herewith.

Section 1802. Business Documents And Disclosure Of Ownership Interests.

The Contractor shall further cause its Subcontractors or, if a partnership or joint venture, all members of the partnership or joint venture, to submit all such documents to the City.

Section 1803. Non-Liability Of Public Officials.

No official, employee or agent of the City shall be charged personally by the Contractor, or by any assignee or Subcontractor of the Contractor, with any liability or expense of defense or be held personally liable to them under any term or provision of this Agreement, or because of the City's execution or attempted execution, or because of any breach hereof.

Section 1804. Incorporation.

This Agreement and the Exhibits and Attachments attached to this Agreement are incorporated into this Agreement by this reference and are collectively referred to as the "Contract Documents" and constitute the entire and exclusive agreement between the Parties with respect to the subject matter of the Contract Documents and supersede all prior communications and negotiations, whether written or oral.

Section 1805. Independent Contractor Status.

This Agreement is not intended to and will not constitute, create, give rise to, or otherwise recognize a joint venture, partnership, corporation or other formal business association or organization of any kind between the Parties, and the rights, and the obligations of the Parties shall be only those

expressly set forth in this Agreement. The Contractor shall perform under this Agreement as an independent contractor to the City and not as a representative, employee, agent, or partner of the City.

Section 1806. Conflict Of Interest.

This Agreement is subject to, and the Contractor shall comply with, all requirements of, and avoid engaging in any acts or conduct which would result in or entice any third party to commit a violation of Chapter 2-156 of the Code.

No member of the governing body of the City or other unit of its government and no other official, officer, employee or agent of the City or other unit of its government shall have any personal, financial, or economic interest, in this Agreement, or economic interest, direct or indirect, in this Agreement, or any subcontract resulting herefrom.

Section 1807. Anti-Apartheid Covenant.

The Contractor has executed the appropriate Anti-Apartheid Affidavit (the "Affidavit") attached to this Agreement as (Sub)Exhibit 6 and incorporated into this Agreement by reference. The Contractor understands and acknowledges that the City may declare a default and terminate all existing contracts with the Contractor and may terminate this Agreement if the Contractor violates any provision of Chapter 3-68 of the Code (as applicable), including but not limited to (i) a violation of the certifications contained in the Affidavit; (ii) the concealment of an existing contractual relationship or entering into a contractual relationship with (A) South Africa, (B) a South African business, or (C) any business or corporation for the express purpose of assisting operations in, or trading with any private or public entity located in South Africa; and (iii) the sale to the City of goods principally manufactured, produced, assembled, grown or mined in South Africa. This right of termination is supplemental to any other remedy which the City may have under this Agreement, at law or in equity, and shall entitle the City to direct, indirect, special and consequential damages and any other applicable legal or equitable remedy.

Further, the Contractor understands and acknowledges that any person who violates any provision of Chapter 3-68 of the Code shall be subject to a fine of not less than \$500 and not more than \$1,000 for each offense. Every day that the violation continues shall constitute a separate and distinct offense. This fine shall be in addition to the remedy of termination enumerated above, and any other remedy available under applicable law. The Contractor shall include this provision in all contracts with Subcontractors.

Section 1808. Nondiscrimination.

The Contractor, in performing under this Agreement, shall not discriminate against any worker, employee or applicant, or any member of the public, because of race, color, religion, age, sex, sexual orientation, mental or physical disability unrelated to ability to perform, creed, citizenship, national origin, ancestry, marital status, parental status, military discharge status and source of income, nor otherwise commit an unfair employment practice. The Contractor shall take affirmative action to ensure that applicants are employed and that employees are treated without regard to their race, color, religion, age, sex, sexual orientation, mental or physical disability unrelated to ability to perform, creed, citizenship, national origin, ancestry, marital status, parental status, military discharge status, or source of employment, during employment. Such action shall include, but not be limited to the following: employment, upgrading, demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices setting forth the provisions of this nondiscrimination clause.

Attention is called to Executive Order 11246 issued September 24, 1965, 30 F.R. 12319, as modified by Executive Order 11375 issued October 13, 1967, 32 F.R. 14303 and Executive Order 12086 issued October 5, 1978, 43 F.R. 46501 and as further amended by Federal Reorganization Plan No. 2 of 1978, Section 102, 43 F.R. 36037, 5 U.S.C. App. 1 (1981); to the Civil Rights Act of 1964, 42 U.S.C. 2000 et seq. (1988), as amended; to the Americans with Disabilities Act of 1990; to the Chicago Human Rights Ordinance (Municipal Code of Chicago, Ch. 2-160), as amended; and the provisions of 41 C.F.R. Chapter 60 (1988).

To demonstrate compliance, the Contractor shall furnish and shall cause each of its Subcontractor(s) to furnish such reports and information as is requested by the Chicago Commission on Human Rights.

In addition, the Contractor shall comply with the provisions of the Illinois Human Rights Act, Ill. Rev. Stat. Ch. 68, Par. 1-101, et seq. (1989), as amended, and the rules, regulations and orders of the Department of Human Rights and orders of the Illinois Human Rights Commission. In the event that the Contractor fails to comply, it may be declared ineligible for future contracts with the State of Illinois and the City, and this Agreement may be cancelled, or voided in whole or in part, and other sanctions or penalties may be imposed or remedies invoked by statute, regulation or order.

Section 1809. Minority- And Women-Owned Business Enterprises.

The Contractor shall not discriminate on the basis of race, color, national origin, sex, creed, religion, age, sexual orientation, ancestry, citizenship, handicap, disability, marital status, parental status, or military discharge status in employment, the selection and retention of Subcontractors, if any, or in the procurement or leasing of materials or equipment. The Contractor shall include the provisions of this section in every subcontract, if any, relating to this Agreement including procurement or leasing of material or equipment. In addition, the Contractor agrees that, in the performance of this Agreement, in every year that this Agreement remains in effect, including any optional extension period pursuant to Section 1204 hereof, it shall abide by the "Special Conditions Regarding Minority Business Enterprise Commitment and Women's Business Enterprise Commitment" ("M.B.E./W.B.E. Special Conditions") in effect for the first year of this Agreement. Every year that this Agreement is in effect, thirty (30) days prior to the anniversary of the Effective Date, Contractor shall submit to the City revised and updated Schedules C-1 and D-1 evidencing compliance with the M.B.E./W.B.E. Special Conditions in the one year period immediately following the anniversary. For the purpose of (Sub)Exhibit 3, the word, "Contractor" shall be deemed to have the same meaning as the word "Contractor" in this Agreement. The Contractor shall submit its schedules for Subcontractors, if any, promptly upon completion. The Contractor's completed schedules evidencing its compliance hereunder shall be and become a part of this Agreement, in (Sub)Exhibit 3, upon acceptance by the Purchasing Agent. Notwithstanding such acceptance, the Contractor shall utilize minority and women's business enterprises at the greater of (1) 25% and 5% of the Total Contract Price as defined in the M.B.E./W.B.E. Special Conditions or (2) those amounts listed in Schedules C-1 and D-1 as approved by the Purchasing Agent.

Section 1810. Indemnification.

The Contractor agrees to defend, indemnify, keep and hold harmless the City, its officers, officials, agents and employees, from and against any and all liabilities, losses, deaths, damages, costs, payments and expenses of every kind and nature (including court costs and reasonable attorneys' fees and disbursements) as a result of claims, demands, actions, suits, proceedings, judgments or settlements, which in any way arise out of or in any way relate to the Contractor's performance or non-performance of this Agreement or enforcement hereof, including but not limited to, the enforcement of this indemnification provision upon notice from the Contractor of any claim or liability which the Contractor believes to be covered under this provision. The Contractor shall defend all suits brought upon all such claims and shall pay all costs and expenses incidental thereto, but the City shall have the right, at its option, to participate in the defense of any suit, without relieving

the Contractor of any of its obligations under this Agreement. The indemnities contained in this Section shall survive expiration or termination of this Agreement. The Contractor expressly understands and agrees that the requirements set forth in this Section to indemnify, keep and save harmless and defend the City are apart from and not limited by the Contractor's responsibility to obtain insurance pursuant to Section 1407 of this Agreement or to provide a bond or letter of credit pursuant to Sections 1401 or 1402 of this Agreement.

Section 1811. Subcontracts And Assignments.

The Contractor shall not assign, delegate or otherwise transfer all or any part of its rights or obligations under this Agreement or any part hereof, unless otherwise provided for herein or without the express written consent of the Purchasing Agent and the Commissioner of General Services. The absence of such provision or written consent shall void the attempted assignment, delegation or transfer and shall be of no effect as to the services to be provided under this Agreement or this Agreement. The City expressly reserves the right to assign or otherwise transfer all or any part of its interests hereunder.

All subcontracts and all approvals of Subcontractors and any assignment to which the Commissioner of General Services and the Purchasing Agent consent shall be, regardless of their form, deemed conditioned upon performance by the Subcontractor or assignee in accordance with the terms and conditions of this Agreement; and if any Subcontractor or assignee shall fail to observe or perform the terms and conditions of this Agreement to the satisfaction of the Commissioner of General Services, the City shall have the absolute right upon written notification to rescind approval forthwith and to require the performance of this Agreement by the Contractor itself or by any other City-approved Subcontractor or assignee. Any approval for the use of Subcontractors or assignees in the performance of the Services under this Agreement shall under no circumstances operate to relieve the Contractor of any of its obligations or liabilities hereunder.

The Contractor, upon entering into any agreement with a Subcontractor, shall furnish the Purchasing Agent with five copies thereof. All subcontracts shall contain provisions that require the services to be performed in strict accordance with the requirements of this Agreement and shall provide that the Subcontractors are subject to all the terms of this Agreement, and are subject to the approval of the Commissioner of General Services and the Purchasing Agent. Provided that such agreements do not prejudice any of the City's rights under this Agreement, such agreements may contain different provisions than are provided herein with respect to extensions of schedule, time of completion, payments, guarantees and matters not affecting the quality of the Services to be provided under this Agreement.

Section 1812. Anti-Scofflaw. Contractor Acknowledges And Agrees:

- (i) In accordance with Section 2-92-380 of the Municipal Code of Chicago and in addition to any other rights and remedies (including any of set-off) available to the City under the Agreement or permitted at law or in equity, the City shall be entitled to set off a portion of the contract price or compensation due under the Agreement in an amount equal to the amount of the fines and penalties for each outstanding parking violation complaint and/or the amount of any debt owed by Contractor to the City. For purposes of this section, "outstanding parking violation complaint" means a parking ticket, notice of parking violation, or parking violation complaint in which no payment has been made or appearance filed in the Circuit Court of Cook County within the time specified on the complaint. "Debt" means a specified sum of money owed to the City for which the period granted for payment has expired.
- (ii) Notwithstanding the provisions of subsection (i), above, no such debt(s) or outstanding violation complaint(s) shall be set off from the contract price or compensation due under the contract if one or more of the following conditions are met: (1) the Contractor has entered into an agreement with the Department of Revenue, or the other appropriate City department, for payment of all outstanding parking complaints and/or debts owed to the City and Contractor is in compliance with the agreement; or (2) the Contractor is contesting the liability for or the amount of the debt in pending administrative or judicial proceedings; or (3) the Contractor has filed a petition in bankruptcy and the debts owed the City are dischargeable in bankruptcy.

If any action is brought by the Contractor against the City concerning this Agreement, the action shall only be brought in those courts located within the County of Cook, State of Illinois.

Section 1906. Severability.

If any provision of this Agreement shall be held or deemed to be or shall in fact be inoperative or unenforceable as applied in any particular case in any jurisdiction or in all cases because it conflicts with any other provision or provisions hereof or of any constitution, statute, ordinance, rule of law or public policy, or for any other reason, such circumstances shall not have the effect of rendering the provision in question inoperative or unenforceable in any other case or circumstance, or of rendering any other provision or provisions herein contained invalid, inoperative, or unenforceable to any extent whatever. The invalidity of any one or more phrases, sentences, clauses or sections contained in this Agreement shall not effect the remaining portions of this Agreement or any part hereof.

Whenever under this Agreement the City by a proper authority waives performance by the Contractor in any respect or waives a requirement or condition to either the City's or the Contractor's performance, the waiver so granted, whether express or implied, shall only apply to the particular instance and shall not be deemed a waiver forever or for subsequent instances of the performance, requirement or condition. No such waiver shall be construed as a modification of this Agreement regardless of the number of times the City may have waived the performance, requirement or condition.

*Special Conditions Regarding Minority Business
Enterprise Commitment And Women
Business Enterprise Commitment
(Including Schedules
C-1 And D-1).*

I. Policy And Terms.

A. It is the policy of the City of Chicago that Local Businesses certified as Minority Business Enterprises (M.B.E.) and Women Business Enterprises (W.B.E.) in accordance with Section 26-101-116 of the Municipal Code of the City of Chicago and Regulations Governing Certification of Minority- and Women-owned Businesses shall have the maximum opportunity to participate fully in the performance of this agreement.

B. Accordingly, the contractor commits to expend at least the following percentages of the total contract price (inclusive of any and all modifications and amendments), if awarded, for contract participation by M.B.E.s and W.B.E.s:

Year Advertised	M.B.E. Percentage	W.B.E. Percentage
1990	25%	5%
1991	21.1%	5%
1992	19.5%	4.9%
1993	17.7%	4.8%
after 1993	16.9%	4.5%

C. This commitment may be met by the contractor's status as a M.B.E. or W.B.E., or by a joint venture with one or more M.B.E.s or W.B.E.s as prime contractor (to the extent of the M.B.E. or W.B.E. participation in such joint venture), or by subcontracting a portion of the work to one or more M.B.E.s or W.B.E.s, or by the purchase of materials used in the performance of the

contract from one or more M.B.E.s or W.B.E.s, or by the indirect participation of M.B.E.s or W.B.E.s in other aspects of the contractor's business (but no dollar of such indirect M.B.E. or W.B.E. participation shall be credited more than once against a contractor's M.B.E. or W.B.E. commitment with respect to all contracts of such contractor), or by any combination of the foregoing.

D. As noted above, the contractor may meet all or part of this commitment by contracting with M.B.E.s or W.B.E.s for the provision of goods or services not directly related to the performance of this contract. However, the contractor shall, in determining the manner of M.B.E./W.B.E. participation, first consider involvement of M.B.E.s/W.B.E.s as joint venture partners, subcontractors, and suppliers of goods and services directly related to the performance of this contract. In appropriate cases, the Purchasing Agent will require the contractor to demonstrate the specific efforts undertaken by it to involve M.B.E.s and W.B.E.s directly in the performance of this contract.

E. The contractor also may meet all or part of this commitment through credits received pursuant to Section 2-92-530 of the Municipal Code of the City of Chicago for the voluntary use of M.B.E.'s or W.B.E.'s in private sector projects.

II. Definitions.

A. "Minority Business Enterprise" or "M.B.E." means a firm awarded certification as a minority-owned and controlled business in accordance with City ordinances and regulations.

B. "Women Business Enterprise" or "W.B.E." means a firm awarded certification as a women-owned and controlled business in accordance with City ordinances and regulations.

C. "Directory" means the Directory of Certified "Disadvantaged Business Enterprises", "Minority Business Enterprises" and "Women Business Enterprises" maintained and published by the Contract Compliance Administrator. The Directory identifies firms that have been certified as M.B.E.s and W.B.E.s, and includes both the date of their last certification and the area of specialty in which they have been certified. Contractors are responsible for verifying the current certification status of all proposed M.B.E. and W.B.E. firms.

D. "Area of Specialty" means the description of a M.B.E. or W.B.E. firm's business which has been determined by the Purchasing Agent to be most reflective of the M.B.E. or W.B.E. firm's claimed specialty or expertise. Each M.B.E./W.B.E. letter of certification contains a description of their Area of

Specialty. This information is also contained in the Directory. Credit toward this contract's M.B.E. and W.B.E. participation goals shall be limited to the participation of firms performing within their Area of Specialty.

Notice: The City does not make any representation concerning the ability of any M.B.E./W.B.E. to perform work within their Area of Specialty. It is the responsibility of all contractors to determine the capability and capacity of M.B.E.s/W.B.E.s to satisfactorily perform the work proposed.

E. "Joint Venture" means an association of two or more businesses to carry out a single business enterprise for profit, and for which purpose they combine their expertise, property, capital, efforts, skill and knowledge. Contractors may develop joint venture agreements as an instrument to provide participation by M.B.E.s and W.B.E.s in contract work. A joint venture seeking to be credited for M.B.E./W.B.E. participation may be formed among M.B.E./W.B.E. firms or between M.B.E./W.B.E. firm(s) and non-M.B.E./W.B.E. firm(s), as long as an M.B.E. or W.B.E. is a partner of the joint venture prime.

A joint venture is eligible for M.B.E./W.B.E. credit if the M.B.E./W.B.E. partner(s) share in the ownership, control, management responsibilities, risks and profits of the joint venture, and are responsible for a clearly defined portion of work to be performed, in proportion with the M.B.E./W.B.E. ownership percentage.

F. "Contract Compliance Administrator" means the officer appointed pursuant to Section 26-108 of the Municipal Code of the City of Chicago.

III. Counting M.B.E./W.B.E. Participation Toward The Contract Goals.

A. The inclusion of any M.B.E. or W.B.E. in the contractor's M.B.E./W.B.E. Utilization Plan shall not conclusively establish the contractor's right to full M.B.E./W.B.E. credit for that firm's participation in the contract.

B. The Purchasing Agent reserves the right to deny or limit M.B.E./W.B.E. credit to the contractor where any M.B.E. or W.B.E. is found to be engaged in substantial subcontracting or pass-through activities with others. In this regard, a contractor may count toward its M.B.E. and W.B.E. goals only expenditures to firms that perform a commercially useful function. A firm is considered to perform a commercially useful function when it is responsible for the performance of a clearly defined and distinct element of work and is carrying out its responsibilities by actually performing, managing, and supervising the work involved. To determine whether a firm is performing a commercially useful function, the Purchasing Agent shall evaluate the amount of work subcontracted, industry practices, and other relevant factors. The amount of M.B.E./W.B.E. participation credit shall be based

upon an analysis by the Purchasing Agent of the specific duties that will be performed by the M.B.E. or W.B.E. Each M.B.E./W.B.E. shall be expected to actually perform a substantial (i.e., more than eighty-five percent (85%)) portion of the work contemplated for it by any subcontract or agreement through the use of its own employees and equipment. Requested information may include, without limitation: (1) specific information concerning brokers' fees and/or commissions; (2) intended sub-suppliers or other sources of goods and/or services; and (3) specific financial or other risks to be assumed by the M.B.E./W.B.E.

C. The participation of M.B.E.s and W.B.E.s who have been certified as "brokers" shall be credited at a rate equal to no more than twenty percent (20%) of the actual dollar value of the goods and/or services "brokered" by the M.B.E. or W.B.E. for contracts advertised in 1990, ten percent (10%) for contracts advertised in 1991, five percent (5%) for contracts advertised in 1992, and zero thereafter. The Purchasing Agent reserves the right to grant credit for the participation of M.B.E. and W.B.E. brokers at lesser rates where, based upon an analysis of the specific functions and duties of the M.B.E. or W.B.E. "broker", and other relevant factors (including common industry practices), it is determined that the value of the services provided by the M.B.E. or W.B.E. "broker" are either unsubstantiated or are clearly worth less than the applicable percentage of the value of the proposed (sub)contract. In order to facilitate this analysis by the Purchasing Agent, M.B.E./W.B.E. "brokers" shall provide, upon request, relevant information concerning their proposed participation. The Purchasing Agent further reserves the right to deny credit to M.B.E./W.B.E. brokers where the M.B.E./W.B.E. participation, as proposed, will bring little or no value to the proposed transaction as a result of pass-through activities with other firms.

D. Credit for the participation of M.B.E.s/W.B.E.s as joint venture partners shall be based upon an analysis of the duties, responsibilities and risks undertaken by the M.B.E./W.B.E. as specified by the joint venture's executed joint venture agreement. The Purchasing Agent reserves the right to deny or limit M.B.E./W.B.E. credit to the contractor where any M.B.E./W.B.E. joint venture partner is found to have duties, responsibilities, risks or loss and management control over the joint venture that is not commensurate with or in proportion to its joint venture ownership.

IV. Grant Of Relief For Bidders: Waiver Of M.B.E./W.B.E. Goals.

A. If a bidder or proposer finds it impossible to commit to meet the M.B.E. and/or W.B.E. percentages, the bid or proposal must include a signed petition for grant of relief from this Special Condition on bidder's or proposer's letterhead, accompanied by documentation showing that all reasonable good faith efforts were made toward fulfilling the goal. Failure to request a waiver shall be grounds for disqualification of a bidder/proposer as non-responsive. A bidder/proposer which does not receive a waiver it

requested and does not otherwise satisfy the M.B.E./W.B.E. requirements shall be subject to disqualification for being non-responsive..

B. The bidder/proposer requesting a waiver of variance from the M.B.E./W.B.E. percentages should generally demonstrate the following in its petition:

- (1) Evidence of direct negotiations with fifty percent (50%) or more of the appropriate M.B.E.s/W.B.E.s including, at a minimum (i) the names, addresses and telephone numbers of M.B.E./W.B.E. contracts; (ii) a description of the information provided to the M.B.E.s/W.B.E.s regarding potential work to be performed; and (iii) a statement indicating why negotiations failed to result in any agreement;
- (2) A detailed statement of the notice sent to appropriate associations of M.B.E.s/W.B.E.s of its need for subcontractors;
- (3) A detailed statement of the efforts made to identify and select portions of direct contract work to be performed by M.B.E.s/W.B.E.s;
- (4) A detailed statement of the efforts made to identify opportunities for M.B.E.s/W.B.E.s to perform work for the bidder/proposer where such M.B.E./W.B.E contracting would not directly relate to the performance of this contract;
- (5) Evidence of the bidder/proposer's general affirmative policies regarding the utilization of M.B.E.s/W.B.E.s, including an exposition of methods used to carry out these policies; and
- (6) Evidence of the bidder/proposer's past performance with regard to the participation of M.B.E.s and W.B.E.s in the City of Chicago contracts and in proportion with the bidder/proposer's overall expenditures for goods and services.

C. If the bidder/proposer does not meet the M.B.E. and/or W.B.E. goals, price alone shall not be an acceptable basis for which the bidder/proposer may reject the M.B.E./W.B.E. subbid/subproposal unless the bidder/proposer can show to the satisfaction of the City that no reasonable prices can be obtained from a M.B.E./W.B.E. A determination of reasonable prices is based on such factors as the City's estimate for the work under a specific subcontract, the bidder's/proposer's own estimate for the specific subcontract, and the average of the bona fide prices quoted for the specific subcontract. A M.B.E./W.B.E. bid/proposal for a subcontract will be presumed to be unreasonable if the M.B.E.s/W.B.E.s prices exceed the average prices quoted by more than 15 percent (15%)

V. Procedure To Determine Bid Compliance.

The following Schedules and described documents constitute the bidder's M.B.E./W.B.E. proposal, and must be submitted in accordance with the guidelines stated:

A. Schedule C-1: Letter Of Intent From M.B.E./W.B.E. To Perform As Subcontractor, Supplier And/Or Consultant.

(1) A Schedule C-1, executed by the M.B.E./W.B.E. (or Schedule B/Joint Venture Subcontractor) must be submitted by the bidder/proposer for each M.B.E./W.B.E. included on their Schedule D-1 and must accurately detail the work to be performed by the M.B.E./W.B.E. and the agreed rates and prices to be paid.

(2) If any fully completed and executed Schedule C-1 is not submitted with the bid/proposal, it must be received by the Contract Administrator within ten (10) days of the bid/proposal opening. (All post bid/proposal submissions must be in triplicate with original signatures on all documents). Failure to submit a completed Schedule C-1 in accordance with this section shall entitle the City to deem the bid/proposal non-responsive and therefore reject the of bid/proposal.

B. Letters Of Certification.

(1) A copy of each proposed M.B.E./W.B.E. firm's current Letter of Certification from the City of Chicago must be submitted with the bid/proposal.

(2) All Letters of Certification issued by the City of Chicago include a statement of the M.B.E./W.B.E. firm's Area of Specialty. The M.B.E./W.B.E. firm's scope of work, as detailed by their Schedule C-1 must conform to their stated Area of Specialty.

C. Joint Venture Agreements.

(1) If the bidder's/proposer's M.B.E./W.B.E. proposal includes the participation of M.B.E./W.B.E. as joint venture on any tier (either as the bidder/proposer or as a subcontractor), the bidder/proposer must provide a copy of the joint venture agreement and a Schedule B.

(2) In order to demonstrate the M.B.E./W.B.E. partner's share in the ownership, control, management responsibilities, risks and profits of the joint venture, the proposed joint venture agreement must include specific details related to: (1) contributions of capital and equipment; (2) work responsibilities or other performance to be undertaken by the M.B.E./W.B.E.; and (3) the commitment of management, supervisory and operative personnel employed by the M.B.E./W.B.E. to be dedicated to the performance of the contract. The joint venture agreement must also clearly define each partner's authority to contractually obligate the joint venture and each partner's authority to expend joint venture funds (e.g., check signing authority).

D. Schedule D-1: Affidavit Of Prime Contractor Regarding D.B.E./M.B.E./W.B.E.

(1) Bidders must submit, together with the bid, a completed Schedule D-1 committing them to the utilization of each listed M.B.E./W.B.E. firm.

(2) Except in cases where the bidder/proposer has submitted a request for a complete waiver of or variance from the M.B.E./W.B.E. commitment in accordance with Section IV herein, the bidder/proposer must commit to the expenditure of a specific dollar amount of participation by each M.B.E./W.B.E. firm included on their Schedule D-1. The total dollar commitment to proposed M.B.E.s must at least equal the M.B.E. goal, and the total dollar commitment to proposed W.B.E.s must at least equal the W.B.E. goal. Bidders are responsible for calculating the dollar equivalent of the M.B.E. and W.B.E. goals as percentages of their total base bids or in the case of Term Agreements, as percentages of the total estimated usage.

(3) All commitments made by the bidder's Schedule D-1 must conform to those presented in the submitted Schedule C-1. If Schedule C-1 is submitted after the opening (See Section V. A. above), the bidder/proposer may submit a revised Schedule D-1 (executed and notarized in triplicate to conform with the Schedules C-1 and D-1). Except in cases where substantial and documented justification is provided, bidders/proposers will not be allowed to reduce the dollar commitment made to any M.B.E. or W.B.E. in order to achieve conformity between the Schedules C-1 and D-1.

VI. Reporting Requirements During The Term Of The Contract.

A. The contractor shall, not later than thirty (30) days from the award of a contract by the City, execute formal contracts or purchase orders with the M.B.E.s and W.B.E.s included in their approved M.B.E./W.B.E. Utilization

Plan. These written agreements shall be made available to the Purchasing Agent upon request.

B. In the case of one time procurements of supplies with either single or multiple deliveries to be performed in less than one year from the date of contract award, a "M.B.E./W.B.E. Utilization Report", indicating final M.B.E. and W.B.E. payments shall be submitted directly to the Department of Purchases, Contracts and Supplies so as to assure receipt either at the same time, or before the using Department receives contractor's final invoice. (Notice: Do not submit invoices with "M.B.E./W.B.E. Utilization Reports".)

C. During the term of all other contracts, the contractor shall submit regular "M.B.E./W.B.E. Utilization Reports", a copy of which is attached. The frequency with which these reports are to be submitted will be determined by the Purchasing Agent, but in no case will reports be required less often than on a quarterly basis. In the absence of written notice from the Purchasing Agent, the contractor's first "M.B.E./W.B.E. Utilization Report" will be due ninety (90) days after the date of contract award and reports will be due quarterly thereafter.

D. "M.B.E./W.B.E. Utilization Reports" are to be submitted directly to: Department of Purchases, Contracts and Supplies, Division of Contract Monitoring and Compliance, City Hall, Room 400, 121 North LaSalle Street, Chicago, Illinois 60602.

E. The Contract Compliance Administrator shall be entitled to examine, on five (5) business days notice, the contractor's books and records including without limitation payroll records, tax returns and records, and books of account, to determine whether the contractor is in compliance with its commitment to M.B.E./W.B.E. participation and the status of any M.B.E./W.B.E. performing any portion of the contract. Such rights are in addition to any other inspection rights contained in the contract.

VII. M.B.E./W.B.E. Substitutions.

A. Changes by the contractor of the commitments earlier certified in the Schedule D-1 are prohibited. In some cases, however, it may become necessary to substitute a new M.B.E. or W.B.E. in order to actually fulfill the M.B.E./W.B.E. requirements.

B. The contractor must notify the Purchasing Agent immediately in writing of the necessity to reduce or terminate a M.B.E./W.B.E. subcontract and to utilize a substitute firm for some phase of work. The contractor's notification should include the name, address and principal official of the substitute M.B.E./W.B.E. and the dollar value and scope of work of the subcontract. Attached should be all the requisite M.B.E./W.B.E. affidavits

and documents, as enumerated above in Section V, "Procedure to Determine Bid Compliance".

C. The City will not approve extra payment for escalated costs incurred by the contractor when a substitution of subcontractors becomes necessary for the contractor in order to comply with M.B.E./W.B.E. contract requirements.

D. After award of contract, no relief of the M.B.E./W.B.E. requirements will be granted by the City except in exceptional circumstances. Requests for complete or partial waiver of the M.B.E./W.B.E. requirements of this contract must be made in writing, stating all details of the request, the circumstances, and any additional relevant information. The request must be accompanied by a record of all efforts taken by the contractor to locate specific firms, solicit M.B.E./W.B.E. bids, seek assistance from technical assistance agencies, et cetera, as outlined above in the section entitled "Grant of Relief for Bidders: Waiver of M.B.E./W.B.E. Goals".

VIII. Non-Compliance And Damages.

A. The following constitute a material breach of this contract and shall entitle the City to declare a default, terminate the contract and exercise those remedies provided for in the contract, at law or in equity:

- (1) failure to satisfy the M.B.E./W.B.E. percentages required by the contract; and
- (2) the contractor or subcontractor is disqualified as a M.B.E. or W.B.E., if such status was a factor in contract award, and was misrepresented by the contractor.

In the event that the contractor is determined not to have been involved in any misrepresentation of the status of the disqualified subcontractor or supplier, the contractor shall discharge the disqualified subcontractor or supplier and, if possible, identify and engage a qualified M.B.E. or W.B.E. as its replacement. Furthermore, continued eligibility to enter into future contracting arrangements with the City may be jeopardized as a result of non-compliance. Payments due to the contractor may be withheld until corrective action is taken.

B. In the event the contractor has not complied with the contractual M.B.E./W.B.E. percentages, underutilization of M.B.E.s or W.B.E.s shall entitle the affected M.B.E.s and/or W.B.E.s to recover from the contractor damages suffered by these M.B.E.s and/or W.B.E.s as a result of such underutilization. Therefore, the contractor hereby agrees that any disputes between the contractor and such affected M.B.E.s and W.B.E.s regarding

damages shall be resolved by binding arbitration before an independent arbitrator other than the City, with reasonable expenses, including attorneys' fees, being recoverable by a prevailing M.B.E./W.B.E. in accordance with applicable City regulations. This provision is intended for the benefit of any M.B.E. or W.B.E. affected by underutilization and grants them specific third-party beneficiary rights.

Schedule C-1 and Schedule D-1 attached to this (Sub)Exhibit 3 read as follows:

Notes 1 -- 5.

1. In accordance with Chapter 26, Section 26-26 of the City of Chicago Municipal Code, the Contractor or a subcontractor shall be chargeable with the conduct of an affiliated entity. Business entities are affiliated if, directly or indirectly, one controls or has the power to control the other, or if a third person controls or has the power to control both entities. Indicia of control include without limitation: interlocking management or ownership; identity of interests among family members; shared facilities and equipment; common use of employees; or organization of a business entity following the ineligibility of a business entity under Chapter 26, Section 26 of the City of Chicago Municipal Code using substantially the same management, ownership or principals as the ineligible entity.

2. No corporation shall be barred from contracting with any unit of State or local government as a result of a conviction under either Section 33E-3 or Section 33E-4 of Article 33 of the State of Illinois Criminal Code of 1961, as amended, of any employee or agent of such corporation if the employee so convicted is no longer employed by the corporation and: (1) has been finally adjudicated not guilty, or (2) if it demonstrates to the governmental entity with which it seeks to contract and that entity finds that the commission of the offense was neither authorized, requested, commanded, nor performed by a director, officer or a high managerial agent on behalf of the corporation as provided in paragraph (2) of Subsection (a) of Section 5-4 of the State of Illinois Criminal Code.

3. For purposes of Section I of this certification, a person commits the offense of and engages in bid-rigging when he knowingly agrees with any person who is, or but for such agreement would be, a competitor of such person concerning any bid submitted or not submitted by such person or another to a unit of State or local government when with the intent that the bid submitted or not submitted will result in the award of a contract to such person or another and he either (1) provides such person or receives from another information concerning the price or other material term or terms of the bid which would otherwise not be disclosed to a competitor in an independent noncollusive submission of bids or (2) submits a bid that is of such a price or other material term or terms that he does not intend the bid to be accepted, Ill. Rev. Stat., 1989, Ch. 38, Sec. 33E-3.

4. For purposes of Section I of this certification, a person commits the offense of and engages in bid-rotating when, pursuant to any collusive scheme or agreement with another, he engages in a pattern over time (which, for the purposes hereof, shall include at least three contract bids within a period of ten years, the most recent of which occurs after January 1, 1989) of submitting sealed bids to units of State or local government with the

intent that the award of such bids rotates, or is distributed among persons or business entities which submit bids on a substantial number of the same contracts, Ill. Rev. Stat., 1989, Ch. 38, Sec. 33E-4.

5. Chapter 24, §11-42.1-1 of the Illinois Revised Statutes provides that a municipality may not enter into a contract or agreement with an individual or other entity that is delinquent in the payment of any tax administered by the Illinois Department of Revenue unless the contracting party is contesting, in accordance with the procedures established by the appropriate Revenue Act, its liability for the tax or the amount of the tax or unless the contracting party has entered into an agreement to pay the tax and is in compliance with the Agreement. Notwithstanding the above, the municipality may enter into the contract if the contracting authority for the municipality determines that:

- (1) the contract is for goods or services vital to the public health, safety, or welfare; and
- (2) the municipality is unable to acquire the goods or services at a comparable price and of comparable quality from other sources.

Said resolutions, as passed, read as follows (the italic heading in each case not being a part of the resolution):

2058 West Washburne Avenue.

WHEREAS, Mr. Edward Brooks, filed on February 4, 1991, an application for an exception pursuant to Article 11.7A-3 of the Chicago Zoning Ordinance for the approval of the change of licensee and continued operation of an existing tavern in a one-story building, in an R3 General Residence District, on premises at 2058 West Washburne Avenue; and

WHEREAS, The decision of the Office of the Zoning Administrator rendered January 24, 1991, reads:

"Application not approved. Requested certification does not conform with the applicable provisions of the Chicago Zoning Ordinance, Chapter 194A of the Municipal Code of Chicago, specifically Article 7.3-4, 11.7A-1"

; and

WHEREAS, The district maps show that the premises is located in an R3 General Residence District; and

WHEREAS, The Zoning Administrator, having fully reviewed all information and being fully advised of the premises, hereby makes the following findings of fact: that the said use is located in an R3 General Residence District; that the subject site is improved with a one-story building containing an existing tavern on the first floor; that on July 12, 1990, the City Council passed an ordinance requiring an exception for the approval of the change of license of an existing tavern located in a residence district; that the existing tavern is to be operated under a new license; that the majority of the tavern patrons come from the local neighborhood and that the continued operation of the tavern at this location is necessary for the public convenience; that the applicant, as the new licensee, proposes to operate the tavern in such a manner to insure that the public health, safety and welfare will be adequately protected; and that the continued operation of the existing tavern and restaurant will not cause substantial injury to the value of other property in the neighborhood; now, therefore,

Be It Resolved, That the application for an exception is approved for the change of licensee and continued operation of an existing tavern in a one-story building, on premises at 2058 West Washburne Avenue, and that all

applicable ordinances of the City of Chicago shall be complied with before a license is issued; and

Be It Further Resolved, That the granting of this exception shall run only with the applicant, Mr. Edward Brooks, as licensee, and that a change of licensee shall terminate the exception granted herein; and

Be It Further Resolved, That the tavern in the subject building is, and shall continue to be, subject to all applicable provisions of Article 6 of the Zoning Ordinance.

5029 South Racine Avenue.

WHEREAS, Mr. Heski Hughes, filed on February 3, 1991, an application for an exception pursuant to Article 11.7A-3 of the Chicago Zoning Ordinance for the approval of the change of licensee and continued operation of an existing tavern in a two-story building, in an R3 General Residence District, on premises at 5029 South Racine Avenue; and

WHEREAS, The decision of the Office of the Zoning Administrator rendered January 2, 1991, reads:

"Application not approved. Requested certification does not conform with the applicable provisions of the Chicago Zoning Ordinance, Chapter 194A of the Municipal Code of Chicago, specifically Article 7.3-4, 11.7A-1"

; and

WHEREAS, The district maps show that the premises is located in an R3 General Residence District; and

WHEREAS, The Zoning Administrator, having fully reviewed all information and being fully advised of the premises, hereby makes the following findings of fact: that the said use is located in an R3 General Residence District; that the subject site is improved with a two-story building containing an existing tavern on the first floor; that on July 12, 1990, the City Council passed an ordinance requiring an exception for the approval of the change of license of an existing tavern located in a residence district; that the existing tavern is to be operated under a new license; that

the majority of the tavern patrons come from the local neighborhood and that the continued operation of the tavern at this location is necessary for the public convenience; that the applicant, as the new licensee, proposes to operate the tavern in such a manner to insure that the public health, safety and welfare will be adequately protected; and that the continued operation of the existing tavern and restaurant will not cause substantial injury to the value of other property in the neighborhood; now, therefore,

Be It Resolved, That the application for an exception is approved for the change of licensee and continued operation of an existing tavern in a two-story building, on premises at 5029 South Racine Avenue, and that all applicable ordinances of the City of Chicago shall be complied with before a license is issued; and

Be It Further Resolved, That the granting of this exception shall run only with the applicant, Mr. Heski Hughes as licensee, and that a change of licensee shall terminate the exception granted herein; and

Be It Further Resolved, That the tavern in the subject building is, and shall continue to be, subject to all applicable provisions of Article 6 of the Zoning Ordinance.

Any existing parking areas shall be landscaped and screened at the time of commencement of operation of any new interim parking areas. Following demolition of any of the currently existing improvements on the Property, any resulting open areas not otherwise devoted to a permitted interim use shall either be cleared, leveled and maintained in landscaping or shall be effectively screened from visibility from the public way by opaque fencing or by other enclosures maintained in a clean and attractive condition.
6. Identification signs shall be permitted within the Planned Development subject to the review and approval by the Commissioner of the Department of Planning. Temporary signs, such as construction and marketing signs shall be permitted, subject to the review and approval of the Commissioner of the Department of Planning.

There shall be no parking within such paved areas. Ingress and egress shall be subject to the review and approval of the Bureau of Traffic Engineering and Operations and of the Commissioner of Planning.
10. Height restriction of any building or any appurtenance thereto, shall, in addition to the Table of Use and Bulk Regulations, be subject to:
 - a. Height limitations as certified on form F.A.A.-117, or successor forms involved in the same subject matter and approved by the Federal Aviation Administration; and
 - b. Airport zoning regulations as established by the Department of Planning, Department of Aviation, and Department of Law, and approved by the City Council.
11. For purposes of Floor Area Ratio (F.A.R.) calculations, the definitions in the Chicago Zoning Ordinance shall apply.
12. This Planned Development herein shall be subject to the "Rules, Regulations and Procedures in Relation to Planned Developments", as promulgated by the Commissioner of Planning.
13. The improvements on the Property, including all entrances and exits to the parking and loading areas, shall be designed and constructed in general conformance with the Site Plan, and to assure compatibility with the adjacent historic district, with the Elevation Plans. The landscaping (including street trees in the adjacent right-of-way) shall be designed and constructed in general conformance with the Landscape Plan. The landscaping shall be maintained at all times in accordance with the Landscape Plan. One (1) two and one-half ($2\frac{1}{2}$) inch caliper tree shall be installed for each twenty-five (25) feet of frontage, subject to and in accordance with the standards of the Department of Streets and Sanitation, Bureau of Forestry and the Department of Public Works, Bureau of Street Traffic and subject to the approval of the Department of Planning. The Applicant shall for a period of five (5) years from the adoption of this ordinance, be responsible for watering and fertilizing parkway trees required to be provided by the Landscape Plan and for routine care of the parkway lawn. Routine care of the parkway lawn shall include

periodic watering, weeding and mowing. The requirements of this statement may be modified, administratively, by the Commissioner of the Department of Planning upon the request of the Applicant and after a determination by the Commissioner of the Department of Planning that such a modification is consistent with the nature of the improvements contemplated in this Planned Development. Such a modification shall be deemed to be a minor change in the Planned Development as contemplated by Section 11.11-3(c) of the Chicago Zoning Ordinance.

14. Unless substantial construction of the proposed structure has commenced within ten (10) years following adoption of this Planned Development, and unless completion is thereafter diligently pursued, then this Planned Development shall expire; provided, however, that if the City Council amends the Chicago Zoning Ordinance to provide for a shorter expiration period which is applicable to all planned developments, then this Planned Development shall expire upon the expiration of such shorter time period as provided by said Amendatory Ordinance (the first day of which as applied to this Planned Development shall be the effective date of the Amendatory Ordinance). If this Planned Development expires under the provisions of this section, then the zoning of the property shall automatically revert to that of an R7 General Residence District.
15. Subject to the approvals of the Department of Public Works, Bureau of Electricity and the Department of Planning, the Applicant shall replace and maintain the existing streetlight standards adjacent to the property with decorative light standards of a design compatible with the Historic District character of the area.
16. This Planned Development contemplates the construction of an elevator apartment building, parking garage and townhouses described on the Site Plan. In order to accommodate the necessities of staging construction phases, however, the following requirements shall apply. The Department of Planning shall not issue any determination of approval pursuant to Section 11.11-3 (b) of the Chicago Zoning Ordinance ("Part II Approval") for any development of the elevator apartment building contemplated by this Planned Development unless the Department is also prepared to issue Part II Approval for development of all of the proposed townhouses or associated parking garage. Provided, however, such Part II Approval can be issued for the garage and development of townhouses irrespective of application for Part II Approval of the elevator building. Furthermore, at the time a Certificate of Occupancy for the parking garage is issued (1) construction of fifty percent (50%) of the lower three (3) levels of the townhouses along Delaware Place shall have been commenced and (2) the remaining facades of the parking garage shall be enclosed with construction

fencing. Provided, however, that in the event that substantial construction of the lower three (3) levels of any or all of the remaining townhouses is not commenced within six (6) months from the date that a Certificate of Occupancy is issued for the parking garage, then the remaining facades of the parking garage shall be substantially, attractively and effectively screened with non-permanent densely planted and mature landscaping or with other enclosures provided that such screening and enclosures shall be subject to the review and approval of the Department of Planning. This landscaping requirement shall not apply to areas reasonably necessary for construction staging so long as construction has commenced and is underway, and upon removal of the construction staging the foregoing landscaping/enclosure requirement shall apply. Prior to issuance of any Certificate of Occupancy for the elevator apartment building, construction of the lower three (3) levels of the exteriors of the townhouses along Clark Street, Dearborn Street, Chestnut Street and the remaining fifty percent (50%) along Delaware Place shall have been substantially commenced and shall be thereafter pursued to completion with reasonable diligence.

WHEREAS, The agreement requires Continental to pay the City 10% of Continental's gross revenue from said ground transportation service; and

WHEREAS, Changes in the nature of the ground transportation industry, increased competition for ridership and alternative means of transportation have made said agreement unprofitable for Continental and has resulted in a substantial indebtedness to the City; and

WHEREAS, Continental is desirous to continue providing the agreed upon ground transportation service and of paying the aforementioned indebtedness; and

WHEREAS, The payment terms under which Continental currently operates exceed the industry standard and the amendment proposed will provide payment terms which conform with the industry standard; now, therefore,
